feet allowed elsewhere on the site). The Overlay Zone would also allow the building to exceed the City’s maximum building length of 175-feet, as the project is proposed to be approximately 210-feet in length. The project would include two levels of subterranean parking to provide 127 required parking spaces. Approximately 16.2KSF of common and private open space would be provided in the form of courtyards and terraces. The maximum height of the project would be 66 feet, closest to the Wilshire side, 55-feet in the center of the project and 44-feet on the portion of the project closest to the existing multi-family development. Vehicular access to the site would be taken from South Camden Drive.

Entitlements/Environmental:

- PDR – Required by Overlay Zone
- GPA – Change Land Use Designation / Create an Overlay
- ZTA – Establish Overlay Zone
- Alley Vacation – if no present / future need (TMD)
- Public Benefit Package Expected, if approved
- EIR (Rincon)

| <p>9936 Durant Drive: FILED 12/21/07.</p> <p>Demolition of existing courtyard-styled apartment building designed by Robert Derrah and construction of a new 4-story, 45-foot tall, 13-unit condominium building. The loss of the existing building results in a significant, unavoidable cultural resources impact and requires the preparation of an EIR. To offset to the loss, the applicant is considering a public benefit package that includes deeding two affordable income units on site to the City and construction of a green building in compliance with city standards (the green building ordinance became effective after the project was determined complete for filing and therefore, is not required to comply with the green building ordinance). The project qualifies as a State Density Bonus project under State law and local ordinance. Based on the amount of affordable units being provided, the applicant is entitled to one development incentive or waiver from zoning code requirements. The applicant proposes a reduced rear yard setback from the code required 15 feet to 10 feet. There is an alley located at the rear of the property.</p> <p><u>Entitlements/Environmental:</u></p> <ul style="list-style-type: none"> • DPR – Project Exceeds 2.5KSF • R4 Permit – Additional Paved Walkways in the Front Yard • VTTM – Condominium Subdivision • Density Bonus – Increased Density due to On-Site Affordable Housing Units • EIR (Willdan) <p>(PLANNER: RITA NAZIRI 310 285-1136, rnaziri@beverlyhills.org)</p> | <p>Gale One Properties LLC, Contact: Judah Farahi (O) (310 991-3020)</p> <p>M.
