

AGENDA REPORT

Meeting Date: March 2, 2010
Item Number: F-4
To: Honorable Parking Authority Members
From: Alan Schneider, Director of Project Administration
Allen M. Rubenstein, Project Manager *AMR*
Subject: APPROVAL OF A PURCHASE ORDER BY THE PARKING AUTHORITY OF THE CITY OF BEVERLY HILLS IN THE AMOUNT OF \$122,009.80 TO SOUTHERN CALIFORNIA EDISON COMPANY FOR RELOCATION OF UNDERGROUND FACILITIES IN CRESCENT DRIVE TO ACCOMMODATE THE CONSTRUCTION OF THE CRESCENT DRIVE PARKING GARAGE
Attachments: None

RECOMMENDATION

Staff recommends that the Parking Authority of the City of Beverly Hills move to approve the Purchase Order to Southern California Edison Company ("Edison") in the amount of \$122,009.80 for their work in relocating their power facilities.

INTRODUCTION

The Edison power facilities residing in Crescent Drive serve the City Hall, the Post Office and the Fire Station. These facilities have to be relocated in order to build the Crescent Garage. This purchase order is for the Edison portion of the design, provision of certain electrical components, and field work necessary to accomplish this task.

DISCUSSION

The City entered into an agreement with Edison in December 2008 to have them design the rerouting of their facilities. A route was jointly agreed after considering the physical and practical obstacles.

The power relocation requires the coordinated construction of Matt Construction and Southern California Edison Companies. The City's contractor constructs the intercept boxes, conduits, transformer pads, switch gear, and other components in accordance with an Edison plan and specifications. Edison will then pull the wires through the

Meeting Date: March 2, 2010

conduits, provides the transformers, and switch over the power. This will allow the existing facilities to be abandoned and demolished.

This Purchase Order is for Edison's portion of the work.

FISCAL IMPACT

Funding for these services has been budgeted from the FY 09-10 Capital Improvement Program budget for the North Crescent Garage, project #0897.
