

Architectural Commission Report

Meeting Date: Wednesday, April 20, 2016

Subject: **BUCCELLATI (PL1604722)**
9517 Wilshire Boulevard

Request for approval of façade modifications, a sign accommodation for multiple business identification signs, awning signage, and a construction barricade graphic. The Commission will also consider adoption of a Categorical Exemption, pursuant to the California Environmental Quality Act.

Project Agent: Anita Koritowska – Space Architects

Recommendation: Conduct a public hearing to discuss the project details and provide the applicant with an approval, as conditioned.

REPORT SUMMARY

The applicant is requesting review and approval of façade modifications, a sign accommodation for multiple business identification signs, awning signage, and a construction barricade graphic for Buccellati located at 9517 Wilshire Boulevard. The project includes the following components:

Façade Remodel

- Reconfigured storefront to remove entryway vestibule;
- New storefront system with burnished brass frames and clear glass;
- New transom windows above entryway and storefront window, and;
- Recover existing awnings with blue fabric on existing frames.

Sign Accommodation (multiple business identification signs)

WILSHIRE BOULEVARD				
Location	Size	Quantity	Illumination	Material
Entry door glazing	1.3 SF	1	None	Vinyl
Door handle	0.5 SF	1	None	Golden brass
Façade pilaster	1.9 SF	1	None	Golden brass
Interior vitrines	0.2 SF (0.4 SF total)	2	Internal	Acrylic
TOTAL SIGN AREA: 4.1 SF (5 SIGNS)				

Pursuant to the Beverly Hills Municipal Code (BHMC) §10-4-604, the Architectural Commission may approve a sign accommodation to allow multiple business identification signs if the total area of all business identification signs does not exceed the lesser of: 1) 100 square feet; 2) the

AC Meeting – April 20, 2016

total business sign area otherwise permitted by this section, or; 3) 10% of the vertical surface area of that portion of the wall below 20'-0". Based on a total storefront length of 22'-11" the maximum sign area is 4.1 square feet; the proposed sign area is 46 square feet. As such, the proposed business identification signage is within the maximum standards set forth in the BHMC.

Awning Signage

- Two (2) gold-lettered business identification signs, 6.25" in height, on each awning valence.

Pursuant to BHMC §10-4-306, one horizontal line of letters and symbols that does not exceed seven inches (0'-7") in height, which identifies the name and occupation of the tenant or owner, may be fixed to the awning valence. As proposed, the proposed awning signage is within the maximum standards set forth in the BHMC.

Construction Barricade

- One (1) 11.6 SF business identification sign on the barricade face;
- One (1) 6SF business identification sign area on *each* barricade return allocated for adjacent tenants, and;
- Brand-oriented lifestyle graphics.

Pursuant to BHMC §10-4-612, construction barricades may include 12 square feet of signage that includes the name of the business, a company logo, and the opening date of the business on that portion of the construction barricade parallel to the street. Each barricade return (that portion located perpendicular to the street) may include 2 square feet of such signage. As proposed, the barricade complies with the standards.

Each barricade return also includes 6 square feet of sign area allocated to adjacent tenants. The sign area for adjacent tenants complies with the Community Development Department's policy of requiring such signage to ensure that adjacent tenants maintain visibility during construction.

URBAN DESIGN ANALYSIS

The proposed project will maintain the classic aesthetic of the existing storefront with a refreshed material palette that will complement the overall building. The business identification signage and awning signage is tasteful in its configuration and the chosen materials exhibit a high quality look and feel. Staff has identified one potential modification/consideration to ensure an appropriate execution of the project:

- Consider a small bulkhead of specialty stone in conjunction with the storefront to accommodate the sloping site or, conversely, provide details of the transition to appropriately address the transition from the sidewalk to the storefront system base without the need for an alternative transition element.

Project-specific conditions have been included in the draft approval resolution (Attachment C); however, the Commission may wish to add/delete/modify any project-specific conditions deemed necessary to make the required findings for approval.

Architectural Commission Report

455 North Rexford Drive, Room 280-A

AC Meeting – April 20, 2016

ZONING CODE COMPLIANCE

Applications for design review are preliminarily evaluated for compliance with the zoning code. Applicants are encouraged and have the option of requesting a comprehensive review separate and apart from this application. Formal compliance review will occur when a building permit application is filed (plan check). The applicant has been advised that changes during plan check may require revisions and subsequent approval from the Architectural Commission or staff, as appropriate.

ENVIRONMENTAL ASSESSMENT

The subject project is exempt from the California Environmental Quality Act (CEQA – Public Resources Code §§21000 – 21178), pursuant to Section 15061(b)(3) of the State CEQA Guidelines in that the project includes the review of building design, colors and materials to the façade of the building, front yard landscaping or minor low-scaled accessory structures, such as fences or walls. It can be seen with certainty that there is no possibility that the subject activity could result in a significant effect on the environment. The project has also been reviewed and found not be a historic resource. The existing improvements to be demolished or altered were not designed by an architect or builder identified on the City's Master Architect list and the site and improvements are not listed on the City's historic resource inventory.

PUBLIC OUTREACH AND NOTIFICATION

Public outreach and notification was not required for this project.

Attachment A

Detailed Design Description
and Materials (applicant prepared)

SECTION 2 – PROJECT DESCRIPTION / ZONING INFORMATION

A Indicate Requested Application

- Staff Review
 - Three (3) sets of plans required (all plan sets must be 11" x 17" in size).
- Architectural Commission Review
 - Eight (8) sets of plans required (all plan sets must be 11" x 17" in size).
 - Public Notice materials required for Sign Accommodations (see Section 5 for public notice requirements).

B Identify the scope of work (check all that apply):

- New construction
 - Façade Remodel ONLY
 - Business Identification Sign(s)
Number of signs proposed: 5
 - Building Identification Sign(s)
Number of signs proposed: _____
 - Sign Accommodation (explain reason for the accommodation request below):
Number of signs proposed: 5
 - Other: _____
- Remodel: Int. & Ext, no floor area added
 - Remodel: Int. & Ext, floor area added
 - Awning(s): New Recovery
 - Open Air Dining: #Tables _____ # Chairs _____

C Describe the scope of work proposed including materials and finishes:

- New entry door pushed forward to align with display window
- New ultra-clear, single pane low iron security glass
- All new burnished bronze mullions and display window curb.
- Two new blue awning fabric on existing metal tube frames with gold BUCCELLATI logos.
- One new golden brass personalized door handle.
- One new burnished brass plaque with golden brass lettering for business name and address
- New barricade and graphics
- New coco-mat at interior of entry

D Identify the Project Zoning (City Zoning Map: <http://gis.beverlyhills.org/>)

E Lot is currently developed with (check all that apply):

- General Office Building
- Retail Building
- Medical Office Building
- Multi-family Building
- Vacant
- Restaurant
- Other (specify below): _____

F Has the existing structure been designed by a notable architect or is it identified on any historic resource inventory, including the City of Beverly Historic Resources Survey (Verify with the Planning Division if the property is listed on the City's survey)?

Yes No If yes, please list Architect's name: _____

SECTION 3 – PROJECT DETAILS AND MATERIALS (continues on next page)

A Indicate in the chart below all applicable signage details:

	<u>Type of Sign</u>	<u>Quantity</u>	<u>Dimensions</u>	<u>Square Ft</u>	<u>Maximum Area Permitted by Code</u>
1	Door Handle	1	9 1/4" X 8 1/8"	0.5	
2	Window vinyl	1	1'-10" 7/8" X 8 3/8"	1.3	
3	Plaque	1	1'-1" X 1'9"	1.9	
4	Display Cases	2	2 3/8" X 11 7/8"	0.4	
5					

B List the specific materials and finishes for all of the architectural features proposed in the project (List N/A, not applicable, for features that do not apply.):

FAÇADE (List all material for all portions visible from the street)

Material: Stone Base and Glazed Tile
Texture /Finish: smooth
Color / Transparency: beige/grey

WINDOWS/DOORS (Include frame, trim, glass, metal, etc.)

Material: Laminated Security Glass
Texture /Finish: Smooth
Color / Transparency: Ultra-Clear, Low-Iron,

ROOF

Material: N/A
Texture /Finish:
Color / Transparency:

COLUMNS

Material: N/A

OTHER DESIGN ELEMENTS

Material: N/A
Texture /Finish:
Color / Transparency:

C Describe the proposed landscape theme, if applicable. Explain how the proposed landscaping complements the proposed style of architecture:

N/A

SECTION 4 – DESIGN ANALYSIS AND FINDINGS (for Commission level applications only)

A Clearly identify how your project adheres to each of the required findings of the Architectural Review Commission:

1. **Describe how the proposed building or structure is in conformity with good taste and good design and, in general, contributes to the image of Beverly Hills as a place of beauty, spaciousness, balance, taste, fitness, broad vistas and high quality.**

the replacement of the fabric of the awnings are in keeping with the context in size, shape and colors. The logo and color represent the label's new concept direction
The new bronze mullions and ultra-clear glass is an improvement to the painted aluminum mullions and tinted glass.
the new bronze plaque is in keeping with the address plaques on the wilshire blvd. side of the property. This is also an improvement from the previous numbers

2. **Describe how the proposed building or structure indicates the manner in which the structure is reasonably protected against external and internal noise, vibrations, and other factors which may tend to make the environment less desirable.**

N/A

3. **Describe how the proposed building or structure is not, in its exterior design and appearance, of inferior quality such as to cause the nature of the local environment to materially depreciate in appearance and value.**

the window mullions are going from painted aluminum to burnished bronze.
Glass is going from tinted to ultra-clear, and both of the windows will have a single glass pane.

4. **Describe how the proposed building or structure is in harmony with the proposed developments on land in the general area, with the general plan for Beverly Hills, and with any precise plans adopted pursuant to the general plan.**

N/A

5. **Describe how the proposed development is in conformity with the standards of the municipal code and other applicable laws insofar as the location and appearance of the buildings and structures are involved.**

DRAFT Approval Resolution

RESOLUTION NO. AC-XX-16

RESOLUTION OF THE ARCHITECTURAL COMMISSION OF THE CITY OF BEVERLY HILLS CONDITIONALLY APPROVING AN ARCHITECTURAL REVIEW PERMIT FOR FAÇADE MODIFICATIONS, A SIGN ACCOMMODATION FOR MULTIPLE BUSINESS IDENTIFICATION SIGNS, AWNING SIGNAGE, AND A CONSTRUCTION BARRICADE GRAPHIC FOR THE PROPERTY LOCATED AT 9517 WILSHIRE BOULEVARD (PL1604722 - BUCCELLATI).

The Architectural Commission of the City of Beverly Hills hereby finds, resolves and determines as follows:

Section 1. Anita Koritowska, Space Architects, agent, on behalf of the property owner, Sloane Two Rodeo, LLC, and the tenant, Buccellati, (Collectively the “Applicant”), has applied for architectural approval for façade modifications, a sign accommodation for multiple business identification signs, awning signage, and a construction barricade graphic for the property located at 9517 Wilshire Boulevard.

Section 2. Beverly Hills Municipal Code Article 30, Chapter 3 of Title 10, authorizes the Architectural Commission the authority to approve, approve with conditions or deny design-related aspects of projects located in the city’s commercial and multi-family districts, subject to findings set forth in Beverly Municipal Code Section 10-3-3010.

Section 3. Consistent with Beverly Hills Municipal Code Section 10-3-3010, this resolution documents the official action of the architectural commission with respect to the project.

Section 4. The subject project has been reviewed pursuant to the provisions set forth in the California Environmental Quality Act (CEQA – Public Resource Code Sections 21000, *et seq.*), the State CEQA Guidelines (California Code of Regulations, Title 14, Sections 15000 *et seq.*), and the city’s local

CEQA Guidelines. The subject project is exempt from the California Environmental Quality Act (CEQA – Public Resources Code §§21000 – 21178), pursuant to Section 15061(b)(3) of the State CEQA Guidelines in that the project includes the review of building design, colors and materials to the façade of the building, front yard landscaping or minor low-scaled accessory structures, such as fences or walls. It can be seen with certainty that there is no possibility that the subject activity could result in a significant effect on the environment. The project has also been reviewed and found not be a historic resource. The existing improvements to be demolished or altered were not designed by an architect or builder identified on the City’s Master Architect list and the site and improvements are not listed on the City’s historic resource inventory.

Section 5. The Architectural Commission conducted a duly noticed public hearing on **April 20, 2016** at which time oral and documentary evidence was received concerning the application.

Section 6. Based upon the evidence presented at the hearings, including the staff report(s), oral and written testimony, the Architectural Commission hereby makes the following findings:

A. The plan for the proposed building or structure is in conformity with good taste and good design and, in general, contributes to the image of Beverly Hills as a place of beauty, spaciousness, balance, taste, fitness, broad vistas, and high quality. Specifically the project incorporates an appropriate balance of color, high quality materials and appropriate architectural design principles to reinforce the city’s urban form and promote the image of Beverly Hills.

B. The plan for the proposed building or structure indicates the manner in which the structure is reasonably protected against external and internal noise, vibrations, and other factors which may tend to make the environmental less desirable. The proposed project is proposed to be constructed

using contemporary building materials and practices, and, as conditioned, complaint with all applicable building codes, including standards that protect against unwanted noise and vibrations.

C. Proposed building or structure is not, in its exterior design and appearance, of inferior quality such as to cause the nature of the local environment to materially depreciate in appearance and value. Specifically, the commission has reviewed the design and construction materials proposed for the project, which incorporates contemporary building material of known quality and durability. Moreover, the project design is appropriate to the building and surrounding improvements and is well matched to the selected materials.

D. As conditioned, the proposed building or structure is in harmony with the proposed developments on land in the general area, with the general plan for Beverly Hills, and with any precise plans adopted pursuant to the general plan. The proposed project complies with the applicable goals and policies set forth in the general plan, and, as conditioned, designed in a manner that complies with local ordinances. The overall design is consistent with and appropriate to other improvements in the general vicinity.

E. The proposed development is in conformity with the standards of this code and other applicable laws insofar as the location and appearance of the buildings and structures are involved. As, conditioned, the project will be designed in compliance with all applicable regulations.

F. The proposed development is designed in a manner that protects and preserves those exterior elements of the building which the planning commission found contributed to the determination of the project as a “character contributing building”: in accordance with section 10-2-707 of this title. The proposed project does not include a request and has not been determined by the planning commission to be a project that qualifies as a “character contributing building” under section 10-2-707. Therefore, this finding is not applicable to the subject project.

Section 7. Based on the foregoing, the Architectural Commission hereby grants the request defined in this resolution subject to the following conditions:

Project-Specific Conditions

1. Final details of the transition between the storefront system and the sidewalk shall be provided or, alternatively, a small bulkhead of specialty stone may be proposed to accommodate the sloping site, subject to final review and approval by the City's Urban Designer.

Standard Conditions

2. **Revised Plan Submittal.** For all projects that are approved with project-specific conditions, a revised plan set that has fully incorporated all such conditions shall be submitted to the project planner, both in hard copy format and in electronic format, prior to submitting for the building permit plan check process.
3. **Architectural Approval.** Project approval is for the design-related aspects of the project only. No approval is implied or granted with regard to applicable city zoning or technical codes, which may require review and approval from other city commissions or officials.
4. **Compliance with Municipal Code.** Prior to issuance of a building permit, the applicant shall demonstrate compliance with all applicable provisions of the city's municipal code and applicable conditions imposed by any discretionary review approval.
5. **Compliance with Special Conditions.** Any special conditions that require approval by the director of community development, or designee, shall be submitted to the staff liaison to the commission within fourteen (14) days of approval or prior to submittal of the plan check review application, whichever is greater.

6. **Project Rendering.** Prior to issuance of a building permit, the applicant shall incorporate into the building permit set of plans, an updated color rendering of all building facades. The quality and detail of the rendering shall be subject to approval from the director of community development, or designee, and shall include sufficient design information to evaluate project compliance during construction.

7. **Approval Resolution.** A copy of the signed resolution of approval shall be scanned onto the cover sheet(s) of the building permit set of plans.

8. **Substantial Compliance with Approved Plans.** The director of community development, or designee, shall determine if changes to the approved project are in substantial compliance with the commission's action. This determination shall be subject to applicable fees and charges. A substantial modification to the approved project requires approval from the Architectural Commission.

9. **Validity of Permits.** The rights granted by this approval shall remain valid for three (3) years from the date of approval, unless extended pursuant to Beverly Hills Municipal Code Section 10-3-207.

Section 8. The Secretary of the Architectural Commission shall certify to the passage, approval, and adoption of this resolution, and shall cause this resolution and its certification to be entered in the administrative record maintained by the community development department.

Section 9. Decisions of the Architectural Commission may be appealed to the City Council within fourteen (14) days of the final action by filling a written appeal and paying appropriate fees with the City of Beverly Hills City Clerk.

Approved as to Form and Content:

Adopted: **April 20, 2016**

Mark Odell, Commission Secretary
Community Development Department

Andrea Gardner Apatow, Chair
Architectural Commission
