

AGENDA REPORT

Meeting Date: November 15, 2016

Item Number: E-5

To: Honorable Mayor & City Council

From: Ryan Gohlich, Assistant Director of Community Development - City Planner
Timothea Tway, Associate Planner

Subject: 2015 GENERAL PLAN AND HOUSING ELEMENT ANNUAL REPORT

Attachments: 1. 2015 General Plan and Housing Element Implementation Annual Report

RECOMMENDATION

Staff recommends that the City Council receive the attached General Plan and Housing Element Implementation Report for 2015, and direct staff to forward the Annual Report to the State Office of Planning and Research and the Department of Housing and Community Development.

INTRODUCTION

The State requires all jurisdictions to annually file a report of progress made in implementing programs in the General Plan including programs contained in the Housing Element. The City's 2015 Annual Report on General Plan and Housing Element Implementation is attached to this report. One of the state requirements for submitting the annual report is conducting a public hearing at which the City Council may receive public comment on the report. Staff presented the report to the Planning Commission as an information item on November 10, 2016.

DISCUSSION

The attached annual report outlines the current status of the 50 programs included in the City's General Plan and includes information about significant program accomplishments achieved in 2015.

Several highlights, which demonstrate progress in implementing the General Plan, are outlined in the following table. The attached report contains more detailed information on each program in the General Plan.

Highlights from 2015 General Plan Implementation Report

Action	Description
Latest Comprehensive Update	January 12, 2010 - Comprehensively updated all elements in the General Plan, deleted the Scenic Highway Element, and created the Public Service and Historic Preservation Elements.
General Plan Amendments Since the 2010 Update	December 17, 2013 - Adoption of the 2014-2021 Housing Element November 15, 2011 - Adoption of the 2006-2013 Housing Element November 15, 2011 - Amendment of the Safety Element to include the City's Hazard Mitigation Management Plan (2015-2021 Hazard Mitigation Management Plan currently underway)
2015 Significant Accomplishments <i>The table beginning page 4 of Attachment 1 highlights accomplishments and progress made on programs in the General Plan. Significant accomplishments are noted to the right.</i>	Affordable Housing: In 2015 the City developed an Affordable Housing Guidelines document to outline the processes related to the development and implementation of affordable housing units in the City. The document was adopted in early 2016. Stage D Conservation Measures: In 2015 the City of Beverly Hills instituted Stage D of the City's Emergency Water Conservation Stages, which mandates conservation measures in order to address the drought. This included prohibition of exterior washing of buildings, additional public information campaigns, restriction of landscape irrigation, and water use reduction requirements. Low Impact Development Standards: In 2015 the City Council adopted Low Impact Development Standards and a Green Streets Policy. Low Impact Development Standards are a set of design approaches and best management practices that promote natural system for infiltration, evapotranspiration and use of storm water to mitigate the impacts of increases in runoff and storm water pollution. Beverly Hills Bike Share: In 2015 the City of Beverly Hills purchased bicycles for the new Beverly Hills Bike Share program, which was successfully launched in 2016. Historic Preservation: In 2015 the City of Beverly Hills nominated an additional three landmarks in the City, bringing the total number of landmarks to 29. Dog Park: The City Council approved the Beverly Hills Dog Park in 2015 and broke ground in early 2016. This is the only dog park in the City of Beverly Hills and is an infill project located in the old industrial area of the City.

Commissions Framework and Structure: in 2015 the City Council adopted an ordinance to establish clear and consistent regulations for the City's Commissions and further define the charges of certain Commissions.

Next Beverly Hills: Then Mayor Gold launched a committee for "next generation leaders" in order to engage residents and business people ages 25-45. The Committee began meeting regularly in 2015 and defined committee priorities.

2015 Homeless Count: The City of Beverly Hills participated in the 2015 Homeless Count.

Southeast in Motion: In 2015 the City launched the "Southeast in Motion" Community Planning effort to create a community plan for the Southeast Area of Beverly Hills. This effort builds upon the work completed by the Southeast Task Force and has included three community visioning workshops thus far. The work continued into 2016.

Water Capacity Charge: In 2015 the City of Beverly Hills City Council adopted a water capacity charge in order to allocate new connections a proportionate share of the cost of existing facilities and planned capital improvements needed to achieve the City's current water supply goals.

Disaster Reconstruction Ordinance: In 2015 the City Council adopted a Disaster Reconstruction Ordinance to establish regulations for rebuilding after a disaster.

National Night Out and CERT Training: The City continues to hold National Night Out events and Community Emergency Response Team (CERT) training for community members.

The City is currently making progress on many of the programs in the General Plan. Status updates on each program are outlined in the attached report starting on page 4. Currently, the City's General Plan is consistent with State requirements. With the filing of the attached report the City will have met its reporting obligation (General Plan Program 1.1).

Affordable Housing Units and Regional Housing Needs Assessment (RHNA)

Each year the City is required to report to the State the number of housing units permitted. Additionally, the City must report progress made toward the fulfillment of its Regional Housing Needs Assessment (RHNA) allocation. The RHNA allocation is the minimum number of housing units for which each jurisdiction must provide "adequate sites" through zoning, as assigned by the State and the regional planning agency (Southern California Association of Governments). The City of Beverly Hills was allocated the following RHNA for the 2014-2021 Housing Element Cycle:

Regional Housing Needs Assessment 2014-2021, Beverly Hills			
Income Level	Percent of AMI*	Units	Percent
Extremely Low**	0-30%	0	0%
Very Low	31-50%	1	33%
Low	51-80%	1	33%
Moderate	81-120%	1	33%
Above Moderate	120%+	0	0%
Total		3	100%

Source: <http://SCAG.ca.gov.gov/Housing/rhna.htm>

* AMI – Area Median Income.

** An estimated half of the City's very low income housing needs (0 units) are for extremely low income households.

In 2015, the City made progress toward meeting its RHNA numbers through the permitting of a 23 unit multi-family project that contains two deed restricted affordable units. The 23 unit multi-family building is a density bonus project that includes two very low income units. Since the adoption of the current Housing Element in 2014, the City has permitted a total of seven units that qualify as low or very-low income housing units thereby exceeding the total allocation prescribed by the State. Please see the tables on page 29 of the attached Annual Report for more information on permitted units.

GENERAL PLAN CONSISTENCY

Implementation of the programs and reporting to the State are consistent with the goals and policies in the General Plan including Program 1.1, which calls for the submittal of an annual General Plan report to the State.

PUBLIC NOTICING AND COMMENTS

The public hearing for this item was noticed in local newspapers on November 4, 2016, and November 11, 2016.

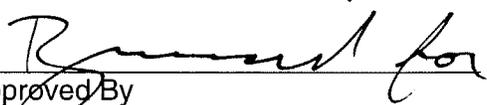

NEXT STEPS

With direction from the City Council, the Annual General Plan and Housing Element Report will be sent to the State Office of Planning and Research and the Department of Housing and Community Development as an update on the City's progress toward implementing the General Plan.

FISCAL IMPACTS

There are no fiscal impacts associated with this report.

City Council Review

On _____, 2016, the City Council held a public hearing and received testimony on the goals, policies, and programs in the General Plan. At the end of the public hearing the City Council directed city staff to submit this report to the State Office of Planning and Research and the State Department of Housing and Community Development.

Compliance with State Guidelines

The City of Beverly Hills General Plan is in compliance with State Guidelines.

General Plan Accomplishments

The following table presents important dates and accomplishments in implementing the General Plan.

Action	Description
Latest Comprehensive Update	January 12, 2010 - Comprehensively updated all elements in the General Plan, deleted the Scenic Highway Element, and created the Public Service and Historic Preservation Elements.
General Plan Amendments Since the 2010 Update	<p>December 17, 2013 - Adoption of the 2014-2021 Housing Element</p> <p>November 15, 2011 - Adoption of the 2006-2013 Housing Element</p> <p>November 15, 2011 - Amendment of the Safety Element to include the City’s Hazard Mitigation Management Plan (2015-2021 Hazard Mitigation Management Plan currently underway)</p>
<p>2015 Significant Accomplishments</p> <p><i>The table beginning page 4 of Attachment 1 highlights accomplishments and progress made on programs in the General Plan. Beverly Hills. This effort builds upon the work completed by the Southeast Task Force and has included three community visioning workshops thus far. The work will continue into 2016.

Water Capacity Charge: In 2015 the City of Beverly Hills City Council adopted a water capacity charge in order to allocate new connections a proportionate share of the cost of existing facilities and planned capital improvements needed to achieve the City's current water supply goals.

Disaster Reconstruction Ordinance: In 2015 the City Council adopted a Disaster Reconstruction Ordinance to establish regulations for rebuilding after a disaster.

National Night Out and CERT Training: The City continues to hold National Night Out events and Community Emergency Response Team (CERT) training for community members.

General Plan Programs for All Elements (Except Housing)

The charts beginning on the following page provide the title, objective, action and description for each of the programs in the General Plan. The charts also provide a status that summarizes actions the City has taken to date to implement each program.

General Plan Programs for All Elements (Except Housing)

No.	Program Title	Program Description	Status	
1.1	Annual General Plan Review	Prepare an annual report to the City Council on the status of the general plan and progress in its implementation, including progress in meeting the City's fair share of regional housing needs, and submit this report to the California Office of Planning and Research.	Currently in effect.	
1.2	General Plan Amendments	Undertake general plan amendments as necessary, and carefully consider requests for amendments within the context of the goals in the general plan as well as current conditions and issues in the community. The City will undertake periodic revision of the housing element and other elements as required by State statutes.	Currently, the City's General Plan is consistent with State requirements. The City adopted an updated Housing Element in 2013 for the planning period 2014-2021.	
1.3	General Plan Consistency	<ul style="list-style-type: none"> City Programs and Private Development Proposals 	<p>To ensure that the goals and policies of the general plan are systematically implemented, the actions and decisions concerning both city programs and projects, and private development proposals must be consistent with the general plan.</p> <p>The City's capital improvement program and the projects that implement various infrastructure master plans, in addition to the City's development regulations and development agreements, must be consistent with the adopted general plan.</p>	<p>As part of the approval process, City programs and projects and private development proposals are reviewed for consistency with the General Plan.</p> <p>The City's Capital Improvement Program is reviewed annually for consistency with the General Plan.</p>
		<ul style="list-style-type: none"> Capital Improvements, Infrastructure Master Plans, Development Regulations, Development Agreements 	<ul style="list-style-type: none"> Community Character and Design Policies 	<p>Revisit and develop policies addressing community character and design and development for each land use category.</p> <p>Revisit transitions between residential and commercial properties, and reinforce requirements for design excellence.</p>
2.1	Update Zoning Code and Development Regulations	<ul style="list-style-type: none"> Transitions between Residential and Commercial Properties 	<ul style="list-style-type: none"> Protection for Environmental Resources/ 	<p>The City adopted Low Impact Development Standards on May 18, 2015.</p>
		<ul style="list-style-type: none"> Community Character and Design Policies 	<ul style="list-style-type: none"> Protection for Environmental Resources/ 	<p>The City adopted Low Impact Development Standards on May 18, 2015.</p>

General Plan Programs for All Elements (Except Housing)

No.	Program Title	Program Description	Status
		Protection from Environmental Hazards protect development, and populations from the risks of environmental hazards such as earthquakes and excessive noise.	Disaster Reconstruction Ordinance: In 2015 the City Council adopted a Disaster Reconstruction Ordinance to establish regulations for rebuilding after a disaster.
		<ul style="list-style-type: none"> • Smart Growth Revise and develop standards to promote pedestrian activity, transit-oriented planning, development of affordable housing, and implementation of more environmentally sustainable buildings and site planning. These may be accomplished through development requirements and/ or incentives. 	Ongoing
		<ul style="list-style-type: none"> • Easements and Dedications of Land Ensure that requirements for the dedication of land for roadway improvements, parklands, and other elements defined by general plan policies are fulfilled. 	The need to acquire easements and land dedications is reviewed annually along with the Capital Improvement Budget.
		<ul style="list-style-type: none"> • Noise Standards Revise and enhance standards and policies specified in the Noise Element to protect sensitive noise receptors, residents, and businesses from unwanted noise impacts from traffic, new uses, construction activities, truck deliveries, and similar sources. 	To be scheduled in a future budget cycle.
		<ul style="list-style-type: none"> • Commercial and Multi-family open space and recreational requirements and In-lieu Fees Require that all new commercial and multi-family residential projects provide on-site open space or recreational amenities consistent with the general plan's policies for on-site open space and recreational amenities, and contribute in-lieu fees for the development of new recreation facilities or enhancement of existing facilities, or a combination of both, to meet the demands generated by the development's resident population or employment base. 	To be scheduled in a future budget cycle.

General Plan Programs for All Elements (Except Housing)

No.	Program Title	Program Description	Status
	• Reduce Heat Island Effect	Establish and implement development standards to reduce the "heat island" effects of new large-scale commercial and residential developments. Standards may include cool roofs, installation of reflective roofs, light colored building materials and shade trees.	To be scheduled in future budget cycles.
	• Prohibit New Oil and Gas Drilling	Prohibit new oil, gas, or other hydrocarbon substance extraction activities in the City	New extraction from locations in the City restricted (BHMC 10-5-302 B). Further, in 2014, the City of Beverly Hills passed an ordinance prohibiting hydraulic fracturing in the City. This ordinance is still in effect.
	• Phase Out Existing Oil and Gas Drilling	Require existing oil, gas, and other hydrocarbon substance extraction activities in the City to be phased out during this planning period but no later than 2030.	Oil extraction occurring from surface locations within the City is scheduled to cease by December 16, 2016 (BHMC 10-5-323).
	• Employer Child Care	Develop a program to require major employers to provide child care facilities and programs.	To be scheduled in future budget cycles.
	• View Protection	Provide greater regulation for view protection of significant natural and man-made visual resources.	In 2010, the City adopted view shed protections for the Trousdale area of the City. No other view shed management initiatives are proposed as this time. Additional code enforcement staff positions exist to support the established program and a website was established to disseminate information on view protection. In 2015 planning staff processed the first view restoration case, which was considered in 2016.
	• Shared Parking	Provide for shared parking facilities in key areas of the community, such as commercial areas and near transit hubs.	In 2014 the City conducted a parking study to better understand existing public and private parking capacity and explore the development of a broader shared parking program. One recommendation that resulted from the study was the exploration of shared parking arrangements to better manage parking in the City. Staff will continue to explore potential shared parking

General Plan Programs for All Elements (Except Housing)

No.	Program Title	Program Description	Status
			situations.
	<ul style="list-style-type: none"> Revise Noise Regulations in the Municipal Code 	<p>Revise Chapter 1 (Noise Regulations) of title 5 of the City's Municipal Code to eliminate current ambient noise level standards in residential and commercial areas and replace them with Land Use Noise Compatibility Guidelines (Appendix B) to achieve acceptable levels of noise for specific land uses in the City. Provide a baseline for mitigating land uses which exceed acceptable noise levels, and require new residential developments to implement measures that address noise compatibility and noise attenuation during construction.</p>	To be scheduled in future budget cycles.
	<ul style="list-style-type: none"> Park and Open Space Standard 	<p>Strive to meet a park and open space standard that is consistent with National Recreation and Parks Associations (NRPA) standards for the acquisition of new parks and open spaces.</p>	In 2015 the City approved a new dog park in the City, adding to the open space inventory.
	<ul style="list-style-type: none"> Parks Master Plan 	<p>Revise and enhance the City's Parks Master Plan to assure that standards for new parks in the City and open space areas of new development are designed, constructed, maintained, and operated pursuant to sustainable specifications and practices.</p>	The City completed multiple park renovation projects in 2014, each one of which utilized sustainable designs and materials and significantly reduced the City's water consumption needs by reducing turf and introducing native, drought tolerant plants. New drip irrigation systems were also introduced.
	<ul style="list-style-type: none"> Sustainable City Plan 	<p>Implement the City's Sustainable City Plan promoting responsible management and effective stewardship of the City's built and natural environments, transforming the City into a model government agency that is clean, healthy, resource-efficient, and environmentally conscientious. The Sustainable City Plan is in development and programmed to be adopted concurrently with the updated general plan.</p>	<p>The Sustainable City Plan was adopted in 2010 and is implemented as appropriate.</p> <p>In 2014, the City hired an Environmental Compliance and Sustainability Program Manager</p> <p>In 2015 the City hired a Water Conservation Administrator</p>

General Plan Programs for All Elements (Except Housing)

No.	Program Title	Program Description	Status
		Review the Sustainable City Plan for consistency with the General Plan and update periodically.	
		<ul style="list-style-type: none"> • Access for Persons with Disabilities to Parks and Recreation Facilities 	<p>The City strives to provide ADA access to all parks and recreation facilities, as well as the City library and other civic buildings.</p> <p>In 2014 the City completed construction at Roxbury Park. These renovations include ADA compliant facilities.</p>
2.2	Development Review Process	Continue to regulate development for compliance with general plan goals, policies, and development standards, through the development review, and design review processes. Implementation of the updated general plan includes consideration of a number of additional factors for proposed development projects as described below.	
		<ul style="list-style-type: none"> • Non-toxic Building Materials 	The City has adopted the 2013 California Green Code, which addresses this program.
		<ul style="list-style-type: none"> • Green Building Program 	Since adoption of the General Plan Update, the State adopted the "CalGreen" Building Code, which is a mandatory State-wide green building code.
		<ul style="list-style-type: none"> • Open Space Standards 	The City approved a new dog park in an old industrial area to create new park space and amenities for the community.
		<ul style="list-style-type: none"> • Consultation for Biological Resources 	Currently in effect.

General Plan Programs for All Elements (Except Housing)

No.	Program Title	Program Description	Status
	<ul style="list-style-type: none"> • Consultation for Archeological Resources 	In the event that any prehistoric or historic subsurface archaeological features or deposits are discovered, require that City officials notified, and that all earth disturbing work within a 100 meter radius of a potential resource be temporarily suspended or redirected. Work shall not resume in the area until after the find is appropriately mitigated.	Currently in effect.
	<ul style="list-style-type: none"> • Development Agreements 	Encourage development agreements, which may be prepared as contractual agreements between the City and developers, to provide assurances to each party regarding the uses to be entitled, rules of development, and public benefits of a development project. The agreement may include conditions, terms, restrictions, and requirements for subsequent discretionary actions, and may specify the timing and phasing of construction.	Currently in effect.
	<ul style="list-style-type: none"> • Utilities 	Require all new developments to be served from an approved domestic water and sewer system, and require capacity analysis be provided to the satisfaction of the City.	Currently in effect. In 2015 the City adopted an ordinance amending the code to establish a water capacity charge.
	<ul style="list-style-type: none"> • Water Quality 	Require that engineering design and construction practices are adequate to ensure that existing and new development does not degrade the City's surface and ground water supplies.	Currently in effect.
	<ul style="list-style-type: none"> • Resource Conservation 	Develop and implement resource conservation measures that address reusing, recycling and reducing water usage, improving air quality, and increasing waste reduction and recycling through requirements and incentive programs in coordination with the Metropolitan Water District, South Coast Air Quality Management District, and other regional resource agencies.	Currently in effect.

General Plan Programs for All Elements (Except Housing)

No.	Program Title	Program Description	Status
		Develop a water and energy conservation plan and a waste reduction plan with goals and benchmarks for the next 20-year period. Further, establish auditing methods to evaluate the extent of success in meeting goals as well as the effectiveness of programs and technology.	Water: The City continues to develop both short-term and long-term goals to enhance water-use efficiency of its customers and promote conservation. Built to maximize the capability of the City's Automated Meter System (AMS), the City continues to utilize a leak detection program that contacts accountholders informing them when a continuous flows/water leak is registered alerting the customer of the leak condition. Second, the City is developing an enhanced web-based water usage tracking system enabling accountholders to monitor daily water consumption behavior in real time. Accountholders can also customize the web-based system to alert by phone, email or text for excessive usage. Electricity: The City continues to expand its renewable energy efforts as opportunities arise.
		Develop standards for, and require designated areas for, the collection and loading of recyclables.	The City currently co-mingles its recycling and waste. Recyclables are later separated from waste at a materials recycling facility and therefore this program has been suspended until further notice.
		Require new or renovated multi-family residential structures to include separate chutes or other facilities to facilitate separation of recyclable materials if appropriate.	The City currently co-mingles its recycling and waste and therefore this program has been suspended until further notice.
		<ul style="list-style-type: none"> R.O.W. Consideration for Transit 	Currently in effect.
2.3	Other Development Regulations and Ordinances	<ul style="list-style-type: none"> Historic Preservation Review and update regulations and ordinances other than zoning to conform to the general plan.	Consider adoption of a local Historic Resources Ordinance as a framework for the preservation and documentation of significant historic and cultural resources in the community. The ordinance would identify specific actions designed to preserve, maintain, and promote the City's rich In 2012, the City adopted a Historic Preservation Ordinance creating the ability to designate local landmarks, offer incentives to property owners to preserve historic properties and to institute a waiting period to review the proposed demolition of any building designed by a Master Architect to

General Plan Programs for All Elements (Except Housing)

No.	Program Title	Program Description	Status
		inventory of cultural resources including:	ensure the preservation of Since the City's adoption of the Historic Preservation Ordinance and the formation of the Cultural Heritage Commission in 2012, the City Council has designated 29 properties as landmarks on the local register of historic places.
	o Local Register	Adopting a local register of historic resources and establishing criteria and procedures to list properties;	In 2012, the City created a local register of historic resources with criteria and procedures for listing properties eligible for designation. Following a series of public meetings with the Cultural Heritage Commission and Planning Commission, a revised set of landmark designation criteria and procedures were crafted to better meet the community's preservation goals as part of the revised Historic Preservation Ordinance, adopted in 2015. Specially designed designation plaques are currently available to registered local landmarks for proud display on the building facade.
	o Historic Resources Inventory - Upkeep and Documentation	Maintaining an updated historic resources inventory, and requiring documentation of resources that may be approved for demolition, including establishment of an archive of historic information and resources;	In 2013 the City began the process of updating the citywide historic resources survey; the project was put on hold in 2014-2015 due to pending policy and code changes to the Historic Preservation Ordinance. In 2016, staff resumed work on the project in conjunction with the outside consulting team.
	o Designation and Protection of Significant Resources	Programming to promote the designation and protection of significant local resources including residential, and non-residential properties;	The City adopted an Historic Preservation Ordinance in 2012 and the Staff continues to encourage property owners to designate residential and commercial resources of significance. Staff also remains committed to advise property owners on preservation issues, as they arise, and to develop local standards and guidelines based on compliance with federally accepted standards to assist property owners in

General Plan Programs for All Elements (Except Housing)

No.	Program Title	Program Description	Status
			protecting their historic investments.
	o Replacement of Commercial and Residential Buildings	Exploring establishment of a requirement to replace commercial buildings that are demolished, and to extend this provision to residential buildings at some point in the future;	To be scheduled in future budget cycles.
	o Incentives	Exploring incentives such as a Mills Act Ordinance, conservation easements, and transfer of development rights to promote preservation of significant resources;	<p>In 2011 the City introduced the Mills Act (Historical Property Contract Program) and adopted a 2-Year Pilot Program to evaluate the overall benefits of allowing for qualified owners to receive a potential property tax reduction to help rehabilitate their historic buildings. The pilot program was evaluated in 2013 and was amended and extended through the end of 2016. Since adoption, the City has approved three Mills Act Contracts. City staff continues to educate and encourage property owners of historic properties regarding the benefits of preservation, specifically the tax incentives offered through the Mills Act program.</p> <p>In 2014 the City Council adopted an ordinance creating an Historic Incentive Permit which allows landmarked properties to request deviations from development standards to help foster the preservation of important resources. This process has been incorporated in the approval of 1 project to date and has been instrumental in the continued use and preservation of this important structure. In early 2016, amendments were adopted to the Historic Incentive Permit code provisions specific to Trousdale Estates in order to respect existing requirements for height and grading in this area of the city.</p>
	o Disincentives and Penalties	Establishing disincentives and penalties for the demolition of significant resources without benefit of City permits;	The City's Historic Preservation Ordinance requires the review of the proposed demolition of Master Architect designed properties and disincentives

General Plan Programs for All Elements (Except Housing)

No.	Program Title	Program Description	Status
			and penalties for the removal or modification of designated landmarks has been retained as an important component of in the amended Ordinance adopted in July 2015.
		<ul style="list-style-type: none"> ○ Partnerships 	<p>Programming and partnerships to promote the wealth of historically significant local resources.</p> <p>Staff and Commissioners from the Cultural Heritage Commission regularly attend the California Preservation Foundation annual conference, in San Diego in 2015 and in San Francisco in 2016.</p> <p>In addition, training opportunities have been undertaken by the Staff and Commissioners as conducted by preservation organizations such as the California Preservation Foundation, the State Office of Historic Preservation, the Society of Architectural Historians and other local jurisdictions.</p>
		<ul style="list-style-type: none"> • Flood Control 	Review the Flood Ordinance for consistency with the general plan and update periodically.
		<ul style="list-style-type: none"> • Design Guidelines 	Develop design guidelines and standards for commercial, residential, and mixed use development. These guidelines will include criteria for applicability to all new development and rehabilitation projects that are subject to the City's Development Plan Review process.
			To be scheduled in future budget cycles.
2.4	Building and Fire Codes	Survey available and feasible techniques, and amend the Building Code, Fire Code, and related codes where appropriate, to achieve the General Plan's policy objectives at least one every three years or as required by State law. The City's survey of the Building and Fire Codes shall include the following considerations:	<ul style="list-style-type: none"> • Affordable and Sustainable Housing
			Promote the use of innovative and state-of-the-art building techniques as a means to improve housing affordability and sustainability.
			In process
		<ul style="list-style-type: none"> • Fire Safety Design 	Reflect the highest and best available standards for fire safety design.
		<ul style="list-style-type: none"> • Brush Clearance 	Increase the requirement for brush clearance to increase defensible space around structures in the
			The City has adopted a local ordinance that only allows Class A roof assembly for new and existing buildings.
			In 2010, the Beverly Hills Fire Department increased the brush clearance requirement in the

Housing Element Programs

Progress on implementing the City's housing programs is summarized in the Housing Element Report. The Report provides a status and summary for each of the City's housing programs.

The Housing Element Report is designed to be a stand-alone report, or to be included as a part of the Annual General Plan Report. The report has been designed in this manner to allow the City to submit the report to the State Office of Planning and Research as a part of the Annual General Plan Report, and to submit the report to the State Department of Housing and Community Development as a stand-alone report on progress in implementing the City's housing programs.

General Comments:

Housing counts provided in this report are for the calendar year 2015. Information on housing programs is for calendar year 2015, unless otherwise specified, and is based on the 2014-2021 Housing Element.

The City's budget is set on the fiscal year, so some program accomplishments have been presented based on funding made available during the 2014/2015 fiscal year rather than calendar years.

Implementation Summary – Housing Element

Table A2

Annual Building Activity Report Summary - Units Rehabilitated, Preserved and Acquired pursuant to GC Section 65583.1(c)(1)

Please note: Units may only be credited to the table below when a jurisdiction has included a program in its housing element to rehabilitate, preserve or acquire units to accommodate a portion of its RHNA which meet the specific criteria as outlined in GC Section 65583.1(c)(1)

Activity Type	Affordability by Household Incomes				(4) The Description should adequately document how each unit complies with subsection (c)(7) of Government Code Section 65583.1
	Extremely Low Income*	Very Low Income	Low Income	TOTAL UNITS	
(1) Rehabilitation Activity	0	0	0	0	
(2) Preservation of Units At-Risk	0	0	0	0	
(3) Acquisition of Units	0	0	0	0	
(5) Total Units by Income					

* Note: This field is voluntary

Implementation Summary – Housing Element

**Table C
Program Implementation Status**

Program Description (By Housing Element Program Names) **Housing Programs Progress Report - Government Code Section 65583.** Describe progress of all programs including local efforts to remove governmental constraints to the maintenance, improvement, and development of housing as identified in the housing element.

Name of Program	Objective	Timeframe in H.E.	Status of Program Implementation
Program 9.1 Upkeep and Maintenance of Vacated Buildings	Preserve existing housing stock	Ongoing	The City’s Community Preservation Division maintains a list of vacant buildings and properties and works with property owners to ensure they are maintained.
Program 9.2 Property Maintenance	Require housing to be maintained in an aesthetic, safe and habitable manner consistent with City codes	On-going, explore program restructuring by 2016	The City continues to implement the current program and addresses several hundred complaints related to property maintenance each year.
Program 9.3 Home Repair and Improvement	Provide minor repairs and mobility assistance to approximately 25 low-income households per year	Ongoing	In the first three quarters of the current fiscal year (2015-2016), the program provided minor home repairs to 4 single-family homes and 6 multi-family homes for a total of 10 homes.
Program 9.4 Historic Preservation Program	Evaluate preservation incentives	Ongoing. Evaluate in 2015 and adopt by 2016	In 2014 the City Council adopted an ordinance creating a historic incentive permit that allows owners of historic landmarks to request deviations from development standards when making modifications to their historic properties, provided that the changes do not adversely impact the character defining features of the historic resource.

Program Implementation Status

Program Description (By Housing Element Program Names) **Housing Programs Progress Report - Government Code Section 65583.** Describe progress of all programs including local efforts to remove governmental constraints to the maintenance, improvement, and development of housing as identified in the housing element.

Name of Program	Objective	Timeframe in H.E.	Status of Program Implementation
Program 9.5 Condominium Conversions	Limit the loss of rental housing by setting an annual cap on condominium conversions and providing tenant protections	Evaluate ordinance revisions and address affordability, and, as appropriate, amend the ordinance in 2016.	The City's current ordinance was evaluated in 2011 and the determination was made not to adjust the annual cap at that time.
Program 9.6 Rent Stabilization Ordinance	Continue to implement the rent stabilization program and investigate tenant complaints about unlawful rent increases, service reductions, evictions and relocations	Ongoing	The City continued to implement the current program. In 2015 the city's Code Enforcement Office opened 32 rent stabilization cases and responded to 959 inquires either over the phone, through email, or in person.
Program 9.7 Monitoring Affordable Housing	Coordinate with service providers to monitor Section 8 renewals, advise tenants in advance of potential conversion dates, and provide opportunities to continue affordability covenants	Ongoing	The City continues to implement the current program. The city has one very-low income housing building. The building has an affordability covenant and has 150 units and is available to very low income seniors. The City contracts with Menorah Housing Foundation to oversee and administer the units. In 2015 the City adopted its "Affordable Housing Guidelines" document that outlines affordable housing procedures for developers, staff. The document will serve as the official guide when implementing the several affordable units that are currently entitled in the City but not yet built.
Program 10.1 Density Bonus	Encourage the development of more affordable housing units by offering incentives to developers	In 2013 amend the density bonus program to define a list of preferred incentives and concessions	To be considered in future budget cycles

Program Implementation Status

Program Description (By Housing Element Program Names) **Housing Programs Progress Report - Government Code Section 65583.** Describe progress of all programs including local efforts to remove governmental constraints to the maintenance, improvement, and development of housing as identified in the housing element.

Name of Program	Objective	Timeframe in H.E.	Status of Program Implementation
Program 10.2 Inclusionary Housing	Require a minimum percent of units in development to be price-restricted as affordable to lower and moderate income households	Finish inclusionary housing nexus and in-lieu fee study in 2015 and adopt ordinance in 2016	To be considered in future budget cycles
Program 10.3 Housing Trust Fund	To be used to construct or help leverage construction of affordable housing	Establish Housing Trust Fund in Fiscal Year 2014/2015	Through development agreements, the city has negotiated approximately \$3 million dollars to be used to establish a housing trust fund. The projects have not yet been built. Once they are built and the money is received by the City a housing trust fund will be established.
Program 10.4 Second Units	Encourage the provision of affordable second units	Evaluate revisions to current second unit standards, and amend the ordinance by 2015. Conduct second unit survey in 2018 to inform the next housing element update.	A second unit study was conducted in 2010 and the results were discussed in the housing element. The city will study changes to the ordinance that could further incentivize the development of second units in upcoming budget cycles.
Program 10.5 Sustainability and Green Building	Promote resource efficiency and sustainability in new developments	Ongoing	The City continues to implement the current program in consistency with State law.

Program Implementation Status

Program Description (By Housing Element Program Names) **Housing Programs Progress Report - Government Code Section 65583.** Describe progress of all programs including local efforts to remove governmental constraints to the maintenance, improvement, and development of housing as identified in the housing element.

Name of Program	Objective	Timeframe in H.E.	Status of Program Implementation
Program 10.6 Partnerships with Affordable Housing Developers	Initiate partnerships with non-profit developers to assist in the development of affordable housing	Participate in conferences, symposiums and other affordable housing events to review resources, incentives and City goals. Initiate an RFQ process within two years of the establishment and funding of the housing trust fund, select a developer and pursue development of an affordable housing project.	The City held an information session with local non-profit housing corporations and affordable housing developers in 2013 to establish partnerships in the affordable housing community. With establishment of the affordable housing trust fund, partnerships with developers will be more realistic (refer to Program 10.3). City staff attended lectures on affordable housing programs and strategies and plan to continue to attend similar programs in the future.
Program 11.1 Fair Housing Program	Promote fair housing practices and refer fair housing complaints to Housing Rights Center	Ongoing	The City provides fair housing information on the City's website (www.beverlyhills.org).
Program 11.2 Senior Housing Development	Provide incentives to facilitate development of senior housing	Continue to build partnerships with affordable housing developers. Develop a project concept by 2016 and release an RFQ by 2017. By 2018 commence development of a senior housing project in the City affordable to the City's lower and extremely low income residents.	Once the Affordable Housing Trust Fund is funded, the City will be able to more actively move forward in pursuing development of an affordable senior project.

Table C

Program Implementation Status

Program Description (By Housing Element Program Names) **Housing Programs Progress Report - Government Code Section 65583.** Describe progress of all programs including local efforts to remove governmental constraints to the maintenance, improvement, and development of housing as identified in the housing element.

Name of Program	Objective	Timeframe in H.E.	Status of Program Implementation
Program 11.3 Senior Case Management Program	Assist frail elderly residents to remain independent and in their homes	Ongoing	The City continues to implement the Senior Care Management Program and provides additional assistance to seniors through: the Beverly Hills Active Club which provides exercise classes and activities at La Cienega and Roxbury Parks, the Senior Center and senior library at Roxbury Park (funded through the city library), and Jewish Family Services which provides a broad range of support services to seniors living independently.
Program 11.4 Senior Home sharing Program	Provide a free shared housing program which matches older people with others interested in sharing their homes	Evaluate Community Assistance Funds and determine grant amount annually	To be considered in future budget cycles.
Program 11.5 Housing Opportunities for Persons with Disabilities	Develop and adopt written procedures for reasonable accommodation requests and educate the public on the process of requesting an accommodation	In 2014, implement an outreach program in cooperation with the Westside Regional Center to publicize information on available regional resources for housing and services. Pursue State and Federal funds available for supportive housing and services in future affordable housing projects.	The city adopted a reasonable accommodation procedure into the zoning code on December 4, 2012
Program 11.6 Funding for Homeless Services	Fund a variety of service organizations that serve the homeless and persons at-risk of homelessness	Annual funding allocations	In the fiscal year 2014-2015, the city contributed \$60K to the CLASP (Changing Lives And Sharing Places) homeless outreach program, and \$95,000 for shelter beds at PATH (People Assisting The Homeless). CLASP outreaches and engages homeless persons in the city daily with the intention of

Program Implementation Status

Program Description (By Housing Element Program Names) **Housing Programs Progress Report - Government Code Section 65583.** Describe progress of all programs including local efforts to remove governmental constraints to the maintenance, improvement, and development of housing as identified in the housing element.

Name of Program	Objective	Timeframe in H.E.	Status of Program Implementation
Program 12.1 Adjust Development Standards	Evaluate and modify development standards to encourage more affordable housing units	Amend the Zoning Code in 2013 to include reduced minimum unit sizes as an incentive for the density bonus program. Explore revisions to other development standards, including minimum unit sizes for all multifamily units, as supported by analysis by 2015.	<p>providing those persons with assistance and support including linking them to shelter.</p> <p>In addition, funds provided to PATH offers two tenant-based Section 8 vouchers to provide affordable and permanent supportive housing in Los Angeles County. Other services funded in FY 2015-2016 include: the Westside Food Bank (\$90K), and Step Up on Second (\$90K) to assist formerly homeless individuals to remain permanently housed.</p> <p>In 2013 the City began a study to better understand what incentives, concessions and waivers would be most beneficial to building affordable housing in the City. This study will inform upcoming modifications to the City's multi-family development standards.</p>
Program 12.2 Reduced Fees for Affordable Housing	Provide waivers or reductions of certain taxes and fees for developments with low, very low, and moderate income housing units	Complete the fee study in Fiscal Year 2014, and adopt modified development fees for affordable housing.	To be considered in future budget cycles.

Table C

Program Implementation Status

Program Description (By Housing Element Program Names) **Housing Programs Progress Report - Government Code Section 65583.** Describe progress of all programs including local efforts to remove governmental constraints to the maintenance, improvement, and development of housing as identified in the housing element.

Name of Program	Objective	Timeframe in H.E.	Status of Program Implementation
Program 12.3 Monitor the Development Review Process	Identify inefficiencies and uncertainties in the City's review and promote alternative techniques intended to streamline the process	Adopt updated processing procedures in the Zoning Code in 2013	The City hired an Urban Designer to help streamline review of new housing projects and other development proposed in the City. Additionally, in an effort to streamline permitting, the community development department was restructured to form a dedicated group of zoning code and building experts as part of a dedicated group focused on processing permits.

Current Planning

Emergency Ordinances

The City did not adopt any emergency ordinances in 2015.

Pending General Plan Amendments

There are several pending General Plan amendments:

- A consideration for rezoning of two single-family parcels to multi-family zoning on South Carson Road;
- A pending application for a new overlay zone pertaining to commercial developed located at 100 North Crescent;

Additional Content

Interagency / Intergovernmental Coordination

The City proactively coordinates with other jurisdictions and agencies. Program 7.1 of the General Plan specifically calls for collaboration with internal City agencies and adjoining jurisdictions to address various issues including: Planning, transportation, emergency preparedness, open space, education, energy, water, resource conservation and response and recovery. Examples of coordination include:

- The City is a member of the Westside Cities Subregion of the local Metropolitan Planning Organization as well as a member of the Westside Council of Governments. Through these groups the City participates in regional planning efforts such as planning for electric vehicles and a multi-jurisdiction bike sharing program.
- The City participates in emergency preparedness tests, drills and exercises with other local, county and state jurisdictions.
- In 2014 the City signed a Memorandum of Agreement with the Los Angeles County Transportation Authority (Metro) for the advanced utility work for the first phase of the Westside Subway Extension. The City is currently working on language for a subsequent Memorandum of Agreement with Metro for future subway work. Further, the City and Metro representatives have held several public meetings to gather input and disseminate information regarding the subway project.

Equity Planning

The City of Beverly Hills does not have industrial land uses or above-grade extraction sites within its boundaries such as landfills, mining operations, factories, mills, or other intensive land uses which have traditionally driven equity planning efforts. The City does, however, have districts and neighborhoods that have remained vibrant through the recent downturn in the market, and has other areas that have not remained vibrant and, in fact, have struggled with higher commercial and office vacancy rates. In

2012, the City, led by then Vice-Mayor John Mirisch, convened a special task force to study land use patterns and neighborhood qualities along two commercial corridors in the southeastern area of the City. The summary report of the task force outlines several strategies to improve the corridors. In 2015 the City launched a planning effort to create a community plan for these corridors and others. Three community workshops were held and this effort is ongoing. The City's General Plan includes policies and programs that support maintenance and revitalization of the City's commercial corridors.

Additionally, the cost of housing in the Beverly Hills region tends to be high, which can present challenges for long-time residents to remain in their homes through retirement (referred to as "aging in place"). The City's current Housing Element, which was adopted in 2013 and certified by the State in 2014, includes a number of programs aimed at providing relief to seniors and other members of the community who are challenged by the cost of housing. During the prior Housing Element Update, attention was paid to strengthening the Housing Element policies aimed at providing assistance to renters in the city. In 2015 the City developed affordable housing program guidelines (adopted in early 2016) to establish procedures for the implementation of the affordable housing program. The City continues to implement the Housing Element programs contained in the General Plan.

Promotion of Infill Development, Reuse, and Redevelopment

The City of Beverly Hills is an urban area that is mostly built out. The City is committed to encouraging the best use of land, and thoughtful infill projects are encouraged. In 2013 the Wallis Annenberg Center for the Performing Arts (The Wallis) opened to the public. This venue consists of the rehabilitated 1933 Beverly Hills Post Office structure and a contemporary theater building. The reuse of this historic City building is a prime example of infill development along a major transportation corridor in the commercial center of the City. In 2014 construction began on the Waldorf Astoria Hotel project, which is located on the property of the Beverly Hilton on a major commercial corridor in the City. Additionally, the City has undertaken various efforts to understand and address potential barriers to infill, reuse and redevelopment including the in-lieu parking study, and the Southeast in Motion planning effort.
