DISCUSSION

The overall purpose of this and future quarterly reports is to enhance communication and provide an understanding of all that is being accomplished for the benefit of the community. The report has been organized to give you the option of reviewing in great detail by individual work plan items, service indicator items, and capital improvement projects or, for a more general "big picture" view, an Executive Summary of work plan items, categorized by department or priority has been provided. Over time, as future volumes are produced, the City Council, community and staff will have a timely instrument by which to measure and track our accomplishments and successes on a quarterly basis.
