Attachments: 1. MOA for Coordinated Integrated Monitoring Program (CIMP) for the Ballona Creek Watershed

RECOMMENDATION

It is recommended that the City Council adopt the Memorandum of Agreement (MOA) between the City of Beverly Hills and the City of Los Angeles for the Coordinated Integrated Monitoring Program (CIMP) for Ballona Creek Watershed. This agreement fulfills the regulatory monitoring requirements for the City of Beverly Hills under the 2012 Municipal Separate Storm Sewer System (MS4) National Pollutant Elimination Discharge (NPDES) Permit. The amount of the MOA is not to exceed \$145,618 over the three-year monitoring period ending in FY 2017-18, with an additional \$14,562 contingency. MOA will need to be amended if the costs are to exceed the amounts to reflect any changes.

BACKGROUND

The Federal Clean Water Act (CWA) requires the California Regional Water Quality Control Board, Los Angeles Region (Board), to develop water quality standards that identify criteria to protect beneficial uses for each water body found within its region. Beneficial uses include swimming, fishing, drinking water, navigability, and wildlife habitats and reproduction. Section 303(d) of the CWA requires states to prepare a list of water bodies that do not meet water quality standards and establish for each of these water bodies pollutant load allocations known as total maximum daily loads (TMDLs)

which will ensure attainment of water quality standards. A TMDL represents an amount of pollution that can be released by anthropogenic and natural sources of a watershed into a specific water body without causing a decline in water quality and beneficial uses.

The Ballona Creek Watershed has been listed since 1998, initially for bacteria, on California's Section 303(d) list due to impairments by bacteria, trash, organic chemicals and metals. The Board adopted many TMDLs for these pollutants since 2003 to address these impairments. These TMDLs reduce the amounts of pollutants found in runoff discharges from the cities within these watersheds.

The City Council approved a previous coordinated monitoring plan cost sharing agreement for bacteria, metals and toxics on July 8, 2010.

In accordance with these TMDLs, the City of Los Angeles submitted a Coordinated Integrated Monitoring Program (CIMP) for compliance with the TMDLs on behalf of the agencies within these watersheds. The City of Los Angeles currently performs all required monitoring and reporting to the Regional Board, and annually invoices the City of Beverly Hills for its share of monitoring costs for Ballona Creek.

DISCUSSION

On November 28, 2012, the Board approved a new NDPES permit with more extensive monitoring requirements than were included in the previous 2001 permit. The expansion of monitoring requirements in the new permit requires the adoption of a new monitoring plan, called a Coordinated Integrated Monitoring Plan (CIMP), and therefore, also requires new MOAs with the City of Los Angeles to reflect the amount for monitoring necessary to comply with the permit. Under the terms of the MOA the City of Los Angeles would continue to be responsible for all monitoring and reporting activities to the Board. As part of these terms, the City of Los Angeles will be sending the Board and member agencies semi-annual and annual reports. These reports include monitoring results and exceedances applicable to the TMDLs. City staff will be receiving draft reports and monitoring status during monthly meeting before proceeding with the final report to the Regional Board.

FISCAL IMPACT

Beverly Hills's share of the monitoring costs per the terms of this MOA is not to exceed \$145,618 over the three-year monitoring period ending FY 2017-18, with an additional \$14,562 contingency. The estimated payments are \$55,050 for FY 2015-16, \$47,145 for FY16-17, and \$43,423 for FY 2017-18. There are sufficient funds allocated in the Clean Water Program.

Such amendments may be executed by those individuals listed in Exhibit B or by a responsible individual as authorized by the governing body of each Party.
- f) Waiver. Waiver by any Party to this Agreement of any term, condition, or covenant of this Agreement shall not constitute a waiver of any other term, condition, or covenant. - h) No Presumption in Drafting. The Parties to this Agreement agree that the general rule that an Agreement is to be interpreted against the Party drafting it, or causing it to be prepared shall not apply.

- i) Entire Agreement. This Agreement constitutes the entire agreement of the Parties with respect to the subject matter hereof and supersedes all prior or contemporaneous agreements, whether written or oral, with respect thereto.
- j) Severability. If any term, provision, condition or covenant of this Agreement is declared or determined by any court of competent jurisdiction to be invalid, void, or unenforceable, the remaining provisions of this Agreement shall not be affected thereby and this Agreement shall be read and constructed without the invalid, void, or unenforceable provision(s).
