CITY OF BEVERLY HILLS
STAFF REPORT

Meeting Date: October 6, 2009

To: City Council

From: Pamela Mottice Muller, Office of Emergency Management

Subject: Health and Safety Week

Attachments: None

INTRODUCTION

Safety and Emergency Preparedness Week was developed ten years ago through joint planning efforts between City staff, the Beverly Hills Unified School District and the PTA Council. Over the years the week has offered the community a variety of programs and activities designed to educate and raise citizen awareness on the importance of living safely and being prepared in the event of a disaster. One of the first tasks of the newly formed Health and Safety Commission was to evaluate the week. The Commission voted to continue holding the week but to change the focus to activities that would promote the Commissions vision to enhance the health and safety of the community. A health component was added and the emphasis on emergency preparedness was minimized as emergency preparedness is now promoted during National Preparedness Month in September. The official name of the week was changed to Health and Safety Week. This will be the Health and Safety Commission's signature event. The Commission is working hard to produce a fun, informative and eventful week.

DISCUSSION

"Beverly Hills: Be Healthy! Be Safe!" is this year's theme of Health and Safety Week to be held October 26 – November 1. The week will consist of the following components:

Speakers

On October 26, Laurie Paletz, RN-BC from Cedar-Sinai Medical Center will talk with seniors at the Roxbury Park Community Center on stroke prevention.

On October 28, at 7:00 p.m. Dr. Karen Halligan, DVM will give a speech entitled "Keeping Your Pets Healthy and Safe" in the City Council Chambers. Karen "Doc" Halligan is the Director of Veterinary Services at the Society for Prevention of Cruelty to Animals of Los Angeles (spcaLA) and has developed a distinguished veterinary medical career while gaining acclaim as a national authority on animals. She was on the ground in Baton Rouge, Louisiana, dealing firsthand with the animals abandoned as a result of
