Supporters

Beverly Hills needs a Dog Park, and the City has finally found a location that will work.

Every city surrounding Beverly Hills has dog parks; Beverly Hills is still without a single one.

For ten years, the City has searched for the appropriate location. Last year, after much study and deliberation, the corner of Alden Drive and N. Foothill Road was selected.

After several public meetings, the Recreation and Parks Commission and Community Services are ready to move forward with their recommendations to the City Council to finally create a much-desired dog park for the City of Beverly Hills.

The new dog park will be on City-owned property in an industrial area 500 feet from residential uses with ample parking. It is across the street from two historic veterinary hospitals and the Amanda Foundation. It is the perfect location.

But one special interest group threatens the dog park and we need your support.

Please sign this petition and forward this email to as many fair-minded and dog loving people as possible.

Beverly Hills deserves a dog park!

Thank you for your support.

Every city needs a dog park, especially since many dogs live in apartments and need to stretch their paws. My three legged best friend came from the Amanda Foundation and I used to volunteer there, the area is great for walking dogs and having dogs be social together. Give the city what it wants!

You're insane to take away the dog park that both people and dogs NEED. They should take away those that are opposed to the dog park since they are small minded self-serving morons. Yes. I'll be happy to tell that directly them. Dogs, parks and the people they bring together provide immense value which is hard for imbeciles to grasp. Please don't fall into their small minded traps and allow the natural healthy growth that dog parks and similar venues provide. A bank, mall, mansion, pump station, storage.. do not provide these things.

Beverly Hills is a great city to live in. Reviewing the proposal, It will be well managed, exclusive to Beverly Hills residence, clean, respectful to nearby homes and places of worship. The park will also be monitored during open hours and have restrictions regarding the amount of dogs allowed in at one time. The City Council has put a lot off thought an effort into this project.!

Our city should create a dog park as other nearby cities have already done. It should be constructed with appropriate fencing, and existing leash laws should be enforced outside the park to ensure that dogs do not pose a threat or inconvenience to the surrounding community. With those measures in place, the park should be open during the same hours as other public city parks that are supported with all residents' tax dollars.

- Ellen Debra BEVERLY HILLS, CA
 - 5 days ago
 - Liked 0

It's taken too many years, hours and dollars and city resources to finally reach each this decision for a compromised location. As someone who was literally attacked and bitten by a rescue dog whose owner allowed it to escape from its home and was roaming Wilshire Boulevard at Le Peer and was very agitated by the traffic, I agree it is important it is for dogs to be able to "run free" in such a park – in a somewhat secluded area. Dog owners must be sensitive to those who are noticeably frightened by dogs - even if the owners say the dogs are friendly. With some education and awareness on everyone's part, this park in this area should be acceptable. I say "chill" to those on their way to temple. Remember the law: separation of church and state.

I'm signing because i feel that responsible dog owners should have a meeting place such a dog park in Beverly Hills just like other communities in California. Beverly Hills should be able to contiune to express themselves as a small town community and not just be known for the rich and the famous. The residents are just regular folks too who love their pets. I do agree however , that if the dog park will be near a Synagogue that guidelines should be in place to show respect for those who worship on Shabbat and major Jewish Holidays to show respect for their right to worship. Dog parks can be lots of fun for pets as well as their masters for purposes of socialization and making new furry friends well as new neighbors. Aboie Aboie

It's been a long process and this is a central location that is otherwise being completely under-utilized for the public good. I seems a portion of our community would very much like this use and at little expense to all

involved. I am partial to it following all the rules laid out by our Rec and Park Commissioners, especially that of controlled entry and resident use. That is simply so the resource will last longer and not be overused and abused at cost to taxpayers within the City and not outside our boundaries. At least for now.

Beverly Hills prides itself on the ownership of dogs.

You see dogs all over the city.

On leashes.

Being a city, there are not many places for dogs to run.

A park would provide our loved ones with the requirements needed for a healthy and active life.

In short, a dog park is a necessity for Beverly Hills.

- [Eleanor Schrader](#) LOS ANGELES, CA

As a Beverly Hills apartment renter without a backyard, my dog needs a place where here can run off leash and socialize. It will improve his quality of life and improve mine. Please give us the dog park we have been asking for so that we may enjoy a simple amenity like so many of our neighboring cities do!!

Please be reminded - Elected officials are charged with representing the voting constituency. It's outrageous to imagine a single special interest group located in the industrial area of our city would have the capacity or ability to so greatly influence our local government that our city council would disregard the wishes of its own residents to appease the special interest. Please do not set a dangerous precedent by showing favor to a single interest's wishes over the needs and requests of countless others in our community. Thank you.

Beverly Hills residents deserve a place to take their dogs. The dogs will get exercise and play and their owners/handlers will have the opportunity to socialize with like-minded people. The selected location is far enough away from residential areas and very close to help, should any animal need it. There is even ample parking. The City has spent ten years searching for the perfect location and they have found it. Perhaps the special interest group holding up progress can spend ten of their own years and find their own location!

I have to drive too far to the Hollywood dog park, which is also crowded and dirty.

Our Beverly Hills dogs and their people deserve the same consideration as other area dogs and people. I was in favor of Roxbury Park, La Cienega Park, and now I am in favor of this industrial park. Please do this.

I have a dog, and a dog park would

Be a great addition to our city

After 10 long years of discussions and planning, it's time to finally say yes to a dog park in Beverly Hills. Every city bordering Beverly Hills offers their residents dog parks and

there is no reason why we should not have one in Beverly Hills. Our dogs are very important members of our families and our community - they deserve a dog park.

Dog Parks are a popular amenity offered to residents of every city bordering Beverly Hills. There are many families that include

dogs that live here and they should be able to enjoy at least one dog park in their community

Beverly Hills deserves a dog park now

Petitioning Honorable Julian A Gold, John A. Mirisch, William W. Brien, Lili Bosse and Nancy H. Krasne
Say "Yes" to the first Beverly Hills dog park ever!

Tina Sinatra United States

Beverly Hills needs a Dog Park, and the City has finally found a location that will work.

Every city surrounding Beverly Hills has dog parks; Beverly Hills is still without a single one.

For ten years, the City has searched for the appropriate location. Last year, after much study and deliberation, the corner of Alden Drive and N. Foothill Road was selected.

After several public meetings, the Recreation and Parks Commission and Community Services are ready to move forward with their recommendations to the City Council to finally create a much-desired dog park for the City of Beverly Hills.

The new dog park will be on City-owned property in an industrial area 500 feet from residential uses with ample parking. It is across the street from two historic veterinary hospitals and the Amanda Foundation. It is the perfect location.

But one special interest group threatens the dog park and we need your support.

Please sign this petition and forward this email to as many fair-minded and dog-loving people as possible. Beverly Hills deserves a dog park!

Thank you for your support.
