

AGENDA REPORT

Meeting Date: August 23, 2012

Item Number: D-2

To: Honorable Mayor & City Council

From: Susan Healy Keene, AICP, Director of Community Development

Subject: AN ORDINANCE OF THE CITY OF BEVERLY HILLS APPROVING THE FIRST AMENDMENT TO A DEVELOPMENT AGREEMENT BETWEEN THE CITY OF BEVERLY HILLS AND 9200 WILSHIRE, LLC FOR CONSTRUCTION OF A MIXED-USE RESIDENTIAL AND COMMERCIAL DEVELOPMENT AT 9200 WILSHIRE BOULEVARD

Attachments:

1. Ordinance
2. Development Agreement
3. Planning Commission Resolution
4. City Council Resolution No. 07-R-12430 Approving Project

RECOMMENDATION

Staff recommends that the City Council move to waive the full reading of the ordinance and that the ordinance entitled "AN ORDINANCE OF THE CITY OF BEVERLY HILLS APPROVING THE FIRST AMENDMENT TO A DEVELOPMENT AGREEMENT BETWEEN THE CITY OF BEVERLY HILLS AND 9200 WILSHIRE, LLC FOR CONSTRUCTION OF A MIXED-USE RESIDENTIAL AND COMMERCIAL DEVELOPMENT AT 9200 WILSHIRE BOULEVARD." be introduced and read by title only.

INTRODUCTION

The proposed project consists of an amendment to a Development Agreement for a mixed-use development project that was previously approved by the City Council in 2007, which was approved in conjunction with a mixed-use overlay zone that applies to the subject property. The current Development Agreement is set to expire on October 18, 2012, and the applicant seeks to amend the agreement to allow an expiration date that would be coterminous with the expiration date of the project's Vesting Tentative Map. Due to an automatic time extension pursuant to Assembly Bill 208, the Vesting Tentative Map is currently set to expire on October 18, 2014, which is two years later than the current expiration date of the Development Agreement. Accordingly, the applicant seeks to align the expiration dates so that the Vesting Tentative Map will not remain valid without the associated Development Agreement. The original Development Agreement is provided as Attachment 2, and an amendment to Section 5 of the Agreement is proposed so that section would read as follows:

5. *Term of Agreement and Tract Map. The initial term of this Agreement shall commence on the Agreement Effective Date, and shall continue until the expiration of the related Vesting Tentative Map No. 63078 or approval and recordation of a final subdivision map for the project. Additionally, if a final subdivision map for the Project is approved by the City, then the term of this Agreement shall be extended until the expiration of the vested rights that accompany the vesting tentative tract map for the Project. In addition to the above, at any time, the term may be extended by Developer for one year or more provided that the total extension period does not exceed three years. An extension by Developer pursuant to the prior sentence shall be effective upon written request of Developer provided to the City at least ten (10) days before the expiration of the term (including any previous extension) and a concurrent payment to the City of the following amounts: for the first year of extension, Developer shall pay one hundred fifteen thousand dollars (\$115,000), for the second year of extension, Developer shall pay one hundred seventy two thousand dollars (\$172,000) and for the third year of extension, Developer shall pay two hundred thirty dollars (\$230,000). Notwithstanding the term set forth above, the obligation to pay the Environmental Mitigation and Sustainability Fee shall continue indefinitely as provided in Section 10(f).*

On August 2, 2012, the Planning Commission reviewed the requested amendment, with the exception that the amendment reviewed by the Commission did not include a provision for additional extensions available for a fee. The Commission unanimously voted to approve a resolution (Attachment 3) finding that the amendment is consistent with the General Plan, and recommending that the City Council approve the amendment (Vice Chair Rosenstein abstained due to a conflict, and Commissioner Cole was absent).

Subsequent to the Planning Commission hearing, staff met with the City Council ad-hoc committee consisting of Mayor Brien and Councilmember Bosse to review the amendment language. During that meeting a recommendation was made to allow for up to three additional one-year extensions for a fee, which would make the agreement consistent with the provisions found in other development agreements approved by the City Council (i.e. 9900 Wilshire Specific Plan and the Beverly Hilton Specific Plan).

If approved, the proposed Amendment would be documented by recordation of the Amendment in substantially the form set forth as Exhibit A to the Ordinance.

ANALYSIS

The previously approved project consists of 54 residential condominium units and a minimum of 14,000 square feet of ground-floor commercial space, and required the approval of an overlay zone and general plan amendment to allow mixed-use development in a commercial zone. In conjunction with these approvals, the developer entered into a development agreement with the City. In order to offset the loss of future commercial development caused by the construction of residential units on a commercially-zoned property, the development agreement included a public benefit contribution to the City in the amount of \$3,248,000, or \$60,148.15 for each residential unit constructed. Although the development agreement would have otherwise expired at the same time as the Vesting Tentative Map, the automatic extension granted by the State for the Vesting Tentative Map has resulted in a two-year difference between the expiration dates. In the event that the development agreement expires and the Vesting Tentative Map remains valid, it is possible that development could occur without provision of the public benefit contribution intended to offset the impacts caused by the project. In order to ensure the public benefits to offset any impacts caused by the project will be provided, staff recommends that the City Council approve the amendment.

In addition to ensuring that the public benefit contribution will be provided so long as the Vesting Tentative Map remains valid, the amendment also incorporates a provision used in the 9900 Wilshire and Beverly Hilton development agreements, which allows for additional extensions to be granted (with payment of a fee) beyond the expiration date of the Vesting Tentative Map. The provision recommended by the ad-hoc committee would allow for three additional one-year extensions, which would be tied to an escalating fee structure. The fees required for the additional extensions would be \$115,000 for the first extension, \$172,000 for the second extension, and \$230,000 for the third extension. On a per unit basis, these fees are equivalent to the extension fees associated with the 9900 Wilshire Specific Plan, and are therefore consistent with past approvals. If incorporated into the Development Agreement, the fees associated with additional extensions would serve two functions. First, the fees would provide an incentive to develop the project in a timely manner, prior to any extension fees being triggered. Second, the fees would help to offset the impact of any opportunity costs realized by the City as a result of the property remaining vacant in the event that additional extensions are needed.

ENVIRONMENTAL ASSESSMENT

The First Amendment has been environmentally reviewed pursuant to the provisions of the California Environmental Quality Act (Public Resources Code Sections 21000 et seq. ("CEQA"), the State CEQA Guidelines (California Code of Regulations, Title 14, Sections 15000 et seq.), and the City's Local CEQA Guidelines. The City previously prepared and certified an Environmental Impact Report for the 9200 Wilshire Project, and this Environmental Impact Report remains valid in assessing the environmental impacts associated with the First Amendment. There have been no changes in circumstances, new information, or changes in the project that warrant further CEQA analysis. All previously identified mitigation measures remain in full force and effect. No changes to the CEQA findings adopted in conjunction with the Project and the Development Agreement are made necessary by the First Amendment and those findings are hereby reaffirmed.

FINDINGS

Based on the analysis outlined above and the findings adopted by the Planning Commission, staff recommends that the following findings be made in support of the requested amendment:

1. *Approval of the Development Agreement amendment is consistent with the City's General Plan.*

The proposed amendment extends the expiration date of a Development Agreement associated with a previously approved mixed-use development project. The amendment does not modify the previously approved project, and only extends the expiration date of the Development Agreement to align with the expiration date of the previously approved project's Vesting Tentative Map. The amendment extends a project that is consistent with the City's General Plan and the goals and policies adopted in conjunction with the project, and advances the following General Plan policies:

LU 2.1 City Places: Neighborhoods, Districts and Corridors. Maintain and enhance the character, distribution, built for, scale, and aesthetic qualities of the City's distinctive residential neighborhoods, business districts, corridors, and open spaces;

LU 2.4 Architectural and Site Design. Require that new construction and renovation of existing buildings and properties exhibit a high level of excellence in site planning, architectural design, building materials, use of sustainable design and construction practices, landscaping, and amenities that contribute to the City's distinctive image and complement existing development; and

LU 9.5 Commercial/Residential Mixed Uses. The feasibility of allowing mixed commercial/residential uses should be analyzed in order to expand the variety of housing types available and in certain areas, to improve commercial/residential transitions.

Specifically, the amendment will allow for the construction of a project that improves the adjacent neighborhood and streetscape by replacing a vacant lot, utilizes quality architectural design to enhance the neighborhood, and includes a mix of commercial and residential uses to serve as a transition from the commercial corridor along Wilshire Boulevard to the residential area south of the project site. For these reasons, the amendment is consistent with the City's General Plan.

FISCAL IMPACT

Approval of the amendment is neutral, but would also ensure that the City would receive the public benefits associated with the Development Agreement in the event that the project is constructed. Although not directly tied to the Development Agreement, the City would also receive development fees and taxes in the event that the project is constructed.

PUBLIC NOTICE

A public hearing notice was mailed on August 10, 2012 to all owners and residential occupants of property located within 300 feet of the project site, and notice of the hearing was published in the *Beverly Hills Courier* and the *Beverly Hills Weekly*, two newspapers of local circulation, on August 10, 2012 and August 16, 2012, respectively.

RECOMMENDED ACTION

Staff recommends that the City Council move to waive the full reading of the ordinance and that the ordinance entitled "AN ORDINANCE OF THE CITY OF BEVERLY HILLS APPROVING THE FIRST AMENDMENT TO A DEVELOPMENT AGREEMENT BETWEEN THE CITY OF BEVERLY HILLS AND 9200 WILSHIRE, LLC FOR CONSTRUCTION OF A MIXED-USE RESIDENTIAL AND COMMERCIAL DEVELOPMENT AT 9200 WILSHIRE BOULEVARD." be introduced and read by title only.

ORDINANCE

ORDINANCE NO. 12-O-_____

AN ORDINANCE OF THE CITY OF BEVERLY HILLS APPROVING THE FIRST AMENDMENT TO A DEVELOPMENT AGREEMENT BETWEEN THE CITY OF BEVERLY HILLS AND 9200 WILSHIRE, LLC FOR CONSTRUCTION OF A MIXED-USE RESIDENTIAL AND COMMERCIAL DEVELOPMENT AT 9200 WILSHIRE BOULEVARD

THE CITY COUNCIL OF THE CITY OF BEVERLY HILLS HEREBY ORDAINS AS FOLLOWS:

Section 1. The City of Beverly Hills (“City”) and 9200 Wilshire, LLC entered into that certain development agreement (the “Development Agreement” herein), recorded as instrument No. 20072346280 on October 15, 2007, in connection with the construction of a mixed-use development generally consisting of condominium units and ground floor commercial space in a six-story, 60-foot tall structure with subterranean parking to be located at 9200 Wilshire Boulevard (the “Project”). New Pacific Realty (“Developer”) is the successor interest to 9200 Wilshire, LLC’s rights and obligations under the Development Agreement.

Section 2. Developer has requested an amendment (the “First Amendment”) to the Development Agreement to synchronize expiration of the Development Agreement and the related vesting tentative tract map. The First Amendment to the Development Agreement is attached hereto as Exhibit A, and is hereby incorporated herein.

Section 3. The First Amendment has been environmentally reviewed pursuant to the provisions of the California Environmental Quality Act (Public Resources Code Sections 21000 et seq. (“CEQA”), the State CEQA Guidelines (California Code of Regulations, Title 14, Sections 15000 et seq.), and the City’s Local CEQA Guidelines. The City previously prepared and certified an Environmental Impact Report for the 9200 Wilshire Project, and this

Environmental Impact Report remains valid in assessing the environmental impacts associated with the First Amendment. There have been no changes in circumstances, new information, or changes in the project that warrant further CEQA analysis. All previously identified mitigation measures remain in full force and effect. No changes to the CEQA findings adopted in conjunction with the Project and the Development Agreement are made necessary by the First Amendment and those findings are hereby reaffirmed.

Section 4. On August 2, 2012, the Planning Commission conducted a duly noticed public hearing to consider the First Amendment.

Section 5. On August 23, 2012 the City Council conducted a duly noticed public hearing to consider the First Amendment.

Section 6. The City Council hereby approves the First Amendment, as set forth in Exhibit A, and authorizes the Mayor to execute the Development Agreement on behalf of the City.

Section 7. No later than ten (10) days after the effective date of this Ordinance, the City Clerk shall record with the County Recorder a copy of the Development Agreement and the notice shall describe the land to which such contract applies.

Section 8. The City Clerk shall cause this Ordinance to be published at least once in a newspaper of general circulation published and circulated in the City within fifteen (15) days after its passage, in accordance with Section 36933 of the Government Code; shall certify to the adoption of this Ordinance and shall cause this ordinance and this certification, together with proof of publication, to be entered in the Book of Ordinances of the Council of this City.

Section 9. Effective Date. This Ordinance shall go into effect and be in full force and effect at 12:01 a.m. on the thirty-first (31st) day after its passage.

**FIRST AMENDMENT TO THE DEVELOPMENT AGREEMENT
BETWEEN THE CITY OF BEVERLY HILLS
AND NEW PACIFIC REALTY (A SUCCESSOR IN INTEREST)
RELATING TO THE PROPERTY AT 9200 WILSHIRE
BOULEVARD, BEVERLY HILLS, CALIFORNIA**

Amendment of Section 5 of the Development Agreement Related to Term of Agreement

FIRST AMENDMENT TO DEVELOPMENT AGREEMENT

This First Amendment to the Development Agreement (this "Amendment") is entered into as of the ____ day of _____, 2012, by and between the CITY OF BEVERLY HILLS, a municipal corporation (the "City"), and NEW PACIFIC RELATY, a _____, (the "Developer"), and is an amendment to a Development Agreement between the City and Developer's predecessor in interest, 9200 Wilshire LLC, dated October 12, 2007.

RECITALS

A. Pursuant to California Government Code Sections 65864-65869.5, the City and the Developer's predecessor in interest, 9200 Wilshire LLC entered into a Development Agreement (the "Agreement"), effective October 18, 2007 to provide greater certainty and predictability in relations between the City and the 9200 Wilshire LLC with respect to a development project on property located at 9200 Wilshire Boulevard, Beverly Hills, California, as more fully described in Exhibit A, attached hereto, and incorporated herein by reference. The Agreement was recorded as Instrument No. 20072346280 on October 15, 2007, in the Office of the Los Angeles County Recorder.

B. After recordation of the Agreement, New Pacific Realty acquired the rights to the property that is the subject of the Agreement, and, as a successor in interest, has the rights afforded the Developer under the Agreement.

C. The parties now desire to amend the term of the Agreement from a term of five (5) years, to be the same term as the related vesting tentative tract map remains valid.

D. On August 2, 2012, following a duly noticed public hearing, the Planning Commission adopted Resolution No. ____, recommending that the City Council approve this First Amendment.

E. At a duly noted public hearing on August 23, 2012, the City Council considered the information in the previously adopted CEQA documentation for the project, reaffirmed findings as required by CEQA, and approved this First Amendment.

NOW, THEREFORE, in consideration of the mutual covenants and agreements contained herein and other good and valuable consideration, the receipt and legal sufficiency of which is hereby acknowledged, the parties do hereby agree as follows:

1. This First Amendment shall be effective when City Ordinance No. _____ that approves this First Amendment is effective.

2. Section 5 of the Agreement is hereby amended to read as follows:

"5. Term of Agreement and Tract Map. The initial term of this Agreement shall commence on the Agreement Effective Date, and shall continue until the expiration of the related Vesting Tentative Map No. 63078 or approval and recordation of a final subdivision map for the project. Additionally, if a final subdivision map for the Project is approved by the City, then the term of this Agreement shall be extended until the expiration of the vested rights that accompany the vesting tentative tract map for the Project. In addition to the above, at any time, the term may be extended by Developer one year or more provided that the total extension period does not exceed three years. An extension by

Developer pursuant to the prior sentence shall be effective upon written request of Developer provided to the City at least ten (10) days before the expiration of the term (including any previous extension) and a concurrent payment to the City of the following amounts: for the first year of extension, Developer shall pay one hundred fifteen thousand dollars (\$115,000), for the second year of extension, Developer shall pay one hundred seventy two thousand dollars (\$172,000) and for the third year of extension, Developer shall pay two hundred thirty dollars (\$230,000). Notwithstanding the term set forth above, the obligation to pay the Environmental Mitigation and Sustainability Fee shall continue indefinitely as provided in Section 10(f).”

3. No Other Changes. Except as expressly amended by this First Amendment, the Agreement shall remain in full force and effect as written.

4. Recordation of Amendment. No later than ten (10) days after the Effective Date of this First Amendment, the City Clerk shall record an executed original of this First Amendment in the Official Records of the County of Los Angeles.

IN WITNESS WHEREOF, the Developer and City have executed this First Amendment as of the date first hereinabove written.

DEVELOPMENT AGREEMENT AND LIENS FOR FEES DUE UPON SALES

THIS DEVELOPMENT AGREEMENT (the "Agreement") is made effective as of October 12, 2007, by and between THE CITY OF BEVERLY HILLS, a California municipal corporation (the "City"), and 9200 WILSHIRE LLC, a California limited liability company formerly known as Legacy Partners SSR 9200 Wilshire, LLC (the "Developer"). The City and Developer are individually referred to herein as a "Party" and collectively referred to as the "Parties."

RECITALS

This Agreement is made and entered into with regard to the following facts, each of which is acknowledged as true and correct by the Parties to this Agreement:

- A. Developer is the fee owner of that certain real property located in the City of Beverly Hills, California and described in Exhibit A attached hereto and incorporated herein by reference;
- B. Developer desires to construct the Project (as hereafter defined);
- C. Developer has applied to the City for approval of this mutually binding Agreement, pursuant to the provisions of the Development Agreement Act (as hereinafter defined) and other applicable laws;
- D. In anticipation of the development of the Project, Developer has made application to the City (in its governmental capacity) for certain approvals, entitlements, findings and permits required for the development and construction of the Project, including, without limitation (i) application for a general plan amendment, zone change, tentative tract map; and (ii) application for a development agreement for the Project under the Development Agreement Act;
- E. The Developer has, as of the Agreement Effective Date, submitted and received approval of the Project Approvals (as hereinafter defined) allowing the development and construction of the Project;

SEE EXHIBIT "g" ATTACHED

F. The City Council has specifically considered and approved the impact and benefits of this Project upon the welfare of the City;

G. This Agreement eliminates uncertainty in planning and provides for the orderly development of the Project in a manner consistent with the City's Official Zoning Regulations, the Applicable Rules (as hereinafter defined) and the General Plan;

H. To provide such certainty, the City desires, by this Agreement, to provide the Developer with assurance that the Developer can proceed with development of the Project with the uses, density and other land use characteristics specified in the Project Approvals. The Developer would not enter into the Project Agreement, or agree to provide the public benefits and improvements described therein without the City's agreement that the Project can be developed, during the term of this Agreement, with the uses, density and other land use characteristics specified in the Project Approvals;

I. The City has determined that, as a result of the development of the Project in accordance with the Project Approvals and this Agreement, substantial benefits will accrue to the public, including without limitation, the provision of housing, the development of a mixed-use project on currently vacant land, and a monetary contribution to the City;

J. On April 6, 2006, pursuant to the requirements of the Development Agreement Act, the Planning Commission of the City of Beverly Hills conducted a hearing on the Developer's application for this Agreement;

K. On April 26, 2007 and July 24, 2007, pursuant to the requirements of the Development Agreement Act, the City Council of the City of Beverly Hills (the "City Council") conducted a hearing on the Developer's application for this Agreement;

L. The City Council has found and determined that this Agreement is consistent with the City's General Plan, as amended by the Project Approvals, and all other plans, policies, rules and regulations applicable to the Project;

M. On September 17, 2007, the City Council adopted Ordinance No. 07-0-2529 approving this Agreement, and such ordinance became effective on October 18, 2007;

N. By Resolution No. 07-R-12323, adopted by the City Council on April 26, 2007, the City Council reviewed and certified, after making appropriate findings, a Final Environmental Impact Report for the Project dated April, 2007, that contemplates this Agreement.

07 2346288

AGREEMENT

NOW THEREFORE, pursuant to the authority contained in the Development Agreement Act, as it applies to the City, and in consideration and the mutual promises and covenants herein contained and other valuable consideration, the receipt and adequacy of which is hereby acknowledged, the parties hereto agree as follows:

1. **Definitions.** For all purposes of this Agreement, except as otherwise expressly provided herein, or unless the context of this Agreement otherwise requires, the following words and phrases shall be defined as is set forth below:

(a) "Applicable Rules" means the rules, regulations, ordinances, resolutions, codes, guidelines, and officially adopted procedures and official policies of the City governing the use and development of real property, including, but not limited to, the City's Official Zoning Regulations and building regulations, adopted as of the Effective Date of this Agreement. Among other matters, the Applicable Rules set forth and govern the permitted uses of land, the density or intensity of use, subdivision requirements, the maximum height and size of proposed buildings, parking requirements, setbacks, and development standards, the provisions for reservation or dedication of land for public purposes, and the design, improvement and construction guidelines, standards and specifications applicable to the development of the Property.

(b) "CEQA" means the California Environmental Quality Act (California Public Resources Code Section 21000 et seq.), as it now exists or may hereafter be amended.

(c) "Change of Control" shall refer to a transaction whereby the transferee acquires a beneficial ownership interest in the Developer such that after such transaction there is a change of identity of the person or entity that has the power to direct or cause the direction of the management and policies of the Developer, whether through the ownership of voting securities, by contract or otherwise. However, neither of the following shall trigger the EMS Fee: (i) appointment or replacement of a non-owner manager nor (ii) the designation of an Existing Owner as a managing member of a successor Developer so long as the EMS Fee shall have been paid in connection with the acquisition of the Property by the successor Developer and the designee was an Existing Owner at the time of such acquisition.

(d) "Conditions of Approval" shall mean those conditions of approval imposed by the City upon the Project Approvals.

(e) "Developer Fees" shall mean those fees established and adopted by City with respect to development and its impacts pursuant to applicable governmental requirements, including Section 66000 et seq., of the Government Code of the State of California, including but not limited to impact fees, linkage fees, exactions, assessments or fair share charges or other similar impact fees or charges imposed on or in connection with new development by the City. Developer Fees does not mean or include Processing Fees.

07 2346280

(f) "Development Agreement" or "Agreement" means this Agreement.

(g) "Development Agreement Act" means Article 2.5 of Chapter 4 of Division 1 of Title 7 (Sections 65864 through 65869.5) of the California Government Code.

(h) "Discretionary Action(s)" or "Discretionary Approval(s)" means an action which requires the exercise of judgment, deliberation or discretion on the part of the City, including any board, agency, commission or department and any officer or employee thereof, in the process of approving or disapproving a particular activity, as distinguished from an activity which is defined herein as a Ministerial Permit or Ministerial Approval.

(i) "Effective Date of this Agreement" shall mean the date this Agreement is fully executed by the Parties.

(j) "EIR" shall mean the final Environmental Impact Report (Sch #2005041133) which was prepared, circulated and certified in accordance with applicable law, including, without limitation, CEQA. "EIR Mitigation Measures" shall mean the mitigation measures imposed upon the Project pursuant to the EIR and the Conditions of Approval.

(k) "Environmental Mitigation and Sustainability Fee" shall mean the fee defined in Section 10(f) and, in addition to the amount set forth in Section 10(f), shall include any costs incurred by the City in connection with the foreclosure of any lien, including attorneys' fees, attorneys' fees incurred by City in connection with any bankruptcy of the applicable seller, and interest at 10 percent per annum (but not in excess of the maximum amount permitted by law) on such unpaid fees.

(l) "General Plan" means the General Plan of the City, as it exists as of the Effective Date of this Agreement.

(m) "Initial Sales Transaction" means the first Sales Transaction of each separate subdivided portion of the Project coupled with an interest in the common area of the Project or a membership in an association created for the purpose of managing the Project.

(n) "Ministerial Permit(s)", or "Ministerial Approval(s)" means a permit or approval, including, but not limited to, building permits, grading permits, zone clearances, and certificates of occupancy, which requires the City, including any board, agency, commission or department or any officer or employee thereof, to determine whether there has been compliance with applicable rules, statutes, ordinances, conditions of approval, and/or regulations, as distinguished from an activity which is included in the definition of Discretionary Action or Discretionary Approval.

(o) "Processing Fees" means all processing fees and charges required by the City applied uniformly to all new construction including, but not limited to, fees for land use applications, building permit applications, building permits, grading permits, encroachment permits, subdivision or parcel maps, lot line adjustments, street vacations, inspection fees, certificates of occupancy and plan check fees. Processing Fees shall not mean or include Developer Fees.

07 2346280

4

(p) "Project" means the development of the Property as described in the Project Approvals.

(q) "Project Approvals" shall include, collectively, a general plan amendment, zoning overlay, planned development review, architectural review, encroachment permits and a vesting tentative tract map ("Tract Map"), approved by the City with respect to the Project and shall include any Subsequent Project Approvals (as hereinafter defined).

(r) "Property" means the real property described on Exhibit "A".

(s) "Reserved Powers" means the rights and authority excepted from this Agreement's restrictions on the exercise of City's police powers, as defined in Section 9(a) of this Agreement.

(t) "Sales Transaction" means any transaction evidenced by the recording of a conveyance document that conveys the Property, or any subdivided portion of the Property, and which conveyance would be subject to, and not exempt from, the Los Angeles County Documentary Transfer Tax (Los Angeles County Code, Chapter 4.60) or the City of Los Angeles Real Estate Transfer Tax (Los Angeles City Municipal Code, Chapter 2, Article 1.9) as those taxes existed on the Effective Date of this Agreement. A transaction whereby the possession of all or a portion of the Property is transferred but the seller retains the title as security for the payment of the price shall be deemed a Sales Transaction. Notwithstanding the foregoing, a transfer of all or a portion of the Property as a result of a judicial or non-judicial foreclosure, or by deed in lieu of foreclosure, initiated by a Mortgagee (as defined in Section 24 below), shall not be deemed a Sales Transaction. For the purposes of triggering the EMS Fee only, a Sales Transaction shall include (i) any sale, assignment, or transfer of fifty percent (50%) or more of the beneficial ownership interest in Developer, whether in one transaction or a series of transactions, provided however, that any transfers of ownership interests among the owners (or the beneficial owners of such owners) of any successor Developer hereunder (each an "Existing Owner"), shall not be deemed a Sales Transaction so long as the EMS Fee shall have been paid in connection with the acquisition of the Property by such successor Developer and the transferee was an Existing Owner at the time of such acquisition, or (ii) any Change of Control.

(u) "Subsequent Land Use Regulations" means any change in or addition to the Applicable Rules adopted after the Effective Date of this Agreement, including, without limitation, any change in any applicable general or specific plan, zoning, subdivision, or building regulation, including, without limitation, any such change by means of an ordinance, initiative, resolution, policy, order or moratorium, initiated or instituted for any reason whatsoever by the Mayor, City Council, Planning Commission or any other board, agency, commission or department of City, or any officer or employee thereof, or by the electorate, as the case may be, which would, absent this Agreement, otherwise be applicable to the Project.

(v) "Subsequent Project Approvals" shall mean all further Discretionary Actions or Discretionary Approvals required or requested with respect to the Project. Following adoption, a Subsequent Project Approval shall become a Project Approval.

07 2346280

(w) "Zoning Regulations" shall mean the official zoning regulations of the City adopted as of the Effective Date of this Agreement.

2. Recitals of Premises, Purpose and Intent.

(a) State Enabling Statute. To strengthen the public planning process, encourage private participation in comprehensive planning and reduce the economic risk of development, the Legislature of the State of California adopted the Development Agreement Act which authorizes any city to enter into binding development agreements establishing certain development rights in real property with persons having legal or equitable interests in such property. Section 65864 of the Development Agreement Act expressly provides as follows:

"The Legislature finds and declares that:

"(a) The lack of certainty in the approval of development projects can result in a waste of resources, escalate the cost of housing and other development to the consumer, and discourage investment in and a commitment to comprehensive planning which would make maximum efficient utilization of resources at the least economic cost to the public.

"(b) Assurance to the applicant for a development project that upon approval of the project, the applicant may proceed with the project in accordance with existing policies, rules and regulations, and subject to conditions of approval will strengthen the public planning process, encourage private participation in comprehensive planning, and reduce the economic cost of development."

Notwithstanding the foregoing, to ensure that the City remains responsive and accountable to its residents while pursuing the benefits of development agreements contemplated by the Legislature, the City accepts restraints on its police powers contained in development agreements only to the extent and for the duration required to achieve the mutual objectives of the Parties.

(b) The Project. It is the Developer's intent to develop the Property as described in the Project Approvals subject to the Applicable Rules, the Project Approvals, the Conditions of Approval and this Agreement. The Parties hereby agree that, for the Term of this Agreement, the permitted uses, the density and intensity of use, the subdivision requirements, the maximum height and size of proposed buildings, parking requirements, setbacks, and development standards, provisions for reservation or dedication of land for public purposes and location of public improvements, and the design, improvement, construction and other guidelines, standards and specifications applicable to the development of the Property shall be those set forth in the Project Approvals, the Applicable Rules and this Agreement, including the Conditions of Approval for the Project.

3. Property Subject to Agreement. This Agreement shall apply to all of the real property described in Exhibit A attached hereto (the "Property"), and all such real property shall be subject to this Agreement.

07 2346280

4. Application of Agreement. This Agreement shall apply to the development and use of the Property. Such development shall be in accordance with the Project Approvals and this Agreement.

5. Term of Agreement and Tract Map. The initial term of this Agreement shall commence on the Agreement Effective Date, and shall continue for five (5) years or until the Project is complete and a certificate of occupancy has been issued, whichever is earlier. Upon approval of a final map for the Project, the term of this Agreement shall be extended until the expiration of the vested rights that accompany the vesting tentative tract map for the Project. The term of the tentative tract map for the Project shall be extended to five years from the Effective Date of this Agreement. Notwithstanding the term set forth above, the obligation to pay the Environmental Mitigation and Sustainability Fee shall continue indefinitely as provided in Section 10(f).

6. Timing of Development. The parties acknowledge that Developer cannot at this time predict when or if the Property will be developed. Such decisions depend upon numerous factors which are not within the control of Developer. Because the California Supreme Court held in *Pardee Construction Co. v. City of Camarillo* (1984) 37 Cal. 3d 465, that the failure of the parties therein to provide for the timing of development resulted in a later adopted initiative restricting the timing of development to prevail over such parties' agreement, it is the Parties' intent to cure that deficiency by acknowledging and providing that Developer shall have the right to develop the Property consistent with the Project Approvals and the Conditions of Approval in such order and at such rate and at such times as the Developer deems appropriate within the exercise of its sole and subjective business judgment during the Term of this Agreement.

7. Permitted Uses; Density; Building Heights and Sizes; Required Dedications. The City and the Developer hereby agree that the permitted uses of the Property, the density and intensity of such uses, the maximum heights and sizes of the buildings and improvements to be constructed on the Property, and the reservation and dedication of land for public purposes required in connection with the development of the Property shall be as set forth in and consistent with the Project Approvals. The Developer shall not cause or permit any use of the Property that is not permitted by the Project Approvals or any Subsequent Project Approvals, and shall not cause or permit the construction of any building or improvement that exceeds the maximum density, building heights and/or building sizes set forth in or otherwise required by the Project Approvals and/or any Subsequent Project Approvals.

8. Developer's Rights. The Developer shall have and is hereby vested with the rights, during the term of this Agreement, to develop the Project as set forth in the Project Approvals, all of which are hereby incorporated in this Agreement by reference.

9. Changes in Applicable Rules.

(a) Nonapplication of Changes in Applicable Rules. The adoption of any Subsequent Land Use Regulations after the Effective Date of this Agreement, or any change in, or addition to, the Applicable Rules (other than changes in Development Fees and Processing Fees or other changes as provided in this Agreement), including, without limitation, any changes in the

07 2346280

General Plan or the Zoning Regulations (including any regulation relating to the timing, sequencing, or phasing of the Project or construction of all or any part of the Project), adopted after the Effective Date of this Agreement, including, without limitation, any such change by means of ordinance, initiative, referendum, resolution, motion, policy, order or moratorium, initiated or instituted for any reason whatsoever and adopted by any board, agency, commission or department of the City, or by the electorate, as the case may be, which would, absent this Agreement, otherwise be applicable to the Project and which would conflict in any way with the Project Approvals shall not be applied to the Project unless such changes represent an exercise of the City's Reserved Powers. The City's Reserved Powers is defined as the enactment of regulations and/or the taking of Discretionary Actions if the same is expressly found by the City to be necessary to protect the residents of the Project or the residents of the City from a condition that is dangerous to public health or safety or if the same is required to comply with State or Federal laws (whether enacted previous or subsequent to the Effective Date of this Agreement).

(b) Changes in Uniform Codes. Notwithstanding any provision of this Agreement to the contrary, development of the Project shall be subject to changes occurring from time to time in the provisions of the City's building, fire mechanical, plumbing, swimming pool, spa, hot tub, energy and electrical regulations which are based on the recommendations of a multi-state professional organization and become applicable throughout the City, including, but not limited to, the Uniform Building Code and other similar or related uniform codes.

(c) Changes Mandated by Federal or State Laws or Regulations. Changes in, or additions to, the Applicable Rules adopted or made operative on or after the Effective Date of this Agreement shall apply to the Project, if such changes or additions are specifically mandated to be applied to developments such as the Project, by applicable State or Federal laws or regulations. Where City or Developer believes that such a change or addition exists, that Party shall provide the other Party hereto with a copy of such State or Federal law or regulation and a statement of the nature of its conflict with the provisions of the Applicable Rules and/or of this Agreement. The City's determination shall be final and conclusive.

(d) Changes in Processing Fees Under Applicable Rules. The Project shall be subject to any increase in Processing Fees imposed by the City, provided that no such change shall be solely applicable to the Project.

(e) Applicable Developer Fees. Except as set forth in subsection 10(e) below, the Project shall be subject to the payment of Developer Fees no matter when adopted, in the amount in effect at the time that the Developer Fee becomes due under the Applicable Rules or any law adopted after the Effective Date of this Agreement.

10. Developer's Obligations.

(a) Conditions of Approval. The Developer shall comply with the Conditions of Approval.

(b) Payment of Developer Fees and Processing Fees. The Developer shall pay all Developer Fees and Processing Fees when such fees are required to be paid under the laws of the

07 2346280

City, whether or not such fees are adopted or increased before or after the Effective Date of this Agreement.

(c) Payment of Other Fees. On the Effective Date of this Agreement, Developer shall pay all outstanding City Processing Fees, including the costs for processing of the Project applications and for the environmental impact report, and legal costs for the preparation of this Agreement.

(d) Public Benefit Contribution.

i. Prior to the issuance of a building permit for the Project, Developer shall pay to City a public benefit contribution of \$3,248,000.

ii. To the extent the Project actually constructed contains less than 54 condominium units, the public contribution shall be reduced by \$26,177.30 for each unit not constructed.

(e) Notwithstanding subsection 9(e), if, after the Effective Date of this Agreement, the City adopts a Developer Fee or Fees for the purpose of addressing a project's impact on the City's infrastructure (such as streets, utilities, lights), on affordable housing, on sustainability, or to offset the loss of business taxes, Developer shall not be required to pay said fee or fees since this Agreement requires Developer to pay the public benefit contribution set forth in paragraph (d) and the EMS Fee set forth in paragraph (f). The determination of whether a Developer Fee addresses a project's impact on the City's infrastructure (such as streets, utilities, lights), affordable housing, or sustainability, or whether a Developer Fee is adopted to offset the loss of business taxes, shall be determined by the City in its sole discretion.

(f) Environmental Mitigation and Sustainability Fee

i. *Amount of fee.* Concurrent with the close of each Sales Transaction, the seller shall pay or cause to be paid to City an Environmental Mitigation and Sustainability Fee ("EMS Fee"). The amount of the EMS Fee shall be equal to \$4.50 for each \$1,000 of the consideration or value of the interest or property conveyed (exclusive of the value of any lien or encumbrance remaining thereon at the time of sale), subject to adjustment as set forth in Section 10(f)(iv) below. The EMS Fee shall be paid from the escrow account set up for the Sales Transaction. The fee shall be paid upon each Sales Transaction by Developer, and upon each subsequent Sales Transaction by the then current owner.

ii. *Final Developer EMS payment.* If, at the time of the last Initial Sales Transaction, the total amount of the EMS Fee paid in connection with all Initial Sales Transactions is less than \$504,000, then, in addition to the EMS Fee due as a result of the last Initial Sales Transaction, Developer shall pay to City one-half the difference between \$504,000 and the total amount of the EMS Fees paid in connection with all Initial Sales

07 2346280

Transactions (which EMS Fees will include the EMS Fee paid in connection with the last Initial Sales Transaction) ("Final Developer EMS Payment"). For example, if the total EMS Fees paid in connection with all Initial Sales Transactions is \$400,000, then the Final Developer EMS Payment shall be \$52,000 ($\$504,000 - \$400,000 = \$104,000 \div 2 = \$52,000$). Developer shall pay or cause to be paid the Final Developer EMS Payment from the escrow account set up for the last Initial Sales Transaction. Notwithstanding the foregoing, if the last Initial Sales Transaction has not occurred within eighteen (18) months after the close of the first Initial Sales Transaction, then on the date that is eighteen months after the close of the first Initial Sales Transaction, Developer shall pay to City one-half the difference between (x) the total EMS Fees paid by Developer in connection with the Initial Sales Transactions through that date and (y) \$504,000.

iii. *Final Developer EMS Credit.* If, at the time of the last Initial Sales Transaction, the total amount of the EMS Fee paid in connection with all Initial Sales Transactions, including the EMS Fee paid in connection with the last Initial Sales Transaction, is more than \$504,000, then, Developer shall be entitled to a credit against the EMS Fee paid in connection with the last Initial Sales Transaction equal to one-half the difference between \$504,000 and the total amount of the EMS Fees paid in connection with all Initial Sales Transactions (which EMS Fees will include the EMS Fee paid in connection with the last Initial Sales Transaction) ("Final Developer EMS Credit"). For example, if the total EMS Fees paid in connection with all Initial Sales Transactions is \$600,000, then the Final Developer EMS Credit shall be \$48,000 ($\$600,000 - \$504,000 = \$96,000 \div 2 = \$48,000$). If the amount of the Final Developer EMS Credit exceeds the amount of the EMS Fee due upon the last Initial Sales Transaction, the City shall promptly pay to Developer the difference between the Final Developer EMS Credit and the EMS Fee due upon the last Initial Sales Transaction. Notwithstanding the foregoing, if the last Initial Sales Transaction has not occurred within eighteen (18) months after the close of the first Initial Sales Transaction, then on the date that is eighteen (18) months after the close of the first Initial Sales Transaction, the Final Developer EMS Fee Credit, if any, shall be calculated as of that date and City shall promptly pay such credit to Developer. No further credit shall be owed by City to Developer.

iv. *Adjustment of EMS Fee.* If, after the Effective Date of this Agreement, the City adopts or increases a real estate transfer tax or documentary transfer tax for Beverly Hills, so that the combined total of the City's taxes and the County of Los Angeles Documentary Transfer Tax exceeds the current \$1.10 per \$1000 of City and County documentary transfer taxes, then the

07 2346280

EMS Fee imposed upon all subsequent Sales Transactions shall be reduced by the amount of the combined taxes that exceeds \$1.10 per \$1000. For example, if City adopts a real estate transfer tax of \$2.20 per \$1000, thus increasing the combined City and County real estate transfer taxes and documentary transfer taxes to \$3.30 per \$1,000 of sales price, then the EMS Fee on all subsequent Sales Transactions would be \$2.30 per \$1000 of sales price ($\$4.50 - \$2.20 = \$2.30$). If the City increases the documentary transfer tax or adopts a real estate transfer tax so that the combined taxes exceed \$5.60 per \$1000 of sales price, then no further EMS Fee shall be due or payable.

(g) Liens for EMS Fee Payable Upon Sale. Developer hereby grants to the City, with power of sale, a lien on the Property and each lot or parcel created by Vesting Tentative Tract Map. No. 63078 to secure the payment of the EMS Fee payable upon each Sales Transaction. In the event that the EMS Fee secured by such lien is not paid concurrently with and as a condition to the closing of a Sales Transaction by Developer or any successor-in-interest to Developer, then City may enforce such lien by sale by City, its attorney or any other person or entity authorized by the City Manager to conduct the sale. Any such sale shall be conducted in accordance with California Civil Code Sections 2924, 2924b, 2924c, 2924f, 2924g, and 2924h, or in any other manner permitted or provided by law. City, through its agent authorized by the City Manager, shall have the power to bid on the encumbered property at the sale, using as a credit bid the amounts secured by such lien, its own funds, or funds borrowed for such purpose, and to acquire the lot or parcel. City is hereby granted, in trust, the applicable lot or parcel and is appointed as trustee for purposes of noticing and effecting any sale pursuant to the provisions of this Section and is hereby expressly granted a "power of sale" in connection therewith. Developer, or any subsequent owner of the Property or any portion thereof, shall provide notice to City, in a form satisfactory to the City, upon any opening of escrow that will result in a Sales Transaction or any other conveyance of the Property or portion thereof. The notice shall include a declaration stating the amount of the EMS Fee due upon closing of any Sales Transaction, or in the case of a conveyance that is not a Sales Transaction, the reason that such conveyance is not a Sales Transaction and therefore not subject to the EMS Fee. Upon receipt of the full amount of the EMS Fee payable with respect to a sale, City shall execute and deliver such documentation, in recordable form, as Developer, the buyer or the title company may reasonably request to evidence the payment of the EMS Fee and extinguishment of the City's lien rights with respect to such sale. Such documentation shall also indicate that payment of the EMS Fee shall not extinguish the City's lien rights with respect to subsequent Sales Transactions.

(h) Nothing in this section shall excuse the Developer from paying any increases in existing Developer Fees.

(i) Prior to any Sales Transaction, City and Developer shall record a document containing forms and procedures for implementation of paragraphs 10(f) and (g).

11. Issuance of Building Permit. The City shall be under no obligation to issue a building permit(s) for the Project until all the fees set forth in Section 10, except for the EMS Fees, have been fully paid to City.

07 2346280

12. Default. Failure by City or Developer to perform any term or provision of this Agreement for a period of thirty days from the receipt of written notice thereof from the other shall constitute a default under this Agreement, subject to extensions of time by mutual consent in writing. Said notice shall specify in detail the nature of the alleged default and the manner in which said default may be satisfactorily cured. If the nature of the alleged default is such that it cannot reasonably be cured within such 30-day period, the commencement of the cure within such time period and the diligent prosecution to completion of the cure shall be deemed a cure within such period.

Subject to the foregoing, and except as provided below, after notice and expiration of the 30-day period without cure, the notifying party, at its option, shall have all rights and remedies provided by law and/or may give notice of intent to terminate this Agreement pursuant to Government Code Section 65868. Following such notice of intent to terminate, the matter shall be scheduled for consideration and review by the Council within thirty calendar days in the manner set forth in Government Code Sections 65867 and 65868.

Upon any such termination, the respective rights, duties and obligations of the parties hereto shall without further action cease as of the date of such termination (except as to duties and obligations that arose prior to the date of such termination).

In no event shall monetary damages be available against the City for any alleged default or breach by the City.

13. Expiration. Upon the expiration of the Term, this Agreement shall terminate and be of no further force or effect; provided, however, such termination shall not affect the obligation to pay the EMS Fee as provided in Section 10(f) or any claim of any Party hereto, arising out of the provisions of this Agreement, prior to the effective date of such termination.

14. Transfers of Interests in Property or Agreement.

(a) Developer shall have the right to sell, assign or transfer all of the real property comprising the Property or this Agreement to any person at any time during the term of this Agreement.

(b) Upon the delegation of all duties and obligations and the sale, transfer or assignment of all or part of the Property, Developer shall be released from its obligations under this Agreement with respect to the Property, or portion thereof sold, transferred or assigned, that arise subsequent to the effective date of such transfer if: (i) Developer has provided to City at least thirty (30) days written notice of such proposed assignment prior to the proposed transfer; (ii) Developer provides satisfactory evidence that the transferee will assume in writing through an assignment and assumption agreement all obligations of Developer under this Agreement with respect to the portion of the Property subject to such sale, transfer or assignment, and (iii) the applicable EMS Fee has been paid. Notwithstanding anything to the contrary contained herein, Developer may provide the City with the thirty (30) day notice under clause (i) of this subsection (b) prior to the Effective Date of this Agreement, in which case the thirty (30) day period shall begin on the date of such notice or on the day following City Council adoption of this Agreement, whichever is later, rather than on the Effective Date.

07 2346280

(c) Assignment and Assumption of Obligations. For all proposed transfers of interest in the Property or in this Agreement, Developer shall provide to City an assignment and assumption agreement in the form attached as Exhibit "B" hereto

(d) Successors and Assigns. All of the terms, covenants and conditions of this Agreement shall be binding upon Developer and its successors and assigns. Whenever the term "Developer" is used in this Agreement, such term shall include any other successors and assigns as herein provided.

15. Covenants. All of the provisions, agreements, rights, powers, standards, terms, covenants and obligations contained in this Agreement shall be binding upon the parties and their respective heirs, successors (by merger, reorganization, consolidation or otherwise) and assigns, devisees, administrators, representatives, lessees, and all other persons acquiring the Property, or any portion thereof, or any interest therein, whether by operation of law or in any manner whatsoever, and shall inure to the benefit of the parties and their respective heirs, successors and assigns. All of the provisions of this Agreement shall constitute covenants running with the land.

16. Indemnification.

(a) Developer agrees to and shall indemnify, hold harmless, and defend, City and its respective officers, officials, members, agents, employees, and representatives, from liability or claims for death or personal injury and claims for property damage which may arise from the acts, errors, and/or omissions of Developer or its contractors, subcontractors, agents, employees or other persons acting on its behalf in relation to the Project and/or in any manner arising from this Agreement. The foregoing indemnity applies to all deaths, injuries, and damages, and claims therefor, suffered or alleged to have been suffered by reason of the acts, errors, and/or omissions referred to in this Section 16, regardless of whether or not City prepared, supplied, or approved plans or specifications, or both. In the event of litigation, City agrees, at no cost to City, to cooperate with Developer. This indemnification, hold harmless and defense requirement shall survive the termination or expiration of this Agreement. City reserves the right, in cases subject to this indemnity, to reasonably approve the attorney selected by Developer to defend Developer and City in any such action.

(b) In the event of any court action or proceeding challenging the validity of this Agreement, any of the Project Approvals or the EIR prepared and adopted for the Project, Developer shall defend, at its own expense, the action or proceeding. In addition, Developer shall reimburse City for its actual costs in defending any court action or proceeding challenging the validity of this Agreement, any of the Project Approvals or the EIR and the Developer shall also pay any award of costs, expenses and fees that the court having jurisdiction over such challenge makes in favor of any challenger and against the City. Developer shall cooperate with City in any such defense as City may reasonably request and may not resolve such challenge without the agreement of City. In the event Developer fails or refuses to reimburse City for its cost to defend any challenge to this Agreement, the Project Approvals or the EIR, City shall have the right to terminate this Agreement, subject to the notice and cure requirements of Section 13 above. In all events, City shall have the right to resolve any challenge in any manner, in its sole discretion.

07 2346280

5

(c) In order to ensure compliance with this section, within twenty days after notification by the City of the filing of any claim, action or proceeding to attack, set aside, void or annul this Agreement, any of the Project Approvals or the EIR prepared and adopted for the Project, the Developer shall deposit with the City cash or other security in the amount of \$25,000, satisfactory in form to the City Attorney, guaranteeing indemnification or reimbursement to the City of all costs related to any action triggering the obligations of this section. If the City is required to draw on that cash or security to indemnify or reimburse itself for such costs, the applicant shall restore the deposit to its original amount within fifteen (15) days after notice from the City. Additionally, if at any time the City Attorney determines that an additional deposit or additional security is necessary to secure the obligations of this section, the Developer shall provide such additional security within fifteen (15) days of notice from the City Attorney. The City shall promptly notify the Developer of any claim, action or proceeding within the scope of this Section and the City shall cooperate fully in the defense of any such claim or action.

(d) Notwithstanding anything to the contrary contained herein, Developer's obligations under subsection (b) of this Section 16 shall not extend to any challenge to the legality or enforceability of the EMS Fee that arises or is asserted more than ninety (90) days after the recordation of the final map for the Project or the issuance of a building permit for the Project, whichever is later.

17. Relationship of the Parties. The Parties acknowledge and agree that the Developer is not acting as an agent, joint venturer or partner of the City, but is, in fact, an independent contractual party and not in any way under the control or direction of the City except as is expressly provided to the contrary in this Agreement.

18. Recordation. As provided in Government Code Section 65868.5, the City Clerk shall record a copy of this Agreement with the Registrar-Recorder of the County of Los Angeles within ten (10) days following its execution by both Parties. Developer shall reimburse the City for all costs of such recording, if any.

19. No Third Party Beneficiaries. The only Parties to this Agreement are the City and Developer and their respective successors-in-interest. There are no third party beneficiaries and this Agreement is not intended and shall not be construed to benefit or be enforceable by any other person whatsoever.

20. Advice; Neutral Interpretation. Each Party has received independent legal advice from its attorneys with respect to the advisability of executing this Agreement and the meaning of the provisions hereof. This Agreement has been drafted through a joint effort of the Parties and their counsel and therefore shall not be construed against either of the Parties in its capacity as draftsman, but in accordance with its fair meaning.

21. Certificate of Compliance. At any time during the term of this Agreement, any lender or other Party may request any Party to this Agreement to confirm that (i) this Agreement is unmodified and in full force and effect (or if there have been modifications hereto, that this Agreement is in full force and effect as modified and stating the date and nature of such

07 2346280

modifications) and that (ii) to the best of such Party's knowledge, no defaults exist under this Agreement or if defaults do exist, to describe the nature of such defaults and (iii) any other information reasonably requested. Each Party hereby agrees to provide a certificate to such lender or other Party within ten (10) business days of receipt of the written request therefor. The failure of any Party to provide the requested certificate within such ten (10) business day period shall constitute a confirmation that this Agreement is in full force and effect without modification except as may be represented by the requesting Party and that to the best of such Party's knowledge, no defaults exist under this Agreement, except as may be represented by the requesting Party.

22. Consideration. The City and Developer acknowledge and agree that there is good, sufficient and valuable consideration flowing to the City and to Developer pursuant to this Agreement as more particularly set forth in the Recitals and Section 2 of this Agreement. The Parties further acknowledge and agree that the exchanged consideration hereunder is fair, just and reasonable.

23. Periodic Reviews.

(a) Annual Reviews. City shall conduct annual reviews to determine whether Developer is acting in good faith compliance with the provisions of this Agreement and Government Code Section 65865.1. The reasonable cost of each annual review conducted during the term of this Agreement shall be reimbursed to City by Developer. Such reimbursement shall include all direct and indirect expenses actually and reasonably incurred in such annual reviews.

(b) Special Reviews. In addition, the City Council of the City may order a special periodic review of Developer's compliance with this Agreement at any time. The cost of such special reviews shall be borne by the City, unless such a special review demonstrates that Developer is not acting in good faith compliance with the provisions of this Agreement. In such cases, Developer shall reimburse City for all costs, direct and indirect, incurred in conjunction with such a special review.

(c) Procedure for Review. The City's Planning Director (the "Planning Director") shall conduct the review contemplated by this Section 23 to ascertain whether the Developer has complied in good faith with the terms and conditions of this Agreement during the period for which the review is conducted. The Planning Director shall give the Developer written notice that any such review has been commenced, and shall give the Developer at least twenty (20) days after the Developer's receipt of such notice to provide to the Planning Director such information as the Developer deems relevant to such review. In addition, upon the written request of the Planning Director, the Developer shall furnish such documents or other information as requested by the Planning Director.

(d) Result of Review. If, following such a review, the Planning Director finds good faith compliance by the Developer with the terms and conditions of this Agreement, the Planning Director shall issue to the Developer an executed certificate of compliance, certifying the Developer's good faith compliance with the terms and conditions of this Agreement through the

07 2346280

period of such review. Such certificate shall be in recordable form, and shall contain such information as may be necessary to impart constructive record notice of the finding of good faith compliance hereunder. The Developer shall have the right to record such certificate of compliance in the Official Records of the County of Los Angeles.

If, following such a review, the Planning Director, finds that the Developer has not complied in good faith with the terms and conditions of this Agreement, the Planning Director shall specify in writing the respects in which the Developer has failed to so comply. The Planning Director shall provide the Developer with written notice of such noncompliance in the manner provided in Section 31, together with a written specification of the reasons therefor. Such written notice shall also specify a reasonable time for the Developer to cure such non-compliance, which time shall be not less than thirty (30) days after the Developer's receipt of such notice.

(e) Appeals to City Council. A determination of non-compliance by the Planning Director pursuant to this Section 23 shall be appealable to the City Council within thirty (30) days after the Developer's receipt of the Planning Director's written notice of non-compliance given pursuant to Section 23(d) above. If the Developer appeals such a determination to the City Council, then the City Council shall schedule a public hearing thereon not later than thirty (30) days after the date on which the Developer gives its notice of appeal to the City. At such hearing, the Developer shall be entitled to address all of the issues considered by the Planning Director in making such determination. Information presented by the Developer at such hearing may be presented orally and/or in writing. If, after receiving any written response of the Developer to the Planning Director's determination, and after considering all of the information presented at such hearing, the City Council finds and determines that the Developer has not in good faith complied with the terms and conditions of this Agreement, then the City Council shall specify in writing to the Developer the respects in which the Developer has failed to so comply, and shall also specify a reasonable time for the Developer to ensure such non-compliance, which time shall be not less than thirty (30) days after the Developer's receipt of such notice. A determination by the City Council of non-compliance shall be in writing delivered in accordance with Section 30, and shall specify in detail the grounds therefor, so that the Developer shall have the opportunity to implement any measures necessary to cure such non-compliance. If the non-compliance so specified by the City Council is not cured within the time so specified, then the City may terminate this Agreement by providing written notice of termination.

(f) Effect on Default. Nothing in this Section 23 shall be interpreted to prevent the City from providing the Developer with a notice of default hereunder at any time other than during a periodic review under this Section 23, or from terminating this Agreement pursuant to the provisions hereof following any event of default by the Developer, subject to the notice and cure provisions of Section 12 above.

(g) Failure of Periodic Review. The City's failure to review, at least annually, compliance by Developer with the terms and conditions of this Agreement shall not constitute or be asserted by any Party as a breach by any other Party of this Agreement.

24. Mortgagee Protection. This Agreement shall not prevent or limit Developer, in any manner, at Developer's sole discretion, from encumbering the Property or any improvements

07 2346280

R

thereon by any mortgage, deed of trust or other security device. The City acknowledges that the lender(s) providing such financing ("Mortgagee") may require certain Agreement interpretations and agrees, upon request, from time to time, to meet with Developer and representatives of such lender(s) to provide within a reasonable time period the City's response to such requested interpretations. Any Mortgagee of a mortgage or a beneficiary of a deed of trust or any successor or assign thereof, including without limitation the purchaser at a judicial or non-judicial foreclosure sale or a person or entity who obtains title by deed-in-lieu of foreclosure on the Property must be entitled to the following rights and privileges:

(a) Mortgage Not Rendered Invalid. Neither entering into this Agreement nor a breach of this Agreement shall defeat, render invalid, diminish, or impair the priority of the lien of any mortgage or deed of trust on the Property made in good faith and for value provided, however, that each lien securing EMS Fees described in Section 10(g) above shall be prior and superior to mortgage or deed of trust security financing used to purchase the applicable condominium unit if the EMS Fee payable upon such purchase and sale shall not have been paid. No Mortgagee shall have an obligation or duty under this Agreement to perform Developer's obligations, or to guarantee such performance, before taking title to all or a portion of the Property.

(b) Request for Notice to Mortgagee. The Mortgagee of any mortgage or deed of trust encumbering the Property, or any part thereof, who has submitted a request in writing to the City in the manner specified herein for giving notices, shall be entitled to receive a copy of any notice of default hereunder delivered to Developer.

(c) Mortgagee's Time to Cure. The City shall provide a copy of any notice of default hereunder to the Mortgagee within ten (10) days of sending the notice of default to Developer. The Mortgagee must have the right, but not the obligation, to cure the default for a period of thirty (30) days after receipt of such notice of default. Notwithstanding the foregoing, if such default is a default which can only be remedied by such Mortgagee obtaining possession of the Property, Mortgagee shall have the right to seek to obtain possession with diligence and continuity, and to remedy or cure such default within thirty (30) days after obtaining possession, and except in cases of emergency or to protect the public health or safety, the City may not exercise its remedies set forth herein until expiration of such thirty (30) day period; provided, however, that in the case of a default which cannot with diligence be remedied or cured or the remedy or cure of which cannot be commenced within such thirty (30) day period, the Mortgagee shall have such additional time as it is reasonably necessary to remedy or cure such default, provided that Mortgagee diligently proceeds to cure and provided further that in no case shall such default be cured no later than one (1) year after Mortgagee obtains such possession. In no case will the time to remedy or cure the default extend the term of this Agreement.

(d) Cure Rights. Any Mortgagee who takes title to all of the Property, or any part thereof, pursuant to foreclosure of the mortgage or deed of trust, or a deed in lieu of foreclosure, may succeed to the rights and obligations of Developer under this Agreement as to the Property or portion thereof so acquired; provided, however, in no event shall such Mortgagee be liable for any defaults or monetary obligations of Developer arising before acquisition of title to the Property by such Mortgagee, except that any such Mortgagee shall not be entitled to a building

07 2346280

permit or occupancy certificate until all delinquent and current fees and other monetary or non-monetary obligations due under this Agreement for the Property have been satisfied.

(e) Bankruptcy. If any Mortgagee is prohibited from commencing or prosecuting foreclosure or other appropriate proceedings in the nature of foreclosure by any process or injunction issued by any court or by reason of any action by any court having jurisdiction of any bankruptcy or insolvency proceedings involving Developer, the times specified in Section 24(c) above shall be extended for the period of the prohibition as long as the Mortgagee is diligently attempting to obtain possession by seeking relief of the automatic stay and/or other reasonable means, except that any such extension shall not extend the term of this Agreement.

25. Future Litigation Expenses.

(a) Payment of Prevailing Party. If City or Developer brings an action or proceeding (including, without limitation, any motion, order to show cause, cross-complaint, counterclaim, third-party claim or arbitration proceeding) by reason of defaults, breaches, tortious acts, or otherwise arising out of this Agreement, the prevailing party in such action or proceeding shall be entitled to its costs and expenses of suit including, but not limited to, reasonable attorneys' fees and expert witness fees.

(b) Scope of Fees. Attorneys' fees under this Section shall include attorneys' fees on any appeal and, in addition, a party entitled to attorneys' fees shall be entitled to all other reasonable costs and expenses incurred in connection with such action. In addition to the foregoing award of attorneys' fees to the prevailing party, the prevailing party in any lawsuit shall be entitled to its attorneys' fees incurred in any post-judgment proceedings to collect or enforce the judgment. This provision is separate and several and shall survive the merger of this Agreement into any judgment on this Agreement.

26. Headings. The section headings used in this Agreement are for convenient reference only and shall not be used in construing this Agreement. The words "include", "including" or other words of like import are intended as words of illustration and not limitation and shall be construed to mean "including, without limitation".

27. Amendment; Waiver. No alteration, amendment or modification of this Agreement shall be valid unless evidenced by a written instrument executed by the parties hereto with the same formality as this Agreement, and made in the manner required by the Development Agreement Act. The failure of either party hereto to insist in any one or more instances upon the strict performance of any of the covenants, agreements, terms, provisions or conditions of this Agreement, or to exercise any election or option herein contained, shall not be construed as a waiver or relinquishment for the future of such covenant, agreement, term, provision, condition, election or option, but the same shall continue and remain in full force and effect. No waiver by any party hereto of any covenant, agreement, term, provision or condition of this Agreement shall be deemed to have been made unless expressed in writing and signed by an appropriate official or officer on behalf of such party.

28. Severability. If any article, section, subsection, term or provision of this Agreement, or the application thereof to any party or circumstance, shall, to any extent, be invalid or

07 2346280

20

unenforceable, the remainder of the article, section, subsection, term or provision of this Agreement, or the application of the same to parties or circumstances other than those to which it is held invalid or unenforceable, shall not be affected thereby, and each remaining article, section, subsection, term or provision of this Agreement shall be valid and enforceable to the fullest extent permitted by law, except that if any provision of Section 10 (Developer's obligations) is held invalid or unenforceable, this entire Agreement shall be void and unenforceable and of no further force and effect.

29. **Binding Effect.** Except as may otherwise be expressly provided herein to the contrary, this Agreement and each of the provisions hereof shall be binding upon and inure to the benefit of each of the parties hereto, and their respective successors and assigns.

30. **Notices.** All notices, disclosures, demands, acknowledgements, statements, requests, responses and other communications (each, a "Communication") to be given under this Agreement shall be in writing, signed by the party hereto (or an officer, agent or attorney of such party) giving such Communication, and shall be deemed effective (i) upon receipt if hand delivered or sent by overnight courier service; or (ii) upon delivery or the date of refusal if sent by the United States mail, postage prepaid, certified mail, return receipt requested, in either case addressed as follows:

PLANNING COMMISSION RESOLUTION

RESOLUTION NO.

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF BEVERLY HILLS REPORTING TO THE CITY COUNCIL ON THE CONSISTENCY OF THE PROPOSED DEVELOPMENT AGREEMENT AMENDMENT WITH THE CITY'S GENERAL PLAN, AND RECOMMENDING APPROVAL OF THE AMENDMENT.

The Planning Commission of the City of Beverly Hills hereby resolves as follows:

Section 1. California Government Code Section 65867 requires that if a general plan has been adopted, no Development Agreement or amendment to a Development Agreement shall be approved until the agreement or amendment has been submitted to and reported upon by the planning agency as to conformity with said adopted general plan. Pursuant to Government Code Section 65100, Beverly Hills Municipal Code Section 10-1-102 assigns the planning agency function for review and implementation of the general plan to the Planning Commission.

Section 2. On August 2, 2012, the Planning Commission, in its capacity as the Planning Agency, reviewed the proposed Development Agreement amendment for the previously approved mixed-use project located at 9200 Wilshire Boulevard for consistency with the City's General Plan. The proposed amendment extends the expiration date of a Development Agreement associated with a previously approved mixed-use development project. The amendment does not modify the previously approved project, and only extends the expiration date of the Development Agreement to align with the expiration date of the previously approved project's Vesting Tentative Map. The amendment extends a project that is consistent with the City's General Plan and the goals and policies adopted in conjunction with the project, and advances the policies set forth in

the General Plan. Specifically, the proposed amendment is consistent with General Plan Policies LU 2.1, LU 2.4, and LU 9.5, which state:

"LU 2.1 City Places: Neighborhoods, Districts and Corridors. Maintain and enhance the character, distribution, built form, scale, and aesthetic qualities of the City's distinctive residential neighborhoods, business districts, corridors, and open spaces."

"LU 2.4 Architectural and Site Design. Require that new construction and renovation of existing buildings and properties exhibit a high level of excellence in site planning, architectural design, building materials, use of sustainable design and construction practices, landscaping, and amenities that contribute to the City's distinctive image and complement existing development."

"LU 9.5 Commercial/Residential Mixed Uses. The feasibility of allowing mixed commercial/residential uses should be analyzed in order to expand the variety of housing types available and in certain areas, to improve commercial/residential transitions."

Specifically, the amendment will allow for the construction of a project that improves the adjacent neighborhood and streetscape by replacing a vacant lot, utilizes quality architectural design to enhance the neighborhood, and includes a mix of commercial and residential uses to serve as a transition from the commercial corridor along Wilshire Boulevard to the residential area south of the project site. For these reasons, the amendment is consistent with the City's General Plan.

Section 3. Based on the foregoing review, the Planning Commission hereby finds that the Development Agreement amendment is consistent with the City's General Plan, and recommends that the City Council approve the requested amendment.

Section 4. The Secretary shall forward this Resolution to the City Council for its consideration in reviewing the proposed Development Agreement amendment for the property located at 9200 Wilshire Boulevard.

Section 5. The Secretary shall certify to the adoption of this Resolution and shall cause this Resolution and his certification to be entered in the Book of Resolutions of the Planning Commission of the City.

ATTACHMENT 4

CITY COUNCIL RESOLUTION No. 07-R-12430

APPROVING PROJECT

RESOLUTION NO. 07-R-12430

RESOLUTION OF THE COUNCIL OF THE CITY OF
BEVERLY HILLS CONDITIONALLY APPROVING VESTING
TENTATIVE TRACT MAP NO. 63078 AND A PLANNED
DEVELOPMENT PERMIT TO ALLOW CONSTRUCTION OF
A MIXED-USE PROJECT FOR PROPERTY LOCATED AT
9200 WILSHIRE BOULEVARD

The City Council of the City of Beverly Hills does resolve as follows:

Section 1. Introduction. 9200 Wilshire LLC, a California limited liability company formerly known as Legacy Partners SSR 9200 Wilshire, LLC, the owner and applicant (hereinafter the "Applicant"), submitted an appeal of the Planning Commission decision denying applications for a General Plan Amendment, a Zoning Code Amendment to create an overlay zone, Vesting Tentative Tract Map No. 63078, a Planned Development Permit, and a proposed Development Agreement to allow construction of a mixed-use project with approximately 14,000 square feet of retail/commercial space and 54 residential condominium units for property located at 9200 Wilshire Boulevard (collectively the "Project"). The appeal of the Planning Commission decision to the City Council was timely filed on July 28, 2006.

Although the Planning Commission's role on General Plan Amendments, Zoning Code Amendments, and Development Agreements is solely advisory to the City Council, the Commission typically has the role of approving or conditionally approving Planned Development Permits and applications for tentative tract maps. In this case, the Planning Commission denied the Project on July 27, 2006, which decision was appealed to the City Council. After granting the appeal as to the concept of mixed-use, the City Council retained jurisdiction over the Project.

Section 2. Project Background. The City Council, at its meeting on September 5, 2006, considered the Applicant's appeal of the Planning Commission resolution denying the applications for the Project. After presentation of the Project and extensive public comment, the City Council found that mixed residential/commercial use could be appropriate at the proposed location, reversed the Planning Commission's decision, and set the Project for consideration at a special meeting on October 9, 2006.

On October 9, 2006, the City Council approved in concept a mixed-use development on the site but directed the Applicant to revise certain elements of the Project design. In response to deliberations at the Planning Commission and City Council hearings, the Applicant made certain revisions to the Project, and the City Council indicated that it supported certain additional revisions to the Project including: relocating the loading area from the Maple Drive frontage to the Palm Drive frontage; shifting the building location three feet closer to Maple Drive to allow widening of Palm Drive adjacent to the Project site; and, increasing the setbacks for the upper stories of the Project, including a substantial increase of the Wilshire Boulevard setback for the sixth floor to give the appearance the building is more consistent with the maximum 45-foot height limit allowed by the C-3 zoning standards, which would underlie the proposed mixed-use overlay zone. The City Council considered the potential impacts of the Project, directed the Applicant to revise the Project to address the impacts as outlined above and recommended mitigation measures and conditions of approval to further address the potential impacts.

On April 26, 2007, the City Council

- Considered and certified the Final Environmental Impact Report prepared for the Project and adopted a Mitigation Monitoring and Reporting Program;

- Conducted first reading of an ordinance amending the Zoning Code to create an overlay zone allowing mixed-use development with greater height and density;
- Reviewed a proposed General Plan Amendment;
- Reviewed a proposed Development Agreement between the City and the Applicant; and,
- Reviewed draft plans showing the revisions previously requested by the City Council and requested an additional revision with regard to the alley setback/garage design to be reviewed at a future meeting.

On July 24, 2007, the City Council:

- Adopted a resolution approving a General Plan Amendment that applies to the 9200 Wilshire site, thus allowing mixed-use and additional height and density;
- Conducted first reading of an ordinance approving the Development Agreement between the Applicant and the City; and,
- Directed staff to prepare a resolution approving the Project with an alley setback of 5'-8" and additional landscaping in the rear.

On September 4, 2007, the City Council:

- Due to technical revisions to the Development Agreement, the City Council reintroduced and conducted first reading of an ordinance approving the Development Agreement between the Applicant and the City;
- As a result of the revisions to the Development Agreement, the ordinance amending the Zoning Code to create an overlay zone allowing mixed-use development was reintroduced and first reading was conducted.

Section 3. Project Description. The Project consists of 54 residential condominium units; approximately 14,000 square feet of ground-floor commercial space and rooftop uses including a pool, fitness center and clubhouse for residents. Building height would be 60 feet to the roof deck, and 70 feet to the top of the fitness center and clubhouse. Up to 283 parking spaces would be located in a four-level subterranean garage. Access to Project parking will be split between Maple Drive (resident parking) and Palm Drive (visitor and commercial parking). The Project's loading facilities will be located on Palm Drive and will include one space for a 35-foot truck and one space for a 55-foot truck. The approval of the Project is dependent upon approval of an overlay zone for this location because the current C-3 zoning does not allow residential uses and the Project will exceed the existing three-story/45-foot height limit and 2:1 FAR (Floor Area Ratio) allowed in the C-3 Zone.

Section 4. Planning Commission Environmental Review. The Planning Commission held duly noticed public hearings to consider the Project and the Draft Environmental Impact Report ("Draft EIR") on January 25, 2006, March 30, 2006, and June 8, 2006, and a separate public hearing for the Development Agreement on April 6, 2006. Evidence, both written and oral, was presented at said hearings. Based upon the evidence presented to it, the Planning Commission denied the Project. The Planning Commission reviewed and considered the Draft EIR prior to taking action on the Project. However, pursuant to Guidelines Section 15061(b)(4), a Project that is denied or rejected is exempt from the requirements of CEQA. Accordingly, although the Planning Commission did consider the Draft EIR, it did not adopt or certify the Draft EIR in connection with this Project because of its denial determination.

Section 5. City Council Environmental Review. On September 5, 2006, the City Council held a hearing on the appeal of the Planning Commission's July 27, 2006 action denying the Project and the City Council overturned the Planning Commission's decision. Subsequently, the City Council held public hearings on October 9, 2006, and April 26, 2007, to consider the Draft EIR, the Project, and the Development Agreement. On April 26, 2007, the City Council held a public hearing and adopted a resolution certifying the Final Environmental Impact Report ("Final EIR") making environmental findings pursuant to CEQA and adopting a mitigation monitoring and reporting program. The certification, environmental findings and mitigation monitoring and reporting program are set forth in Resolution No. 07-R-12323, dated April 26, 2007, which is incorporated herein by this reference. The mitigation measures are expressly made applicable to the Project and are incorporated into the conditions of approval for the Project.

Section 6. Vesting Tentative Tract Map Criteria. Pursuant to the California Subdivision Map Act and the City's subdivision requirements, the City Council considered the following issues in reviewing the application for Vesting Tentative Tract Map No. 63078:

6.1 Whether the proposed tentative map and the design or improvement of the proposed subdivision are consistent with the General Plan of the City and any applicable Specific Plan of the City;

6.2 Whether the site is physically suitable for the type of development and the proposed density;

6.3 Whether the design of the subdivision and the proposed improvements are likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat;

6.4 Whether the design of the subdivision or type of improvements are likely to cause serious public health problems and whether the design of the subdivision or the type of improvements will conflict with any public easements; and

6.5 Whether the discharge of wastewater from the proposed subdivision into the existing sewer systems will result in a violation of existing requirements established by the Regional Water Quality Control Board.

Section 7. Vesting Tentative Tract Map Findings. Based upon the evidence presented in the record on this matter, including the staff reports and oral and written testimony, the City Council hereby finds as follows with respect to Vesting Tentative Tract Map No. 63078:

7.1 As conditioned, the proposed Project and its design and improvements are consistent with both the General Plan of the City as amended by the City Council on July 24, 2007, and the proposed Overlay Zone. The proposed subdivision and improvements implement the development and improvements described in the Development Agreement and the Final EIR, which in turn are consistent with the General Plan and the Overlay Zone, all of which are hereby incorporated by reference. Further, the Project advances general plan policies and objectives related to providing a mix of residential types and improving residential-commercial transitions, as discussed further in Section 8 of this Resolution.

7.2 As conditioned, the site is physically suitable for the type of development and the proposed density. The site currently is vacant. The infrastructure serving the site is

generally adequate to support the development proposed on the site. The site has no unusual seismic or other hazards. Therefore, the site is physically suitable for the type of development and the proposed density.

7.3 As conditioned, the proposed Project will not cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat. The Final EIR prepared for the Project found no significant impacts to fish, wildlife or habitat, and concluded that all Project impacts can be mitigated to less than significant levels.

7.4 The design of the subdivision and the type of improvements will not cause serious public health problems and will not conflict with easements acquired by the public at large for access through or use of property within the proposed subdivision. The proposed map has been preliminarily reviewed by the Public Works and Engineering Department, which has recommended conditions of approval requiring the Applicant to obtain encroachment permits for all temporary and permanent encroachments into the public rights-of-way. Further, in order to ensure sufficient alley width adjacent to the Project site to adequately serve the Project, the Public Works and Engineering Department recommends that the Applicant dedicate an additional 2.5-foot easement along the alley to accommodate widening. The public at large has not acquired any other easement for access through or use of the property.

7.5 The discharge of waste from the proposed subdivision into the existing sewer system will not result in a violation of existing requirements prescribed by the Regional Water Quality Control Board. The subdivision will be served by the Hyperion Water Treatment Plant. The plant has sufficient capacity to handle the wastewater from the Project. Therefore, the discharge of wastewater from the proposed subdivision into the existing sewer systems will

not result in a violation of existing requirements presented by the Regional Water Quality Control Board.

Section 8. General Plan Consistency. Based upon the evidence presented, including staff reports and oral testimony, the City Council hereby finds that the Project will advance the objectives of the General Plan and proposed Mixed-Use Planned Development Overlay Zone (M-PD-4) for the following reasons:

8.1 The Land Use Element Map of the General Plan was amended by the City Council on July 24, 2007 and identifies the maximum FAR for the site to be 4:0:1, with a maximum building height of 60 feet. The Project is consistent with the amended General Plan Land Use Element Map. The Project is also consistent with specific land use policies and objectives in the Land Use and Housing Elements including provision of development standards for projects involving a mix of commercial and residential uses in order to expand the variety of available housing types, possibly including low-income housing components and/or additional height in areas currently zoned for commercial use (see Objective 4.3, page 16 of the Housing Element); and, maintaining and enhancing qualities that contribute to the long-term stability and desirability of residential and non-residential areas of the City.

8.2 The Project will further the goals and objectives of the General Plan by creating a Mixed-Use Planned Development Overlay Zone (M-PD-4) and providing a mixed commercial/residential development that would not otherwise be provided in the City. The Land Use Element of the General Plan recommends that in commercial areas, “[t]he feasibility of allowing mixed commercial/residential uses should be analyzed in order to expand the variety of

housing types available and in certain areas, to improve commercial/residential transitions.”
(Land Use Element, Section 2.2)

The Project will further goals and objectives of the General Plan by replacing a vacant lot with a mixed-use project, including 54 residential condominium units. Implementation of the Project expands the housing opportunities available in the City and helps the City fulfill its obligations under the Housing Element and state housing law by helping the City meet its share of the regional housing needs. The Project is consistent with goals and policies set forth in the General Plan including Program 4.3 of the Housing Element that states as an objective, “[d]evelop standards for mixed commercial and residential uses ... with and without low-income housing components, including additional height, in areas currently zoned for commercial use ... such as: South side of Wilshire Blvd., east of Beverly Drive.” The General Plan clearly encourages the development of standards for mixed-use development on the South side of Wilshire Boulevard, east of Beverly Drive, which is the location of the Project.

8.3 The Project will further goal/objective (2) of the Land Use Element by replacing a vacant lot with a mixed-use project, including 14,000 square feet of commercial space with subterranean parking and 54 housing units that are compatible with the existing neighborhood in scale and preserve the character and “rhythm” of the surrounding streets. The Project’s parking, modern features and design will be consistent with the character and quality of life generally associated with the City and the surrounding neighborhood.

Section 9. Overlay Zone Objectives. Pursuant to Beverly Hills Municipal Code Article 1, Chapter 4 and Section 10-3-1844, the City Council may approve a planned development permit if the City Council finds that the proposal will meet the requirements of the

Municipal Code and will advance objectives of the zone in which it is located. The City Council may impose such conditions and restrictions on the approval as are necessary to ensure a planned development will advance objectives of the zone. Any approval of the Project would be contingent upon the City Council's enactment of the ordinance establishing a Mixed-Use Planned Development Overlay Zone for the site. The proposed Zone Text Amendment to create the Mixed-Use Planned Development Overlay Zone (M-PD-4) and zone change to apply the overlay to the subject property is warranted because it furthers the public interest, health, safety, morals, peace, comfort, convenience or general welfare. The proposed Overlay Zone would create appropriate standards and criteria to ensure that the Overlay Zone is compatible with uses allowed within the underlying zone and on adjacent properties while maintaining and protecting the public interest, health, safety, morals, peace, comfort, convenience or general welfare.

Should the proposed Mixed-Use Overlay Zone be adopted, a mixed-use development such as the Project would be reviewed in accordance with the following ordinance objectives Pursuant to the proposed Section 10-3-1990 of the Beverly Hills Municipal Code:

9.1 To ensure that mixed-use development in the M-PD-4 Zone will not adversely affect existing and anticipated development in the vicinity and will promote harmonious development of the area;

9.2 To provide for mixed-use development that is compatible with the scale and massing of the surrounding neighborhood, through appropriate height, modulation, upper-story setbacks, other similar measures, or any combination thereof;

9.3 To provide pedestrian-friendly amenities along the street level, and setbacks that are generally consistent with other development along Wilshire Boulevard and

along Palm Drive between Wilshire Boulevard and Charleville Boulevard, and along Maple Drive between Wilshire Boulevard and Charleville Boulevard;

9.4 To ensure that mixed-use development in the M-PD-4 Zone will not create any significant, adverse traffic safety hazards, pedestrian-vehicle conflicts, or pedestrian safety hazards and will minimize impediments to vehicular circulation and pedestrian safety;

9.5 To foster uniform planning and development of all parcels in the M-PD-4 Zone to ensure unified development in the overlay zone; and,

9.6 To protect the public health, safety and welfare.

Section 10. Based upon the evidence presented in the record on this matter, including the staff report and oral and written testimony, the City Council hereby finds as follows with respect to the objectives of the overlay zone:

10.1 As conditioned, the proposed Project is compatible with and will not adversely affect existing and anticipated development in the vicinity and promotes harmonious development of the area. The Project as conditioned incorporates many design elements, including architectural modulation, setbacks and landscaping, designed to integrate the Project with both the commercial areas along Wilshire Boulevard and the multi-family residential areas along Maple Drive and Palm Drive. Additionally, the arrangement of uses on the site is respectful of and reflects the Project's context to surrounding streets, with commercial uses concentrated along the Wilshire façade and residential uses behind the commercial uses at the ground floor and located above the commercial uses. The Applicant will be required to prepare and submit a construction management plan and to conform all construction activities to said plans to minimize construction impacts on adjacent land uses. Thus, the Project will not

adversely affect existing or anticipated development in the vicinity and will promote harmonious development of the area.

10.2 As conditioned, the Project provides for mixed-use development that is compatible with the scale and massing of the surrounding neighborhood. This is achieved through the Project's maximum 60-foot height limit adjacent to a 55' height district (with existing structures that exceed 55'); modulation of the upper floors, particularly the sixth floor along Wilshire Boulevard (which begins approximately 49 feet above grade and is set back 9'-6" to 27'-6" from the front property line) to make the building appear more consistent in height with the existing Code-maximum height of 45'; and a rear setback of 5'-8" to allow for substantial landscaping along the rear alley adjacent to existing residences. The Project has a large courtyard area at the third floor along the alley, resulting in additional open space in the rear from the third through sixth floors providing some relief to the neighbors to the south. The Project has a three-foot setback at Maple Drive and a nine-foot setback at Palm Drive. This allows widening North Palm Drive by five feet along the Project site to provide additional room for truck maneuvers and to provide additional space for landscaping around the loading docks to improve their appearance.

10.3 As conditioned, the Project will provide pedestrian-friendly amenities along the street level, including retail/commercial uses and setbacks that are generally consistent with other development along Wilshire Boulevard as well as setbacks along Palm Drive and Maple Drive that are more generous than typically provided for a commercial development, and thus allowing for better truck loading access along Palm Drive and more landscaping along Palm Drive and Maple Drive in keeping with the largely residential uses of the building. The Project provides an opportunity to construct a quality mixed-use development that would not otherwise

be encouraged by the underlying zone. The Project provides sufficient floor area to allow the Applicant to construct a commercial building that includes high quality amenities and high quality architectural design. The Project design will contribute to the urban design amenities that will serve as a visual and pedestrian link between commercial areas along Wilshire Boulevard.

10.4 As conditioned, the proposed Project will not create any significant, adverse traffic safety hazards, pedestrian-vehicle conflicts or pedestrian safety hazards and will minimize impediments to vehicular circulation and pedestrian safety. The Project EIR fully analyzes the existing traffic conditions, taking into account ambient traffic growth in the area surrounding the Project, as well as traffic from other projects that are proposed in the vicinity of the Project site. The EIR then adds in traffic generated from the Project, as determined pursuant to the ITE Trip Generation publication. The Project is expected to generate approximately 950 trips for a typical weekday and 992 trips for a typical Saturday. The Project would generate 33, 82 and 101 trips, during weekday morning peak hour, weekday evening peak hour, and Saturday peak hour (which is midday), respectively. Accordingly, the Project impacts do not exceed the Thresholds of Significance, which are set forth in Section 3C of the EIR, for any of the thirteen study intersections analyzed. Thus, the Project will not result in any significant traffic impacts and no mitigation is required for operation of the Project. The EIR also demonstrates that, as designed, the Project will not result in any significant adverse traffic impacts to adjacent residential streets because traffic volumes will not significantly increase on residential streets. Notwithstanding this conclusion, the City Council has required modifications to the Project to permit the widening of Palm Drive in order to further lessen any potential traffic impacts from the Project. Coupled with the revisions to the loading facility design, the Project will not result in any adverse traffic impacts on adjacent residential streets. Under the City's parking Codes,

253 parking spaces would be required and pursuant to the ITE Parking Generation, 3rd Edition, Project parking demand would be 241 parking spaces. Actual parking provided is proposed to be 275 spaces (6% compact, 11% tandem). This should be more than adequate to accommodate Project parking.

10.5 As conditioned, the Project will foster uniform planning and development of all parcels in the M-PD-4 Zone because all parcels are included in the Project which is an integrated development. Further, the Project's building façade, architectural details and landscaping are subject to review and approval by the Architectural Commission.

Based on the foregoing, the City Council finds that the Project as proposed is consistent with the objectives of the M-PD-4 Zone.

Additionally, the City Council may modify the parking requirements for a mixed use development, as part of a planned development, if it finds that such modifications would advance the objectives of the M-PD-4 Zone as set forth in Section 10-3-1990.02 of the Beverly Hills Municipal Code. The Council has determined that allowing certain standard parking spaces, as shown on the plans submitted to the City Council for its meeting of September 4, 2007, to be eighteen feet (18') in length would further the goal of ensuring that mixed-use development in the MPD-4 Zone will not adversely affect existing and anticipated development in the vicinity and will promote harmonious development of the area because the shorter spaces will allow for increased setbacks to be provided between the mixed use development and adjacent multi family residential buildings. Therefore, the City Council hereby modifies the parking requirements of the Municipal Code to allow for certain spaces to be eighteen feet (18') in length as shown on the above referenced plans.

Section 11. As conditioned, the proposed Project has sufficiently mitigated potentially adverse construction traffic impacts and parking impacts as a result of patron, employee and resident parking demand. Conditions will be imposed on the Project to reduce parking impacts, including the following: (1) on-site parking will be provided to all commercial and residential tenants of the development; (2) all employees will be provided free, on-site parking and all commercial patrons will be provided with free, on-site validated parking; and (3) a Loading Management Plan and a Parking Management Plan satisfactory to the Director of Community Development and the Director of Public Works and Transportation will be prepared. The Final EIR concluded that the Project's supply of parking is adequate to meet the parking demand generated by the Project. Two loading bays on Palm Drive will be provided. The Final EIR concludes that the proposed loading spaces will be adequate to handle the delivery demands of the Project.

Section 12. As proposed and conditioned, the Project meets the objectives of the proposed Overlay Zone as set forth in Section 11 of this Resolution. For the reasons set forth above, the City Council determines that the findings necessary to approve the Vesting Tentative Tract Map as set forth in Section 6 of this Resolution and the findings necessary to approve the Planned Development Permit can be made, provided that certain conditions of approval, including the mitigation measures and conditions set forth in Resolution No. 07-R-12323, dated April 26, 2007, are imposed and provided that such approvals shall only become valid upon the later effective date of the ordinance adopting the Zone Text Amendment and Zone Change and the ordinance adopting a development agreement.

Section 13. Conditions. Based upon the foregoing findings, the City Council hereby approves, subject to the following conditions, Vesting Tentative Tract Map No. 63078, a Planned Development Permit to allow construction of the Project at the property located at 9200 Wilshire Boulevard, and the occupancy of multi family residential uses and commercial uses at the Project site, provided that commercial uses that front on Wilshire Boulevard shall be pedestrian friendly, as determined by the Director of Community Development:

1. The conditions set forth in this Resolution shall run with the land and shall remain in force for the duration of the life of the Project.

Covenant Recordation

2. This Resolution approving the Vesting Tentative Tract Map and Planned Development to allow construction of a mixed-use development at the property located at 9200 Wilshire Boulevard (collectively the "Approvals"), shall not become effective until the owner of the Project site records a covenant, satisfactory in form and content to the City Attorney, accepting the conditions of approval set forth in this Resolution. The covenant shall include a copy of this Resolution as an exhibit.

The Applicant shall deliver a conformed copy of the executed covenant to the Community Development Department within 60 days of the City Council decision. If the Applicant fails to deliver the executed covenant within the required 60 days, this Resolution approving a Development Plan Review shall be null and void and of no further effect. Notwithstanding the foregoing, the Director of Community Development may, upon a request by the applicant, grant a waiver from the 60-day time limit if, at the time of the request, the Director determines that there have been no substantial changes to any federal, state or local law that will affect the City's ability to approve the discretionary approvals.

3. Approval of this Project is subject to all other discretionary approvals required by the City for the Project.

Planning Project Conditions

4. The Project shall be built in substantial compliance with the plans submitted for the September 4, 2007 City Council meeting, on file with the City Clerk's office and the Department of Community Development/Planning, except as modified by these conditions of approval, including Exhibit A, "Standard Conditions List," and Exhibit B, "Mitigation Monitoring Program," which are incorporated herein by reference, and subject to additional conditions as may be imposed by the Architectural Commission. In no case shall the Project include more than 54 multi-family residential units or less than 14,000 square feet of commercial space. In addition, the ground floor space fronting on Wilshire Boulevard shall be occupied by commercial uses, which, in the opinion of the Director of Community Development, are pedestrian-friendly uses. Any modifications to the plans shall be approved by the Department of Community Development/Planning prior to any work being done on the Project pursuant to those modifications. Review of modifications or corrections of may trigger the need to pay additional processing fees.

5. Parking spaces for the residential units shall be permanently assigned to each unit and shall be labeled as such. Parking spaces for residential units shall be used solely for the parking of the personal vehicles of residents and their guests. Parking spaces for residential units may not be leased, subleased, sold, transferred, or otherwise separated from the unit for which the parking spaces are required. Those parking spaces required to comply with the City's Municipal Code shall not be dedicated to or used to provide parking for any off-site use. Any

parking spaces not required to comply with the City's Municipal Code may be made available to serve off-site uses upon approval by the Department of Community Development/Planning of such use of the parking space. Each parking stall designated to meet the numeric requirements of the Americans with Disabilities Act ("ADA") shall meet all ADA requirements for an accessible parking space.

6. Prior to issuance of a building permit, the applicant shall submit a signage plan for review and approval by the Department of Community Development/Planning, which plan shall include, but not be limited to, provision of appropriate signage and precautionary devices inside the parking garage. All signage shall conform to the signage plan.

7. There shall be a sign visible to vehicles exiting the garage at North Palm Drive prohibiting right turns into the residential neighborhood. Similarly there shall be a sign visible to vehicles exiting the garage at North Maple Drive prohibiting left turns into the residential neighborhood.

8. Prior to issuance of occupancy permits and subject to the review and approval of the Directors of Community Development and Public Works and Transportation, the Applicant shall provide a Loading Management Plan to minimize loading-related impacts from the Project on adjacent land uses. The Loading Management Plan shall identify permissible hours for loading and shall designate a delivery monitor to monitor the loading area and deliveries in order to control the circulation activities and to prevent overcrowding in the loading area. The City hereby retains the authority to impose additional conditions on the Project to address loading, delivery and parking issues, including without limitation the authority to require valet parking for patrons of the commercial uses. The Applicant shall comply with the approved Loading Management Plan and any additional conditions imposed after adoption of this Resolution and

after adoption of the Loading Management Plan, in order to address parking, loading and delivery issues.

9. The traffic generated by the Project shall be periodically monitored, at the expense of the Applicant or the successor to the Applicant who owns the commercial portions of the Property, to ensure that the actual levels of traffic do not significantly exceed the levels of traffic anticipated by the Environmental Impact Report prepared for the Project (“EIR”). In the event that such monitoring indicates that traffic generated by the Project significantly exceeds the traffic generation anticipated in the EIR, the Planning Commission or the City Council, after a public hearing, may impose additional conditions on the Project, or specifically on the owner of the commercial portion of the Project, to mitigate the impacts of the increased traffic or to reduce traffic generation to the levels anticipated in the EIR. The Applicant and any successor to the Applicant shall abide by such conditions. The first monitoring activity shall be undertaken approximately one year after the Project construction is complete and the building is fully operational.

10. All common areas and facilities shall be clearly depicted, described, or both, in the final plans reviewed by the Department of Community Development/Planning, prior to issuance of a building permit.

11. The Applicant shall cause the outdoor areas on the Project rooftop to be posted to clearly prohibit any rooftop structures, including without limitation, walls, fences and hedges, to exceed the 60’ maximum building height for the Project, except those rooftop structures expressly permitted in the M-PD-4 overlay zone to exceed the 60’ height limitation.

12. The Applicant shall cause the outdoor areas on the roof to be clearly posted to prohibit rooftop activities except between the hours of 7:00 a.m. and 10:00 p.m., Monday through Friday and between the hours of 8:00 a.m. and 10:00 p.m., Saturday and Sunday.

13. All electrical transformers and other such mechanical equipment shall be clearly depicted, described, or both, in the final plans reviewed by the Department of Community Development/Planning, prior to issuance of a building permit. Screening and/or relocation may be required if the proposed locations have the potential to adversely affect the appearance of the building from the public right-of-way.

14. The Project shall conform to all requirements of the overlay zone that governs the Project site and authorizes construction of the Project.

15. No banquets or similar private receptions or events shall be held in the Project's Community Room or Conference Room or on the roof. Project common rooms and areas should be used for their intended purpose as resident recreational areas and community meeting rooms.

16. Rooftop areas shall be used by Project residents and their guests only. No commercial occupant of the Property shall use the rooftop facilities.

17. The Codes, Covenants and Restrictions (CC&Rs) for this project shall reflect the fact that, as this Project is located on Wilshire Boulevard, the maintenance of public improvements (street payment, sidewalk, curb, gutter, water and sewer lines) is usually performed at night.

18. The Applicant shall reconstruct the curb return at the southwestern corner of Wilshire/Palm and southeastern corner of Wilshire/Maple to a radius of 25 feet. The Applicant shall note the following when the curb radius is enlarged at these intersections: (i) the corner of the property shall be set back enough to accommodate the ADA requirements for the design of

handicapped ramps and adequate sidewalk behind the ramp per the latest ADA standards; (ii) the vertical slope of the intersection shall be maintained with the enlarged radius. This means that the section of the intersection would need to be rebuilt to ensure the natural slope and the standard curb height is provided; and (iii) pull boxes, light poles, and other objects that were adjacent to the previous curb shall be relocated and placed properly adjacent to the new curb.

19. In accordance with the requirements set forth in City Council Resolution 71-R-4269, the applicant shall file a formal written request with the Civil Engineering Department for approval of any type of temporary construction encroachment (steel tieback rods, etc.) within the public right-of-way. Shoring plans and elevations prepared by a registered civil engineer must be submitted for review by the Civil Engineering Department. An indemnity bond must be submitted and approved by the City Attorney prior to excavation. A copy of a document titled *SUMMARY OF REQUIREMENTS FOR THE INSTALLATION/REMOVAL OF TIE-BACKS AND SUPPORTING STRUCTURES* which summarizes these requirements is attached and should be forwarded to the applicant.

20. The Applicant shall dedicate a 2.5-foot strip of land along the alley as depicted in the plan. The applicant shall remove and reconstruct the roadway pavement including a concrete gutter at the center of the alley in the above-mentioned area in accordance with the specifications of the City Engineer. This condition includes the relocation of any existing improvements and culture such as meter boxes, pull boxes, etc.

21. The subterranean parking is extended into the new alley dedication. An eight-foot vertical separation is required from the top of the parking structure to the finishing elevation of the alley pavement. Also an Encroachment Permit is required for the subterranean parking.

Architectural Commission Review

22. Prior to the issuance of building permits, the design, materials and finishes of the building and proposed landscaping shall be subject to the review and approval of the Architectural Commission. The Applicant shall submit final landscape, lighting and irrigation plans that include mature-sized plantings along the northern property line, in order to soften the view of the building from the neighboring property, to the Department of Community Development/Planning for review and approval before the issuance of any building permit. Mature plantings shall include a mix of 36 inch box trees and 15 gallon shrubs, and the landscape plan shall be consistent with the preliminary plans approved by this resolution and shall be prepared by a licensed landscape architect.

23. Final building plans shall be consistent with the preliminary plans approved by this Resolution and shall be prepared by a licensed professional.

Landscaping and Irrigation

24. Prior to final building inspection, the Applicant shall install all proposed irrigation and landscaping, including irrigation controllers, staking, and mulching, to the satisfaction of the Director of Community Development.

25. Prior to occupancy, the Applicant shall submit a letter from the Project landscape architect certifying that all landscape material and irrigation have been installed and are functioning according to the approved landscape plans.

26. The building owner and successors in interest shall be responsible for the maintenance of the site drainage system, sidewalks, parkways, street trees and other landscaping, including irrigation, within and along the adjacent public right-of-way.

Other Departments' Requirements

27. The Applicant shall comply with all applicable conditions and permits required from the Public Works and Transportation Department and Community Services-Recreation and Parks Department attached as Exhibit A. The Applicant shall secure all necessary permits from the Engineering Division of Public Works prior to commencement of any demolition or Project related work.

28. An offsite improvement plan prepared by a registered civil engineer must be submitted to the Civil Engineering Division. This plan must show all existing street furniture within the public right-of-way (ROW) fronting the proposed improvement site. All new construction and relocation of any existing street furniture must be clearly shown.

29. The Project shall comply with all applicable conditions from the Fire Department as may be identified through the plan check process.

Construction Management

30. The Applicant shall comply with a Construction Management Plan that has been submitted to and approved by the Department of Community Development prior to issuance of a building permit. The Construction Management Plan shall include, at a minimum, the following:

a. Written information about the construction parking arrangements and hauling activities at different stages of construction to be reviewed and approved by the Engineering Division of Public Works and the Building and Safety Division of Community Development. On-street parking shall be prohibited at all times during construction. The plan shall provide for construction parking at a nearby site where workers can be transported to and from the Project site.

b. Information regarding the anticipated number of workers, the location of parking with respect to schedule during the construction period, the arrangement of deliveries, hauling activities, the length of time of operation, designation of construction staging area and other pertinent information regarding construction related traffic.

c. The proposed demolition/construction staging for the Project to determine the amount, appropriate routes and time of day of heavy hauling truck traffic necessary for demolition, deliveries etc., to the subject site.

31. A cash deposit of \$10,000.00 shall be deposited with the City to ensure compliance with the conditions of this Resolution regarding construction activities. Such deposit shall be returned to the Applicant upon completion of all construction activities and in the event that no more than two violations of such conditions or the Beverly Hills Municipal Code occur. In the event that three or more such violations occur, the City may: (a) retain the deposit to cover costs of enforcement; (b) notify the Applicant that the Applicant may request a hearing before the City within ten days of the notice; and (c) issue a stop work notice until such time that an additional deposit of \$10,000.00 is deposited with the City to cover the cost associated with subsequent violations. Work shall not resume for a minimum of two days after the day that the additional deposit is received by the City. If the Applicant timely request a hearing, said deposit will not be forfeited until after such time that the Applicant has been provided an opportunity to appear and offer evidence to the City, and the City determines that substantial evidence supports forfeiture. Any subsequent violation will trigger forfeiture of the additional deposit, the issuance of a stop work notice, and the deposit of an addition \$10,000.00, pursuant to the procedure set forth herein above. All amounts deposited with the City shall be deposited in an interest bearing account. The Applicant shall be reimbursed all interest accruing on monies deposited, if any.

Requirements of this condition are in addition to any other remedy that the City may have at law or equity and shall not be the sole remedy of the City in the event of a violation of the conditions of this Resolution or the Beverly Hills Municipal Code.

32. Construction vehicular movement in and out of the construction site shall be controlled by flagmen located on North Palm Drive, North Maple Drive and/or Wilshire Boulevard to the extent necessary to ensure traffic safety as determined by the Engineering Division of the City's Public Works Department.

33. During construction, the Applicant shall install a minimum twelve-foot (12') construction fence to reduce noise and dust impacts on neighboring properties.

34. The Applicant shall maintain the site in an orderly condition prior to commencement of and during construction, including but not limited to, maintenance of the orderly appearance of existing structures and landscaping on the site, dust suppression for areas cleared by demolition, maintenance of safety barriers and adjacent public sidewalks, and provision of a contact person directly accessible to the public by telephone in the event that the public has any concerns regarding the maintenance of the site. The name and telephone number of the contact person shall be transmitted to the Director of Community Development and the Building Official. In addition, the Applicant shall post the name and telephone number of the contact person on the site in a location readily visible to the general public as approved by the Director of Community Development. Said signs shall also include the name and number of a City contact from the Community Development Department. The Applicant representative's telephone number provided shall be manned during construction hours.

35. Within three working days after approval of this Resolution, the Applicant shall remit to the City a cashier's check, payable to the County Clerk, in the amount of \$50.00 for a

documentary handling fee in connection with the filing of the Notice of Determination, along with the appropriate Department of Fish and Game filing fee.

Property Maintenance

36. The property owners association shall be responsible for the operation and maintenance of the private sewer connection to the public sewer in the public right-of-way, the site drainage system, the maintenance of the common areas and facilities, the exterior of the building, the abutting street trees, parkways and any costs or corrections due to building or property maintenance code enforcement actions. The covenants, codes and restrictions shall specifically reflect this obligation.

Street Widening

36. Palm Drive shall be widened by three feet adjacent to the Project at the expense of the applicant to accommodate the Project loading docks on North Palm Drive.

Street Paving

37. The applicant shall pave the southerly half of Wilshire Boulevard, the full width of N. Palm Drive adjacent to then Project site, the full width of N. Maple Drive adjacent to the Project site, and the alley contiguous the Project site.

Exterior Lighting

38. Exterior lighting should be as limited as feasible to minimize negative light and glare impacts on the neighboring residential properties. All lighting shall be shielded to prevent “spillover” and shall be directed away from surrounding properties.

Loading/Deliveries/Parking

39. Deliveries shall not be made from the adjacent rear alley and delivery trucks shall not idle and/or park in the alley or on any residential street.

40. On-site parking shall be provided to all commercial and residential tenants of the development and all employees shall be provided free, on-site parking. All commercial patrons shall be provided with free, on-site validated parking.

41. Prior to the issuance of a building permit, a Parking Management Plan satisfactory to the Director of Community Development and the Director of Public Works and Transportation will be prepared. The parking shall be operated in conformance with such plan.

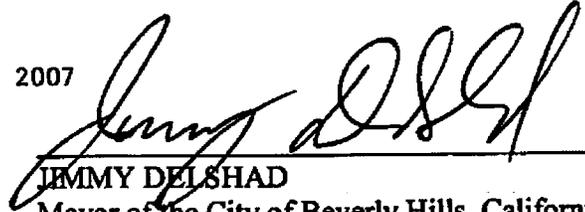

42. The life of the Vesting Tentative Tract Map shall be extended to a date that is five years from the effective date of the Development Agreement for the Project.

Green Building Design

43. The Project shall be constructed to meet the "Certified" rating pursuant to the City's green building rating system, which means achieving 26 points out of a possible 69 points as set forth in the City's Green Building/Sustainability Checklist ("Checklist") attached hereto and incorporated herein as Exhibit C. A green building plan shall be submitted as part of the application for a building permit. The green building plan shall indicate which points in the Checklist that the project will utilize, and indicate where compliance with each selected point is shown on the plans. The applicant shall be required to implement all points shown in the final green building plan. The Building Official or his designee shall verify compliance with each selected point prior to issuance of a final certificate of occupancy. The Building Official may conduct other inspections as needed to ensure compliance with this condition. The Applicant may request amendment of the green building plan and such amendment may be approved by the Building Official as long as the cumulative points total 26. If the City Council adopts a green building ordinance prior to the submittal of an application for a building permit, the Applicant shall then comply with the procedures set forth in that ordinance.

Section 14. The City Clerk shall certify to the adoption of this Resolution, and shall cause this Resolution and his certification to be entered in the Book of Resolutions of the City Council.

CITY OF BEVERLY HILLS STANDARD CONDITIONS LIST FOR THE PLANNING COMMISSION

ENGINEERING, UTILITIES AND RECREATION & PARKS:

1. The applicant shall remove and replace all defective sidewalks surrounding the existing and proposed buildings to the satisfaction of the Engineering Division of the City's Public Works Department.
2. The applicant shall remove and replace all defective curb and gutter surrounding the existing and proposed buildings to the satisfaction of the Engineering Division of the City's Public Works Department.
3. The applicant shall remove all unused landings and driveway approaches. These parkway areas, if any, shall be landscaped and maintained by the project owner or any successor in interest. The landscape material shall not exceed six to eight inches in height and shall not be planted against the street trees. Care shall be taken to not damage or remove existing tree roots within the parkway area. Further the applicant shall remove and replace all defective alley and driveway approaches surrounding the existing and proposed buildings, to the satisfaction of the Engineering Division of the City's Public Works Department.
4. The applicant shall protect all existing street trees adjacent to the subject site during construction of the proposed project. Every effort shall be made to retain mature street trees. No street trees, including those street trees designated on the conceptual landscape or site plans, shall be removed or relocated unless written approval from the Recreation and Parks Department and the City Engineer first is obtained. (See attached Trees and Construction document.)

Removal and/or replacement of any street trees shall not commence until the applicant has provided the City with an improvement security to ensure the establishment of any relocated or replaced street trees. The security amount will be determined by the Director of Recreation and Parks, and shall be in a form approved by the City Engineer and the City Attorney.
5. The applicant shall provide that all roof and/or surface drains discharge to the street. All curb drains installed shall be angled at 45 degrees to the curb face in the direction of the normal street drainage flow. The applicant shall provide that all groundwater discharges to a storm drain. All ground water discharges must have a permit (NPDES) from the Regional Water Quality Control Board. Connection to a storm drain shall be accomplished in the manner approved by the City Engineer and the Los Angeles County Department of Public Works. No concentrated discharges onto the alley surfaces shall be permitted.
6. The applicant shall provide for all utility facilities, including electrical transformers required for service to the proposed structure(s), to be installed on the subject site. No such installations will be allowed in any City right-of-way.

7. The applicant shall underground, if necessary, the utilities in adjacent streets and alleys per requirements of the Utility Company and the City.
8. The applicant shall make connection to the City's sanitary sewer system through the existing connections available to the subject site unless otherwise approved by the City Engineer and shall pay the applicable sewer connection fee.
9. The applicant shall make connection to the City's water system through the existing water service connection unless otherwise approved by the City Engineer. The size, type and location of the water service meter installation will also require approval from the City Engineer.
10. The applicant shall provide to the Engineering Office the proposed demolition/construction staging for this project to determine the amount, appropriate routes and time of day of heavy hauling truck traffic necessary for demolition, deliveries, etc., to the subject site.
11. The applicant shall obtain the appropriate permits from the Civil Engineering Department for the placement of construction canopies, fences, etc., and construction of any improvements in the public right-of-way, and for use of the public right-of-way for staging and/or hauling certain equipment and materials related to the project.
12. The applicant shall remove and reconstruct any existing improvements in the public right-of-way damaged during construction operations performed under any permits issued by the City.
13. During construction all items in the Erosion, Sediment, Chemical and Waste Control section of the general construction notes shall be followed.
14. Condensate from HVAC and refrigeration equipment shall drain to the sanitary sewer, not curb drains.
15. Organic residuals from daily operations and water used to wash trash rooms cannot be discharged to the alley. Examples include but are not limited to grocery stores, mini markets and food services.
16. All ground water discharges must have a permit (NPDES) from the Regional Water Quality Control Board. Examples of ground water discharges are; rising ground water and garage sumps.
17. Storm water runoff from automobiles going into a parking garage shall be discharged through a clarifier before discharging into the storm drain system. In-lieu of discharging runoff through a clarifier, parking lots can be cleaned every two weeks with emphasis on removing grease and oil residuals which drip from vehicles. If parking area cleaning is implemented, records of cleaning activities shall be retained for verification by a City inspector.

EXHIBIT B

ADOPTED MITIGATION MONITORING AND REPORTING PROGRAM

Completed

**9200 Wilshire Boulevard Mixed Use Project
Mitigation Monitoring Program**

- 32 -

Mitigation Measures	Responsible Agency	Monitoring Procedure and Reporting Mechanism	Implementation Schedule
Aesthetics			
<p>Measure 3B.1: During construction, a security fence, the height of which shall be determined by the City of Beverly Hills, shall be maintained around the perimeter of the site. The construction site shall be kept clear of trash, weeds, etc.</p>	<p>Department of Community Development</p>	<p>The Construction Management Plan cited in Measure 3C.1 shall include and address Measure 3B.1.</p>	<p>This measure shall be met prior to the issuance of any grading or construction permits. This measure shall be in effect until the issuance of the certificate of occupancy.</p>
<p>Measure 3B.2: All exterior lighting shall be limited to ground level and the third floor private courtyard to accent project landscaping areas. Minimal security lighting shall be located on the south façade and in the courtyard of the building limited to project entrances, landscaping and loading areas. All lighting shall be shielded to prevent "spillover."</p>	<p>Department of Community Development</p>	<p>Measure 3B.2 shall be addressed in the plans submitted for plan check in the Department of Community Development. No building permits shall be issued in violation of this measure.</p>	<p>This measure shall remain in effect throughout the life of the project.</p>
Traffic, Circulation, and Parking			
<p>Measure 3C.1: The project applicant shall develop and submit for approval by the City a Construction Staging and Traffic Management Plan that shall include the following:</p> <p>Haul Truck Routes, Queue Areas, and Deliveries. The designated truck route for the site shall be Wilshire Boulevard for trucks coming from the east or the west. The primary entry point to the site shall be off of Palm Drive at the southeast corner of the site. Trucks will access this entry point on Palm Drive from the north to and from Wilshire Boulevard. No construction traffic shall be permitted to utilize Palm Drive or Maple Drive. Flag men shall be provided to control trucks access to the site to minimize traffic delays and enhance safety.</p> <p>Construction Transportation/Circulation. General site access and egress shall be located on Palm and Maple Drive. There shall be no site access/egress points on Wilshire Boulevard. Flag men will be provided as necessary to minimize delays.</p>	<p>Department of Community Development</p> <p>Public Works Department, Engineering Division</p>	<p>A Construction Management Plan shall be filed with the Department of Community Development. Such Construction Management Plan shall address for construction staging and construction traffic and be reviewed by the Department of Community Development and City's Engineering Division prior to issuance of grading permits. All mitigation measures will be enforced by the City's Plan Check Engineers, Inspectors, and Code Enforcement Officers.</p>	<p>This measure shall be met prior to the issuance of any grading or construction permits. This measure shall be in effect until the issuance of the certificate of occupancy.</p>

**9200 Wilshire Boulevard Mixed Use Project
Mitigation Monitoring Program**

Mitigation Measures	Responsible Agency	Monitoring Procedure and Reporting Mechanism	Implementation Schedule
Traffic, Circulation, and Parking (continued)			
<p>Pedestrian Safety. The contractor shall install a construction fence around the site perimeter, complying with City requirements, before excavation begins. The contractor shall be required to maintain a minimum sidewalk width of five feet on Wilshire Boulevard during the construction period. The contractor shall also erect protective sidewalk canopies on Palm Drive, Maple Drive and Wilshire Boulevard to enhance pedestrian safety along the construction site. A flag man shall be provided whenever trucks entering or leaving the project site may impede the flow of pedestrian or automotive traffic.</p> <p>Parking. Worker parking shall be provided in an off-site parking lot, nearby, and workers will be shuttled to and from the site. The shuttle shall load and un-load near the main gate, which would be on Palm Drive near the southeast corner of the site. The shuttle shall run during the morning starting time and afternoon quitting time. Occasionally, additional trips may be operated between the construction site and parking lot. These trips are expected to have negligible effect to the surrounding street systems within the study area.</p>	See previous page.	See previous page.	
<p><input type="checkbox"/> Measure 3C.2: Trucks longer than 30 feet shall be prohibited from servicing the project site for deliveries.</p>	Department of Community Development	The Loading Management Plan shall be filed with the Department of Community Development for review and approval. The approved Plan shall be maintained on file in the Department. Any violations will be addressed by the City's Community Preservation Program.	The Loading Management plan is effective immediately upon issuance of certificate of occupancy for the project. The plan shall remain effective throughout the life of the project
<p><input type="checkbox"/> Measure 3C.3: A loading dock management plan shall be developed to ensure that loading dock deliveries to the project site are not made from the curb.</p>			
Geology and Soils			
<p><input type="checkbox"/> Measure 3F.1: Design and construction of proposed structures should be in conformance with current building codes and engineering practices.</p>	See following page.	See following page.	See following page.

Completed

**9200 Wilshire Boulevard Mixed Use Project
Mitigation Monitoring Program**

Mitigation Measures	Responsible Agency	Monitoring Procedure and Reporting Mechanism	Implementation Schedule
Geology and Soils (continued)			
<input type="checkbox"/> Measure 3F.2: Where the planned depth of excavation does not extend below the existing fill soils, the existing fill soils shall be removed and recompactd in accordance with the requirements of the appropriate governmental agencies.	Department of Community Development	The construction plans filed with the Building & Safety division shall comply with all mitigation measures. City Plan Check Engineers will review such plans to ensure compliance with all mitigation measures. City inspectors will ensure that all temporary and permanent structures are in compliance with all measures. The Construction Management Plan cited with Measure 3C.1 will address Measures 3F.1 through 3F.13.	All measures shall be in effect until the issuance of the Certificate of Occupancy. Measure 3F.1, which addresses the design of the permanent structures, shall remain in effect throughout the life of the project.
<input type="checkbox"/> Measure 3F.3: A temporary shoring system with lagging shall be required during project excavation.			
<input type="checkbox"/> Measure 3F.4: Temporary and permanent retaining walls shall be designed for the recommended lateral earth pressures and shall be provided with a good drainage system.			
<input type="checkbox"/> Measure 3F.5: A registered geotechnical engineer or his representative shall be present on-site to observe grading operations and foundation excavations.			
<input type="checkbox"/> Measure 3F.6: On-site grading shall be performed in such a manner that alteration of stormwater runoff or erosion of graded areas will not occur. All areas of construction shall be fine-graded to direct water away from foundation and basement areas and direct water to the nearest available storm drain or to the street. Runoff at the project site shall not be allowed to flow in an uncontrolled manner, especially over any permanent or temporary slopes.			
<input type="checkbox"/> Measure 3F.7: Where there is sufficient space for sloped excavations, temporary cut slopes may be made at 1.5:1 or 1:1 (horizontal to vertical) gradient with the 1.5:1 slope made adjacent to existing structures. However, the stability of the graded slopes shall be addressed when grading plans are completed for the proposed development. Excavation up to four feet in height may be cut vertically.

- 10-3-1990.15 Compatibility standards.**
- 10-3-1990.16 Application of transitional operational standards.**

10-3-1990. M-PD-4 Zone created.

There is hereby created an overlay zone designated as the Mixed-Use Planned Development Overlay Zone (M-PD-4).

10-3-1990.01 Application of M-PD-4 Zone.

The M-PD-4 Zone shall apply to the following areas, as shown on the Mixed-Use Planned Development Map, a copy of which is on file in the Department of Planning and Community Development and attached as Exhibit A to this Ordinance:

All those parcels having frontage on the south side of Wilshire Boulevard, east of Maple Drive and west of Palm Drive, and north of the alley running parallel to and south of Wilshire Boulevard.

10-3-1990.02. Objectives of the M-PD-4 Zone.

The objectives of the M-PD-4 Zone shall be as follows:

(A) To ensure that mixed-use development in the M-PD-4 Zone will not adversely affect existing and anticipated development in the vicinity and will promote harmonious development of the area.

(B) To provide for mixed-use development that is compatible with the scale and massing of the surrounding neighborhood, through appropriate height, modulation, upper-story setbacks, other similar measures, or any combination thereof.

(C) To provide pedestrian-friendly amenities along the street level, and setbacks that are generally consistent with other development along Wilshire Boulevard and along Palm Drive

between Wilshire Boulevard and Charleville Boulevard, and along Maple Drive between Wilshire Boulevard and Charleville Boulevard.

(D) To ensure that mixed-use development in the M-PD-4 Zone will not create any significant, adverse traffic safety hazards, pedestrian-vehicle conflicts, or pedestrian safety hazards and will minimize impediments to vehicular circulation and pedestrian safety.

(E) To foster uniform planning and development of all parcels in the M-PD-4 Zone to ensure unified development in the overlay zone.

(F) To protect the public health, safety, and welfare.

10-3-1990.03. Definitions.

Unless the context plainly requires otherwise, the following definitions shall govern this Article:

(A) 'Planned development' shall mean a development that is approved pursuant to the procedures of Article 18.4 of this Chapter.

(B) 'Entertainment use' shall mean any entertainment, other than live musical accompaniment to dining as defined in Section 10-3-2703 of this Chapter, and shall include, but not be limited to, movie theaters, playhouses, video arcades, cabarets, nightclubs, adult entertainment businesses, and similar uses.

10-3-1990.04. Uses permitted.

No lot, premises, building or portion thereof in the M-PD-4 Zone shall be used for any purpose except those approved by the Planning Commission as part of a planned development pursuant to Article 18.4 of this Chapter.

10-3-1990.05. Restrictions.

The following restrictions shall apply to mixed-use developments in the M-PD-4

Zone:

(A) No establishments whose primary purpose or business is to sell alcoholic beverages for on-site consumption, otherwise referred to as bars, may be included in a mixed-use development.

(B) No medical uses may be included in a mixed-use development.

(C) No entertainment uses including, but not limited to, cabarets, nightclubs, and adult entertainment businesses, may be included in a mixed-use development.

(D) No use shall be permitted in a mixed-use development if that use would cause the parking generation for all uses in the mixed-use development to exceed the available parking on site as determined in accordance with this Chapter.

(E) Residential uses included as part of a mixed-use development shall be permitted in all portions of the development regardless of the underlying zone, except that residential uses shall not be permitted within the first forty feet (40') of the first floor facing arterial roadways such as Wilshire Boulevard, measured from the building facade.

(F) Commercial uses included as part of a mixed-use development shall only be permitted in those portions of the development in which the underlying zone is a commercial zone.

(G) The Planning Commission shall have authority through conditions imposed on a Planned Development to prohibit other uses as it deems appropriate, on a use by use basis.

10-3-1990.06. Applicability of underlying zone regulations.

Except as otherwise specifically provided in this Article for mixed-use developments, development in an M-PD-4 Zone shall comply with the zoning regulations applicable to the underlying zone.

Nothing in this Article shall require a development to comply with the provisions of the M-PD-4 overlay zone if the development fully conforms to the requirements of the underlying zone.

10-3-1990.07. Height limitations.

No mixed-use development shall be constructed, altered, or enlarged in the M-PD-4 zone except in accordance with the following height restrictions:

(A) General Limitations. No building, structure, improvement, or any part thereof, erected, constructed or maintained as part of a mixed-use development in the M-PD-4 Zone shall exceed sixty feet (60') in height nor shall it exceed six (6) stories, measured as set forth in this Chapter, exclusive of unoccupied architectural features and rooftop uses as provided below.

(B) Unoccupied Architectural Features. Notwithstanding any other provision of this Code, unoccupied architectural features, such as skylights and clerestories, structures housing mechanical equipment, elevator penthouses, antennas and similar unoccupied space may exceed the sixty (60) foot height limit established by subsection (A) of this Section by not more than ten feet (10') in height if such unoccupied architectural features are approved by the Planning Commission as part of a planned development pursuant to Article 18.4 of this Chapter and do not exceed, in the aggregate, thirty-three percent (33%) of the total roof area upon which they are located and no such

feature exceeds or intersects a line projecting from the perimeter of the roof upward at an angle of forty five (45) degrees from the horizontal.

(C) Rooftop Uses. Notwithstanding any other provision of this Code, rooftop restrooms, fitness centers, and pools and pool related uses may exceed the height limits established by this Section by not more than ten feet (10') in height, provided that any structure housing a restroom facility and/or a fitness center is set back from the front (Wilshire Boulevard) and side (Palm Drive and Maple Drive) perimeters of the roof by a minimum of 10 feet.

10-3-1990.08. Density.

(A) Maximum Floor Area Ratio. Notwithstanding any other provision of this Code, a mixed-use development in the M-PD-4 Zone, including all components, shall have a maximum aggregate floor area ratio determined by the Planning Commission as part of a planned development pursuant to Article 18.4 of this Chapter. In no event shall the floor area ratio of a mixed-use development in the M-PD-4 Zone exceed a maximum of 4.0:1. For the purposes of this Article, floor area shall be calculated using the lot of the subject site prior to any required dedications or exactions.

(B) Minimum Commercial Floor Area. The minimum permitted floor area devoted to commercial uses in the M-PD-4 Zone shall be fourteen thousand (14,000) square feet, except as otherwise approved by the Planning Commission as part of a planned development pursuant to Article 18.4 of this Chapter.

(C) Maximum Number of Residential Units. The maximum number of residential units that may be included in a mixed-use development in the M-PD-4 Zone shall be determined by the Planning Commission as part of a planned development pursuant to Article 18.4 of this Chapter.

10-3-1990.09. Parking, Access & Circulation.

Notwithstanding any other provision of this Code, parking for mixed-use developments located in the M-PD-4 Zone shall be provided in accordance with this Section.

(A) A mixed-use development shall provide parking for the commercial and residential components that can be physically separated. Notwithstanding the foregoing, the Planning Commission may modify this requirement, as part of a planned development, if it finds that such access would advance the objectives of the M-PD-4 Zone as set forth in Section 10-3-1990.02 of this Article.

(B) Except as provided otherwise in this Article, parking for all uses in a mixed use development shall be provided in accordance with the applicable provisions of this Chapter. Notwithstanding the foregoing, the Planning Commission may modify the parking requirements for a mixed use development, as part of a planned development, if it finds that such modifications would advance the objectives of the M-PD-4 Zone as set forth in Section 10-3-1990.02 of this Article.

(C) Notwithstanding any other provision in this Chapter, up to ten percent (10%) of the parking spaces provided in a mixed use development in the M-PD-4 Zone may be compact spaces and up to twenty percent (20%) of the total number of multiple family dwelling units in a project may satisfy the parking requirements of this Chapter through the use of tandem parking spaces. The dimensions of each tandem space shall comply with the parking standards adopted by the City Council and on file in the Community Development Department-Building and Safety.

(D) If parking is provided above ground, all parking, except for driveways and access to loading areas, shall be located behind building space that is dedicated to a permitted use other than parking, which building space shall be a minimum of forty (40) feet deep as measured

from the building facades facing public streets, to prevent direct visibility from adjacent streets unless otherwise approved by the Planning Commission as part of a planned development.

10-3-1990.10. Setbacks.

Mixed-use developments in the M-PD-4 Zone shall maintain the following minimum setbacks:

(A) Wilshire Boulevard (front) setback. No minimum setback shall be required from the property line along the Wilshire Boulevard frontage of a mixed-use development in the M-PD-4 Zone.

(B) Maple Drive (side) setback. A minimum setback of three feet (3') shall be required from the property line along the Maple Drive frontage of a mixed-use development in the M-PD-4 Zone.

(C) Palm Drive (side) setback. A minimum setback of nine feet (9') shall be required from the property line along the Palm Drive frontage of a mixed-use development in the M-PD-4 Zone.

(D) Alley(rear) setback. A minimum setback of five feet, eight inches (5'8") shall be required from the property line along the rear alley of a mixed-use development in the M-PD-4 Zone.

(E) Parking uses setback. The minimum setback for any above ground parking component of a mixed-use development in the M-PD-4 Zone shall be as approved as part of a planned development.

Notwithstanding the foregoing, to provide visual relief and modulation of the main building facades, awnings and architectural features (including but not limited to sills, eyebrows, and cornices) may encroach into the setbacks required by this Section and modulation required by Section 10-3-1990.11 may also encroach into the setbacks if approved by the Planning Commission as part of a planned development pursuant to Article 18.4 of this Chapter.

10-3-1990.11. Modulation.

A mixed-use development in the M-PD-4 Zone shall be modulated as provided in planned development permit.

10-3-1990.12 Loading Facilities.

(A) Except as otherwise provided in this Section, loading facilities for mixed-use developments in the M-PD-4 Zone shall be provided in accordance with Sections 10-3-2740 through 10-3-2744 inclusive of this Chapter, or as otherwise approved as part of a Planned Development.

(B) Notwithstanding the foregoing, mixed-use developments in the M-PD-4 zone shall provide not less than one 35-foot deep truck loading space and one 50-foot deep truck loading space accessible from Palm Drive.

10-3-1990.13. Outdoor living space required.

The residential component of all mixed-use developments in the M-PD-4 zone shall provide outdoor living space in accordance with the requirements of Section 10-3-2803 of this Chapter, or as otherwise approved as part of a planned development.

10-3-1990.14. Rooftop Uses.

Notwithstanding any other provision of this Code and subject to the restrictions set forth in this Section, the Planning Commission may permit, as part of a planned development pursuant to Article 18.4, mixed-use developments in the M-PD-4 Zone to include rooftop pools and spas, fitness centers, and related restroom facilities provided that:

(1) The Planning Commission makes the findings set forth in Section 10-3-2804(b) of this Chapter regarding the rooftop restroom facilities.

(2) The additional height above the maximum height limit otherwise applicable to the mixed-use development will not exceed ten feet (10').

(3) The mixed-use development includes a maximum of two (2) rooftop restroom facilities.

(4) The aggregate floor area of all rooftop restroom facilities permitted pursuant to this Section shall not exceed two hundred (200) square feet or such minimum floor area as may be required by federal or state law, whichever is greater.

(5) Any rooftop fitness centers or restroom facilities permitted pursuant to this Section shall be set back from the face of any exterior wall of the floor immediately below so that a forty-five degree (45) angle to the vertical plane of the nearest outside wall is not intersected.

(6) Notwithstanding the provisions of subsection (5) of this Section, a rooftop structure may intersect a forty-five degree (45) angle to the vertical plane of the nearest outside wall provided that the exterior wall of the rooftop structure is constructed in the same plane as the exterior wall of the floor below and the rooftop structure will not exceed the applicable maximum allowable height otherwise permitted by more than forty-five inches (45").

(7) No food or beverage service, other than vending machines, shall be provided in connection with any rooftop pool use.

(8) Use of the rooftop pool facilities and fitness center shall be restricted to residents and guests of residents of the mixed-use development.

(9) No admittance or use fees shall be charged to use the rooftop pool facilities or fitness center. Nothing in this provision shall prohibit the imposition or collection of home owner association fees on residents of a mixed-use development to off-set the costs of operating and maintaining such rooftop pool facilities.

10-3-1990.15. Compatibility Standards.

The following design standards shall be incorporated into all mixed-use developments in the M-PD-4 Zone:

(A) Noise Attenuation:

- (1) All dwelling units shall be constructed with double-glazed glass windows.
- (2) The exterior walls of all dwelling units, and any interior walls or floor/ceilings that separate dwelling units from commercial uses shall comply with the sound transmission standards set forth in Sections 1208 and 1208A of the Uniform Building Code, as amended by the 1998 California Building Code, or their successors.
- (3) All dwelling units shall be equipped with internal air conditioning, and state of the art air cleaning/filtering devices.

(B) Odors:

Air conditioning systems for the residential component shall be located and designed in a manner sufficient to prevent adverse impacts from odors generated by the commercial component.

10-3-1990.16. Application of transitional operational standards.

Unless otherwise provided in this Article, all uses in a mixed-use development shall comply with the general operational requirements set forth in Section 10-3-1956 of Article 19.5 of this Chapter.”

Section 2. This ordinance has been environmentally reviewed pursuant to the provisions of the California Environmental Quality Act (Public Resources Code Sections 21000 et seq. (“CEQA”)), the State CEQA Guidelines (California Code of Regulations, Title 14, Sections 15000 et seq.), and the City’s Local CEQA Guidelines. An Environmental Impact Report was prepared in connection with the project of which this Ordinance is a part. The City Council has certified the Final Environmental Impact Report (“FEIR”) and made environmental findings in connection with the Ordinance in Resolution No. 07-R-12323. The Resolution includes environmental findings and a Mitigation Monitoring Program. The Resolution is incorporated herein by this reference.

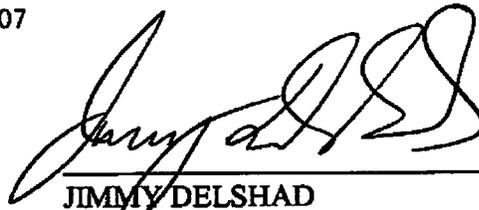

Section 3. The official zoning map of the City is hereby amended to apply the Mixed-Use Planned Development Overlay Zone (M-PD-4) to the property known as 9200 Wilshire Boulevard, Beverly Hills, as described in the legal description attached hereto as Exhibit A, and incorporated herein by reference.

Section 4. If any section, subsection, subdivision, sentence, clause, phrase, or portion of this Ordinance or the application thereof to any person or place, is for any reason held to be invalid or unconstitutional by the final decision of any court of competent jurisdiction, the remainder of this Ordinance shall be deemed repealed and the underlying zone shall control as to each property to which the Mixed-Use Planned Development Overlay Zone (M-PD-4) has been applied.

Section 5. The City Clerk shall cause this Ordinance to be published at least once in a newspaper of general circulation published and circulated in the City within fifteen (15) days after its passage, in accordance with Section 36933 of the Government Code; shall certify to the adoption of this Ordinance and shall cause this ordinance and her certification, together with proof of publication, to be entered in the Book of Ordinances of the Council of this City.

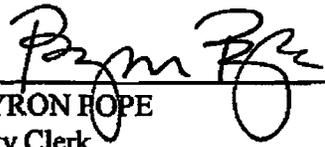

Section 6. This Ordinance shall go into effect and be in full force and effect at upon the later of: (1) 12:01 a.m. on the thirty-first (31st) day after its passage, (2) the date of execution of a development agreement governing property within the M-PD-4 zone; or (3) the effective date of an ordinance approving a development agreement governing the property within the M-PD-4 zone.

Adopted: September 17, 2007
Effective: October 18, 2007
