Dear Traffic Commissioner(s):

Every morning from the vantage point of Il Forniao, I watch 2 or 3 cars, heading south on Beverly Drive, make a right turn (west) on to Dayton Way which is One-Way (east).

This is in the frame of a half-hour so one can imagine how many times a day this happens.

Are all the drivers tourists, stupid? No. The placement of the One-Way sign is. Too high, too small, out of place, and asking for trouble. Which there is bound to be.

You should fix this situation before that.
