1. IT Services

- Staff described an outline of the costs to the District of City provided Information Technology services.
- The liaisons discussed the specific services needed and it was agreed that the District would need to further refine the services needed and that the City would study the cost estimates further

2. Security Cameras

- The District requested coordination on the roll out of City cameras where they are planned adjacent to school sites.
- Coordination of City cameras on the public right-of-way and District cameras on the campuses was also discussed.

3. Water Conservation Outreach

- This item was referred to the Public Works Commission to coordinate an overall proposal on outreach opportunities with students in the schools.
- The District representatives identified Eileen Strauss as the contact person when an outreach plan is developed.
