125 S. Camden Drive (Residences at Saks Fifth Avenue): FILED
5/26/09.

Proposed construction of a six-story, 66-foot tall, 44-unit residential building. A General Plan Amendment and an Overlay Zone are proposed to allow the building height to exceed code requirements (maximum 55 feet allowed on the site closest to Wilshire and 45-feet allowed elsewhere on the site). The Overlay Zone would also allow the building to exceed the City's maximum building length of 175-feet, as the project is proposed to be approximately 210-feet in length. The project would include two levels of subterranean parking to provide 127 required parking spaces. Approximately 16.2KSF of common and private open space would be provided in the form of courtyards and terraces. The maximum height of the project would be 66 feet, closest to the Wilshire side, 55-feet in the center of the project and 44-feet on the portion of the project closest to the existing multi-family development. Vehicular access to the site would be taken from South Camden Drive.

Entitlements/Environmental:

- PDR – Required by Overlay Zone
- GPA – Change Land Use Designation / Create an Overlay
- ZTA – Establish Overlay Zone
- Alley Vacation – if no present / future need (TMD)
