

## Planning Commission Report

**Meeting Date:** June 26, 2014

**Subject:** Public Notice Guidelines

**Recommendation:** Review and provide comments on the Public Notice Guidelines for Planning Applications

---

### REPORT SUMMARY

On May 20, 2014, the City Council adopted an ordinance expanding the public noticing requirements for planning applications. As part of this effort, staff developed a Public Notice Guidelines document (Guidelines) to supplement the information in the municipal code and provide information on noticing to the public (Attachment 1). As set forth in the Municipal Code, these Guidelines are approved by the Director of Community Development and may be modified as needs arise; however, staff is presenting the Guidelines to the Planning Commission for its review and approval prior to implementation. This report summarizes the contents of the Guidelines.

### BACKGROUND

The Fiscal Year 2012/13 Budget included a work plan task to evaluate expanding public noticing. On May 23, 2013 the Planning Commission held a study session on noticing requirements and provided direction to staff. On October 10, 2013, the Planning Commission adopted a resolution recommending that the City Council adopt a draft ordinance that incorporated proposed changes to public noticing requirements. The City Council approved the ordinance on May 20, 2014. In summary, the ordinance included the following changes:

- Consolidating public notice requirements into one section of the Municipal Code
- Expanding the use of on-site posted notices
- Expanding the requirements for mailed notices
- Providing more consistency in noticing requirements

The ordinance approved by the City Council is substantially the same as the ordinance forwarded to the City Council by the Planning Commission in October. The City Council did, however, request that the mailed notice radius for planning commission level projects be expanded from a 300 foot radius plus block-face to a 500 foot radius plus block-face. This change was incorporated into the adopted ordinance.

The public noticing changes in the ordinance took effect on June 20, 2014. Staff began an outreach campaign in May to help applicants prepare for the upcoming changes.

In addition to the code changes, staff also developing a Public Notice Guidelines document, which provides information for applicants about the public noticing requirements for planning applications. Staff is providing the Planning Commission with an opportunity to review the contents of the Public Notice Guidelines document prior to the use of the document by the Planning Division.

## **DISCUSSION**

### **Purpose of Guidelines**

The guidelines are meant to:

1. Provide the public with an easy-to-understand summary of public notice requirements
2. Instruct applicants on how to meet the requirements
3. Outline additional actions, beyond the code requirements, that the City will take to notify residents of applications and projects

### **Contents of Guidelines**

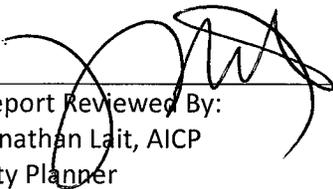

The guidelines are meant to provide the applicant with an understanding of the various public notice requirements for different applications handled by the Planning Division. Whenever possible, information is presented in a visual manner to increase the readability of the document. Information is provided in the following sections:

- Introduction (Pgs. 1 & 2): Provides basic information including definitions and an explanation of the various commissions that review planning applications.
- General Requirements (Pgs. 3 & 4): Includes a table that summarizes the on-site posted notice, newspaper notice and mailed notice requirements for each type of planning application.
- Mailed Notice (Pgs. 5 & 6): Provides applicants with detailed instructions regarding the fulfilment of the mailed notice requirements for planning applications
- On-Site Posted Notice Requirements (Pgs. 7-10): Includes size and dimension requirements for site postings (two different sizes depending on whether the project is residential [larger sign] or commercial [smaller sign]), and provides instruction on how to post signs on property and where signs shall be posted in relation to property line
- Newspaper Notice (Pg. 11): Outlines the applications that require newspaper notices
- Additional Noticing (Pg. 12): Describes actions that the City will take to keep the public informed about planning applications and projects beyond what is required in the code, including providing information on the City's website, and encouraging applicants to reach out to neighbors
- Other Rules and Regulations and Additional Resources (Pgs. 13 & 14): Lists applications with special requirements and provides applicants with lists of mapping and mailing label companies and sign printers

Staff anticipates that the contents of the Guidelines will change periodically as technologies develop and more effective methods of notification are adopted. If there are future substantive changes made to the Public Notice Guidelines document, staff will return to the Planning Commission to ensure that the Commission is aware of the changes.

**RECOMMENDATION**

Staff recommends that the Planning Commission review and approve the contents of the attached Public Notice Guidelines.

### USING THIS GUIDE

This guide is intended to provide applicants with additional information on public noticing for applications considered by the Community Development Department and the Planning, Architectural, Design Review, and Cultural Heritage Commissions.

Generally, the noticing requirements for projects vary based on the location of the subject property and the type of review required for the application. To determine the general requirements for your application, please consult the map on Page 2 to determine in which area of the City your property is located and the table on Page 6 for the specific noticing requirements. If you are unsure of the type of review that your application will require, please consult your project planner. If you do not yet have a project planner, please contact the Planning Division at 310-285-1141.

Once you have determined what type of noticing is required for your application, you can find specifics on completing the noticing in this document as well as in Beverly Hills Municipal Code (BHMC) Section 10-3-2.5.

Important information for applicants is presented in grey boxes throughout this document.

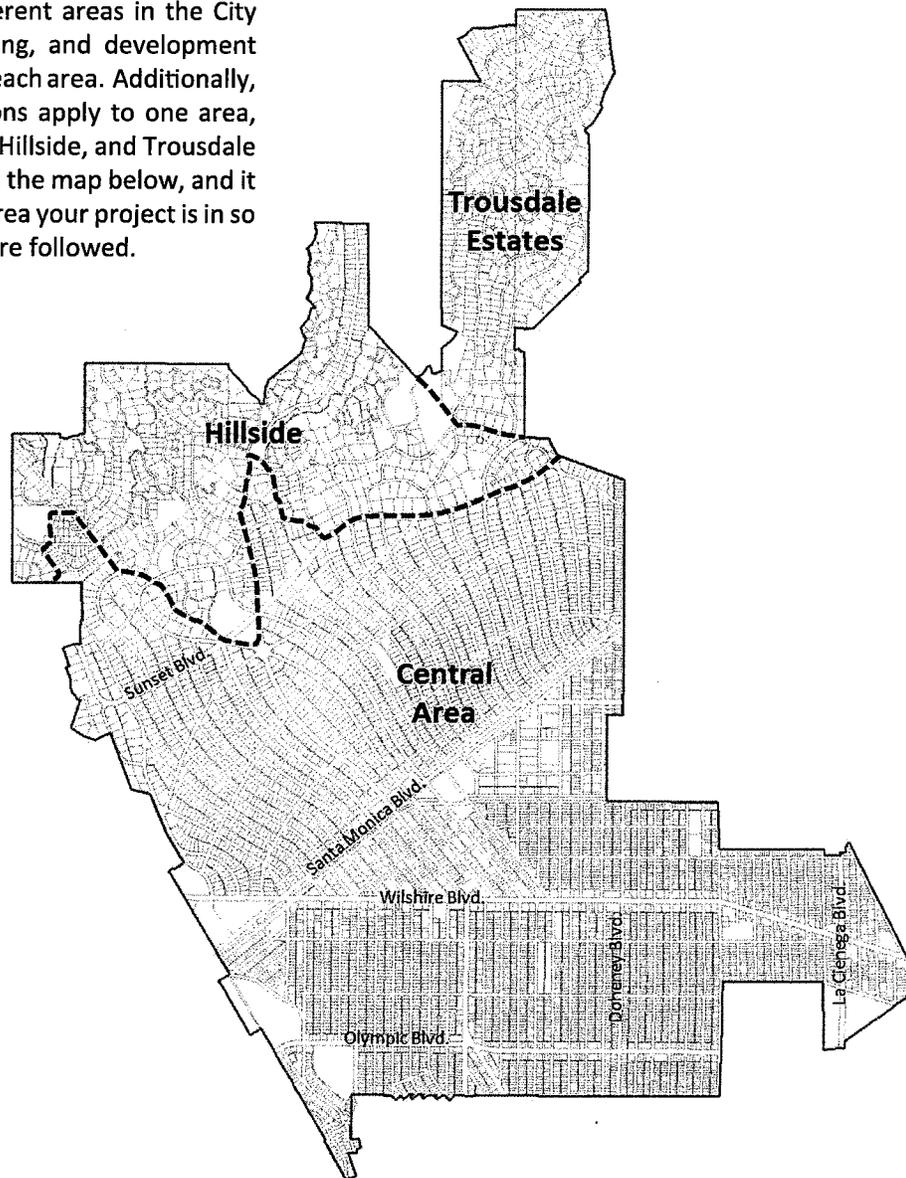

# INTRODUCTION

## PUBLIC NOTICING REQUIREMENTS

Public noticing helps to ensure that the community is aware of land use applications and development projects, and to encourage more public participation in the planning, development, and decision-making process. Public noticing requirements are outlined in BHMC 10-3-2.5. Please note that several applications have special noticing requirements. These applications are listed on page 13 of this document.

### AREAS OF THE CITY

Throughout the Municipal Code and Guidelines there are references to different areas in the City of Beverly Hills. Uses, zoning, and development standards can be different in each area. Additionally, some permits and applications apply to one area, but not others. The Central, Hillside, and Trousdale Estates areas are depicted on the map below, and it is important to know which area your project is in so that the proper procedures are followed.

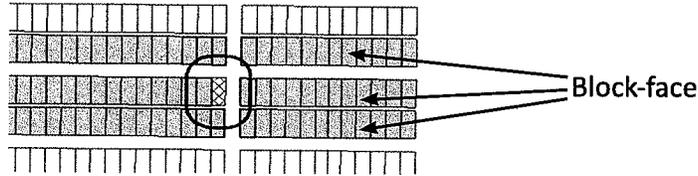

# INTRODUCTION

## DEFINITIONS

Throughout the Municipal Code and Guidelines there are references to various terms that are defined below:

**BLOCK-FACE** The properties along one side of a street between two consecutive intersections.

**COMMISSION-LEVEL REVIEW** Planning applications reviewed by one of the commissions staffed by the Community Development Department.

**DIRECTOR-LEVEL REVIEW** Planning applications reviewed and decided on by the Director of Community Development or his/her designee.

**PLANNING APPLICATION** Applications administered by the Planning Division of the Community Development Department.

**RADIUS** Measured as a distance from the exterior boundary of a subject property.

## TYPES OF REVIEW AND COMMISSIONS

Throughout the Code and Guidelines there are references to different commissions that review applications:

**ARCHITECTURAL REVIEW**  
*BHMC 10-3-30* Required for buildings, signs, walls, general exterior modifications, fences and landscaping in zones other than single-family residential in Beverly Hills. The Architectural Review Commission reviews projects that are not able to be reviewed at the Director-Level.

**CULTURAL HERITAGE REVIEW**  
*BHMC 10-3-32* Required for the designation of landmarks, historic districts, and determinations of ineligibility. The Cultural Heritage Commission makes recommendations to the City Council on Landmark or Historic Designation nominations and Mills Act Contracts. The Cultural Heritage Commission also acts on Certificates of Appropriateness and Director's Determination of Ineligibility.

**DESIGN REVIEW**  
*BHMC 10-3-44* Required for new single family homes and significant remodels of homes in the Central Area of the City. "Track 1" projects are reviewed at the Director-Level. The Design Review Commission reviews "Track 2" projects that cannot be reviewed at the Director-level.

**PLANNING REVIEW**  
*BHMC 10-3* Required for the majority of the planning applications that are processed by the Community Development Department. Director-Level review includes applications that can be processed at the staff level. Commission-Level applications are heard by the Planning Commission.

# GENERAL REQUIREMENTS

General public notice requirements are outlined below. The table is organized by the type of review (Planning, Design, Architectural, Cultural Heritage) and the level of review (Director-Level or Commission-Level). Please refer to Beverly Hills Municipal Code Section 10-3-2.5 for further clarification.

Public Notice Requirements for Development Applications		On-Site Posted Notice	Newspaper Notice	Mailed Notice
<b>Planning Review</b>				
<p>Director-level review includes applications that can be processed at the staff-level. Commission-level applications will be heard by the Planning Commission at a public hearing. <p><b>Commission-level</b>            Commission level applications include projects that are reviewed by the City's Design Review Commission (DRC) including Single Family Home facade remodels and new homes in the Central Area of the City that are determined to be "Track 2"</p>	Yes	None	Central Area: 100' radius + blockface

# MAILED NOTICE

Design Review and certain Planning applications require that mailed notices to be sent to property owners and occupants near the subject site. Please refer to the table on Pages 3 and 4 to determine the planning applications that require a mailed notice.

**City staff will write and mail the public notices once the following has been provided by the applicant:**

## APPLICATION REQUIREMENTS

- Two (2) copies of a map drawn to scale indicating each parcel of land and land use receiving a mailed notice. This may be prepared by the applicant or by a mapping company; however it is recommended that a mapping company is used to ensure accuracy of the map (see Page 14).
- Three (3) sets of gummed mailing labels of owners and occupants to receive notice as determined by LA County Assessor's data and visual site inspections.
- A digital Excel file with the addresses of all owners and occupants to receive notice.
- Signed affidavit verifying that the mailing list submitted to the City includes all property owners and occupants within the required mailing area. The affidavit is provided as part of the application packet.

### WHEN WILL THE NOTICE BE MAILED?

Notices of Application/Pending Action and Notices of Public Hearing will be mailed by City staff at least ten (10) days prior to any action or hearing by the reviewing authority. Notices of Action shall be mailed within five days of the issuance of a decision by the reviewing authority.

### WHO WILL RECEIVE A MAILED NOTICE?

Noticing requirements vary based on location and will be mailed to:

- Owners and occupants of the properties that are to receive notice (see table on pages 3 and 4). The owners list must be obtained from the most current LA County Tax Assessor's Roll.
- The applicant(s), owner(s) and occupant(s) of subject property.
- Any person or group who has filed a written request for notice regarding the specific application.

### WHAT DOES THE MAILED NOTICE SAY?

Each mailed notice shall contain the following information:

- Address of subject property
- Description of application
- Time/date/location of hearing (if applicable)
- Information on appeal
- Contact information for planner

### WHO PREPARES THE NOTICE?

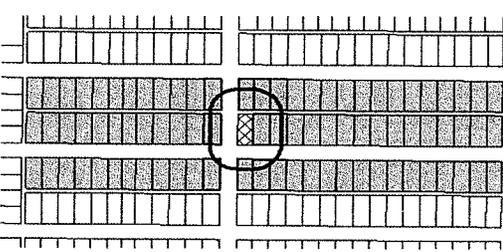

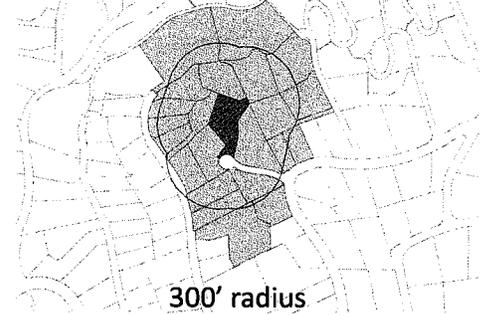

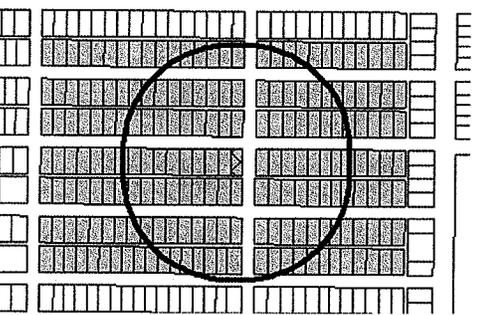

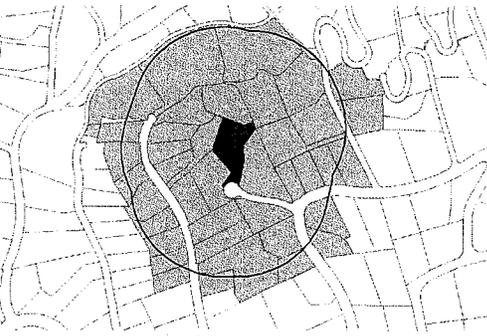

City staff will prepare and mail the notice once the mailing labels have been provided by the applicant.

## NOTICING RADIUS

Recipients of mailed notices are determined by measuring a radius from the outer boundary of the applicant's property. In addition to a standard radius, applicants in the Central Area of the City are also required to mail notices to properties located along the block-face if any part of the block falls within the radius. Please see below for requirements:

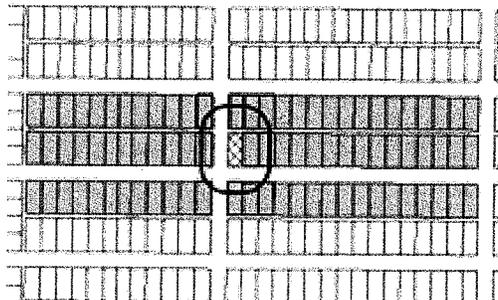

### PLANNING REVIEW

If the table on Page 3 indicates that your planning review application requires mailed noticing, use the following information to determine the radius required for mailing.

	CENTRAL AREA	HILLSIDE AND TROUSDALE AREA
DIRECTOR LEVEL	 <p>100' radius + Block-face</p>	 <p>300' radius</p>
COMMISSION LEVEL	 <p>500' radius + Block-face</p>	 <p>500' radius</p>

### DESIGN REVIEW

Design Review is only required in the Central Area of the City. Mailed noticing for Design Review is required for Commission-Level Cases only.

The required mailing radius for Design Review cases is 100' radius + Block-face

# ON-SITE POSTED NOTICE

## GENERAL REQUIREMENTS FOR ON-SITE POSTED NOTICES

Many Commission-level applications and some Director-level applications require on-site posted notices. On-site posted notices are placed on the subject property for a required period of time to notify others in the neighborhood of a pending application or upcoming public hearing. The posted notice requirements vary depending on whether the application is for a project on a commercial or residential property, and the process for posting varies based on the type of review required for an application.

Please refer to the following pages for more information regarding on-site posted notices:

- Commercial property: Page 8
- Residential property: Page 9

### POSTING REQUIREMENTS

If an application requires on-site posting the following requirements must be met:

- POSTING TIME:** All on-site posted notices must be posted at least ten (10) days prior to a public hearing or decision on the application.
- AFFIDAVIT:** The applicant shall submit an affidavit within five (5) days of posting the sign on the project site to verify that the sign is posted in compliance with City requirements. The affidavit can be found on the City's website at [www.beverlyhills.org/publicnotice](http://www.beverlyhills.org/publicnotice) and is provided with project applications.
- PHOTOGRAPHS:** The applicant shall submit two photographs to the City. One photograph should clearly show the contents of the posted notice. The other shall show the notice posted on the property in manner and location that conforms with all requirements on Page 8 or 9.
- REMOVAL:** The applicant is responsible for the removal of the posted notice. Each notice shall be removed at the end of the appeal period for the application. The appeal period begins after a decision on the application has been rendered. Failure to remove posted notices may result in additional fees.

**Failure to comply with the requirements above could result in a delay in application processing.**

More detailed requirements for commercial and residential posted notices are presented on Pages 8, 9 and 10 of these guidelines.

# ON-SITE POSTED NOTICE

## COMMERCIAL PROPERTIES

On-site posted notices for commercial properties may be printed on card stock. City staff will create the posted notice and the applicant is responsible for posting the notice on the subject property.

**LOCATION:** The notice shall be posted in a conspicuous location on the subject property. The preferred location is in a window facing the public right-of-way. If the property is located on a corner, there must be a notice posted on each right-of-way. If this is not possible, the sign may be affixed to the exterior of a building in a professional looking manner.

**CONTENT:** Contents of the posted notice shall conform to the requirements set forth by State Law and City regulations. Signs are created by the Planning Division.

**TIME:** Posted at least ten (10) days prior to hearing or decision. Must be removed from site after the appeal period for the application has ended.

**MATERIAL:** White cardstock

**SIZE:** 11 inches by 17 inches (11" x 17")

## NOTICE

**Intent to file for an Open Air Dining Permit**

This is to give notice of the intent of the owner of this business to seek an open air dining permit for:

- Seating of up to 8 chairs
- Seating for more than 8 chairs
- Permanent railing enclosure

The application will be submitted to the Department of Community Development – Planning at 455 North Rexford Drive, Room G-40, Beverly Hills, California 90210.

### EXAMPLE COMMERCIAL ON-SITE NOTICE

**PROCEDURE:** The following procedures shall be followed for site posting:

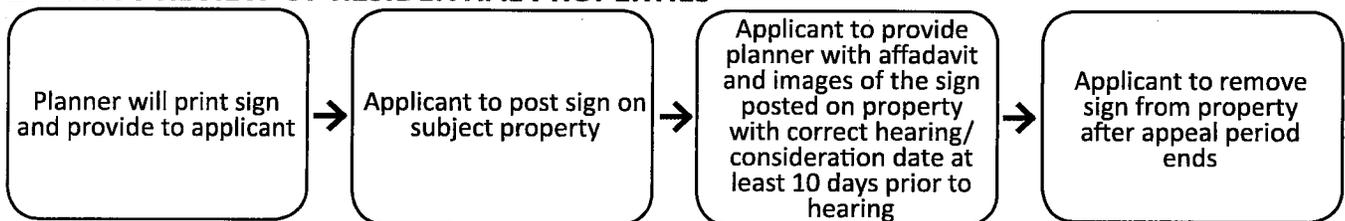

# ON-SITE POSTED NOTICES

## RESIDENTIAL PROPERTIES

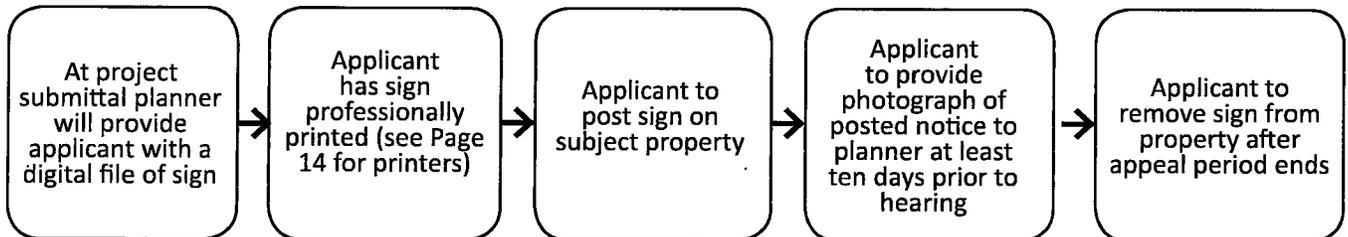

Residential on-site posted notices are required for Director- and Commission-Level Planning Review and Commission-Level Architectural and Design Review of residential properties.

- LOCATION:** The sign shall be posted within five (5) feet of the front property line.  
The bottom edge of the sign shall be no higher than four (4) feet off the ground.
- CONTENT:** The sign shall include the following information:
- General description of action requested
  - Public hearing date and location
  - Name and contact information of project planner
  - Site address
  - Size and height of proposed building/project
  - Applicant contact information
  - Some projects will also require a color rendering of the proposed project
- TIME:** Posted at least ten days prior to a hearing or decision
- SIZE:** 18 inches by 24 inches (18" x 24")
- MATERIAL:** White Coroplast
- POSTING:** Signs shall be posted on the property using a heavy duty "H" stake for Coroplast signs. These stakes will be provided by the City. If necessary, and with staff approval, the sign may also be neatly affixed to a construction barricade or fence within five feet of the property line.
- PROCEDURE:** The process for posting for residential properties varies depending on whether the application is being considered by the Planning Commission, Design Review Commission, or Architectural Commission. Please see below for more information on posting on residential properties.

The sign shall conform to the example on-site posted notice shown above. It should not contain handwritten information, except for the date of the hearing.

# NEWSPAPER NOTICE

## NEWSPAPER NOTICE

Newspaper notices are required for several planning applications including:

- Amendments (General Plan, Streets Master Plan, Specific Plan, Zone Text, Zoning Code),
- Conditional Use Permits,
- Maps (Tentative and Parcel)
- Specific Plan
- Variance

When required, the newspaper notice shall be posted in newspapers of general circulation in the City at least 10 days in advance of a public hearing or decision.

City staff will coordinate with the newspapers to arrange for the publication of the notice; however, the full cost of the publication will be borne by the applicant.

**For more information on any of the requirements outlined in this document please contact the Beverly Hills Planning Division at (310) 285-1141**

**Public notice information is also provided on the City's website at: [www.beverlyhills.org/PublicNotice](http://www.beverlyhills.org/PublicNotice).**

# ADDITIONAL NOTICING

## DIRECTOR'S STANDARDS

The City is committed to ensuring that public noticing is efficient and effective and that community members are informed of potential decisions and public hearings. In addition to the rules and standards outlined in the code and these guidelines, the Director shall also:

- Provide project information on the City's Website when appropriate
- Provide application and project information to community and neighborhood groups

The Director shall also have the ability to:

- Require an applicant to include additional information beyond what is specified by State law and the zoning code in public notice materials.
- Expand noticing requirements for applications as appropriate. This may include expanding the mailed notice radius/area, requiring more on-site posting, or requiring additional newspaper noticing.
- Require project applicants to hold a community meeting on the application/project.
- Amend or adjust specific requirements outlined in this Public Notice Guidelines Document when they will increase the efficiency and effectiveness of public noticing to the community.

## NEIGHBORHOOD OUTREACH

In addition to the mailings, site posting, and newspaper noticing that a project may require, it is recommended that project applicants reach out to neighbors and neighborhood groups as part of the public noticing process. Personally contacting neighboring property owners and occupants may make the application process easier, and ensure that any potential issues are identified before a decision is made on a case.

Applicants may consider conducting outreach via the following methods:

- Sending letters to neighbors and neighborhood groups
- Visiting neighbors and discussing the project in person
- Hosting a small community meeting about the proposed project to answer questions
- Attending a meeting of a local neighborhood group to introduce and discuss project
- Creating a project website

City planning staff will help applicants identify neighborhood groups that may have an interest in an application in order to begin the outreach process, whenever possible.

# OTHER RULES AND REGULATIONS

The following general rules and standards apply to public noticing for planning applications:

## TIME

All public noticing must be completed within the specified time-frame for the application to be considered complete. If noticing is not completed within the specified time-frame review of the application may be delayed. The time frames for mailed, posted and newspaper notices are described in each section in these guidelines.

## MULTIPLE APPLICATIONS

If multiple applications are submitted for the same project or site area, the City may issue a single notice for all related applications. Notification for multiple applications for the same project or site area shall conform to the requirements of the application under review with the most extensive requirements.

## SPECIAL REQUIREMENTS

The following applications have special noticing requirements that are outlined in BHMC 10-3-2.5.

- Common Interest Development
- Large Family Daycare Permit
- Reasonable Accommodation
- Tree Removal Permit
- Certificate of Appropriateness
- Landmark and Historic District Designation
- Resolution of Public Convenience and Necessity, and
- View Restoration

These requirements are not addressed in these guidelines. Please refer to BHMC 10-3-253(B) for more information on these applications and consult a planner with any questions.

## STATE LAW

In addition to requirements set forth in the Beverly Hills Municipal Code and these guidelines, all planning applications must be noticed in accordance with state law when applicable.

## FAILURE OF PERSON OR ENTITY TO RECEIVE NOTICE

The failure of a person or entity to receive a notice given pursuant to the City's noticing requirements shall not constitute grounds for any court to invalidate the actions for which notice was given.

# ADDITIONAL RESOURCES

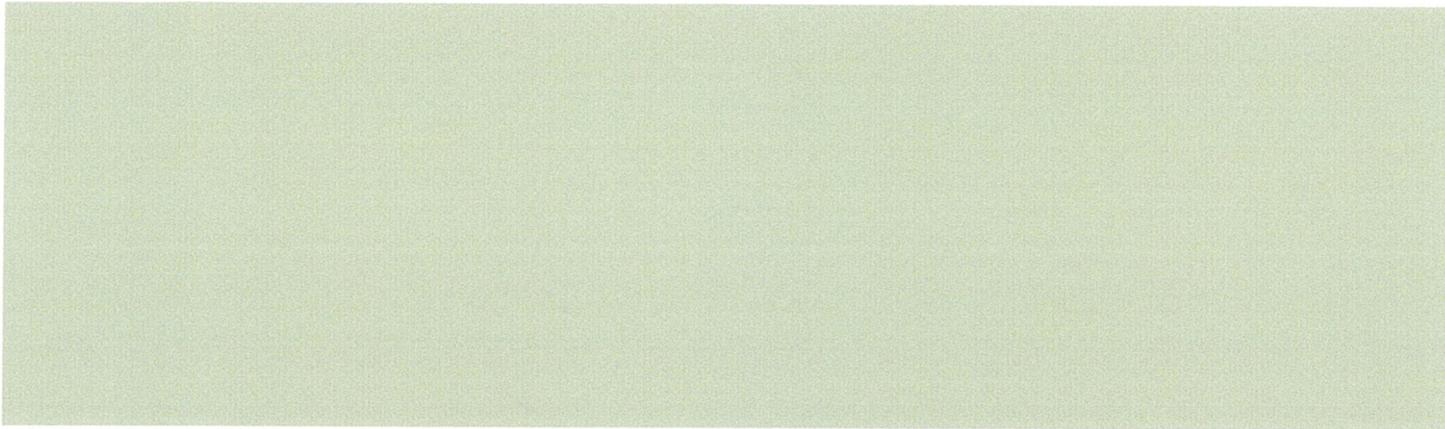

Below is a list of companies in the area that provide services to applicants that may be helpful in completing the public noticing as required by the City of Beverly Hills. Please note that applicants are not required to use vendors included on this list, and this list is not an endorsement of the services of any of the listed companies. The list is provided solely for information purposes. Applicants are encouraged to use a mapping company to ensure the accuracy of mailing labels.
